Even though local governments raise revenues under authority granted by state government, there are many differences in the taxes, fees, and charges that localities impose. Each year the University of Virginia's Weldon Cooper Center for Public Service conducts a comprehensive survey on the tax rates of all cities, counties and incorporated towns in Virginia and provides the results in its annual book, Virginia Local Tax Rates. This publication allows you to compare local government tax policies across Virginia and provides detailed background information on local taxes rates. All cities and counties participated in the latest 2018 survey, as did 133 of the 190 incorporated towns. The survey's results, plus additional information from other sources, provide a comprehensive picture of local tax policies in the state. The text includes descriptions of authorizing state statutes, the various tax categories, and

statewide statistics including ranges and averages. Anyone involved with local governments in Virginia, either as a taxpayer, elected official, administrator, business leader, or researcher, will find this an indispensable resource.

## **Hogg's West Virginia Code, Annotated**

The coasts of today's American South feature luxury condominiums, resorts, and gated communities, yet just a century ago, a surprising amount of beachfront property in the Chesapeake, along the Carolina shores, and around the Gulf of Mexico was owned and populated by African Americans. Blending social and environmental history, Andrew W. Kahrl tells the story of African American-owned beaches in the twentieth century. By reconstructing African American life along the coast, Kahrl demonstrates just how important these properties were for African American communities and leisure, as well as for economic empowerment, especially during the era of the Jim Crow South. However, in the wake of the civil rights movement and amid the growing prosperity of the Sunbelt, many African Americans fell victim to effective campaigns to dispossess black landowners of their properties and beaches. Kahrl makes a signal

contribution to our understanding of African American landowners and real-estate developers, as well as the development of coastal capitalism along the southern seaboard, tying the creation of overdeveloped, unsustainable coastlines to the unmaking of black communities and cultures along the shore. The result is a skillful appraisal of the ambiguous legacy of racial progress in the Sunbelt.
