BUSINESS LAW: PRINCIPLES AND PRACTICES, 9E has been revised dramatically to enhance learning! The 9th edition offers a new learning system with clear learning objectives to guide students. The fresh two-color design engages students with its contemporary features: Ethics in a Business Setting, You React, and the Self-Check Quizzes. The case examples are presented in readable segments to be clear, current, and jargon-free. Co-authored by Arnold J. Goldman, a practicing attorney and William D. Sigismond, a veteran business law educator, this straightforward text shows students about the law using fascinating cases and ethical dilemmas. Hypothetical examples immediately follow discussion of concepts to further reinforce understanding. The new edition is updated throughout to reflect recent changes in the law, covering legal rights and responsibilities in both the public and private sectors. The approach used by Hoyle, Schaefer, and Douplik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle, 11/e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the ten previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 11th edition includes an increase integration of IFRS as well as the updated accounting standards.

The Practice of Statistics for Business and Economics

The Haddock text features the successful author team Price et al. The author team based A Contemporary Approach on the solid foundation of the Price 14e textbook; however, in Haddock, the approach has been modified to fit the needs of a growing number of College Accounting instructors who teach the course without covering special journals. These instructors feel that special journals are an unnecessarily complicated subject for such a basic course. By eliminating special journal coverage, professors are free to focus on recording to the general journal and posting to the general ledger - the basic bookkeeping functions that are so important to accountants in the real world. Competing books have placed special journals in an appendix (Slater) or tried to separate special journal coverage from general journal coverage but retain both (McQuaig). Haddock is the only text on the market that eliminates special journal coverage completely (why make students pay for material they will not learn in the course?). With Haddock on the roster, instructor's have a choice between a traditional approach that fully integrates special journals into the text in a succinct and logical way (Price 14e) or a contemporary approach that focuses on the basics and is more in keeping with where the course is headed in the future (Haddock 3e).
