Filled with insights from leading Australian CEOs, Master CEOs taps into the thoughts of Australia's leading chief executive officers or managing directors in an effort to understand why they are such outstanding leaders, and why the companies they run have delivered above-average results. Master CEOs is not only about management — it also delivers a very strong message on leadership. To be interviewed for the book, the CEO had to be in charge of their company for at least 10 years and delivered shareholders a return greater than the share market in that period. CEOs covered include: Gerry Harvey from Harvey Norman, Paul Little from Toll Holdings, Graham Turner from Flight Centre, David Simmons from Hills Industries and many more. All new interviews, never before published.

Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.
