A Concise American History

Born on the Links encompasses the entire 600-year history of golf, from the links in Scotland in the fifteenth century up to the present. It not only covers golf's origins, evolution, and development of the rules, equipment, and playing fields, but also features accounts of its greatest players and historic events.

Hollywood Be Thy Name

Provides a chronological history of immigration, race, and ethnicity in the United States from 1600 to 2000, covering such topics as migration, intergroup relations, identity formation, and nativism.

Mental Health among African Americans

Swee Hong Lim and Lester Ruth have filled an important gap in the study of worship. *Lovin' on Jesus: A Concise History of Contemporary Worship* is the first scholarly work of its kind on this topic. Lim and Ruth trace the origins and development of what we commonly call contemporary Christian worship, exploring it thoroughly and methodically. Their research includes early recordings and interviews with many who were directly involved in the early stages. The authors were students of James White, and their book is, in a sense, a much-needed addition to White's classic *Introduction to Christian Worship*. The thematic structure of *Lovin' on Jesus* mirrors that of White's *Introduction*, making this book exceedingly useful for students and practitioners in the study of Christian worship as a whole. This is an essential resource for all students, scholars, worship leaders, and pastors who are serious about understanding the worship they lead. "Meticulously researched, accessibly written, generous in its praise, and balanced in its critiques—this is the book for which many of us have long been waiting." —Melanie C. Ross, Assistant Professor of Liturgical Studies, Yale Divinity School, New Haven, CT "Particularly useful for teaching is the way Lim and Ruth organize their account by practices of time, space, music, prayer, technology, and scripture. This will immediately become a required textbook for the courses I teach on Christian worship." —Ed Phillips, Associate Professor of Worship and Liturgical Theology and Coordinator of the Initiative in Religious Practices and Practical Theology, Candler School of Theology, Atlanta, GA "Readers will find Lim and Ruth's one-of-a-kind history convincing and rigorous. The authors show how a modern genre of Christian worship claimed its place, what it all means, and where it is heading." —Gerald Liu, Assistant Professor of Worship and Preaching, Princeton Theological Seminary, Princeton, NJ "Lovin' on Jesus is an important book for every pastor, worship leader, and worshipper. This wonderfully prepared study will help you keep your worship experience biblically centered, dynamic, and growing." —Rick Muchow, Founding Worship Pastor, Saddleback Church, worship leader and coach

Lovin' on Jesus

"Spanning more than two hundred years, An African American and Latinx History of the United States is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations such as "manifest destiny" and "Jacksonian democracy, " and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers--Chicana/os, Afrocubanos, and immigrants from every continent on earth--united in resistance on the first "Day Without Immigrants." As African American civil rights activists fought against Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. And in stark contrast to the resurgence of "America first" rhetoric, Black and Latinx intellectuals and organizers today have urged the United States to build bridges of solidarity with the nations of the America. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americas, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights."--Dust jacket.

African-American History

Provides biographical and historical information on a group of African-American artists who worked during the 1920s, 1930s, and 1940s to legitimize dance of the African diaspora as a serious art form.

African Americans

The twin acts of singing and fighting for freedom have been inseparable in African American history. May We Forever Stand tells an essential part of that story. With lyrics penned by James Weldon Johnson and music composed by his brother Rosamond, "Lift Every Voice and Sing" was embraced almost immediately as an anthem that captured the story and the aspirations of black Americans. Since the song's creation, it has been adopted by the NAACP and performed by countless artists in times of both crisis and celebration, cementing its place in African American life up through the present day. In this rich, poignant, and readable work, Imani Perry tells the story of the Black National Anthem as it traveled from South to

North, from civil rights to black power, and from countless family reunions to Carnegie Hall and the Oval Office. Drawing on a wide array of sources, Perry uses "Lift Every Voice and Sing" as a window on the powerful ways African Americans have used music and culture to organize, mourn, challenge, and celebrate for more than a century.

Making Black History

1885-1914. Mary Fields, a fifty-three-year old second-generation slave, emancipated and residing in Toledo, receives news of her friend's impending death. Remedies packed in her satchel, Mary rushes to board the Northern Pacific. She arrives in the Montana wilderness to find Mother Mary Amadeus lying on frozen earth in a broken-down cabin. Certain that the cloister of frostbit Ursuline nuns and their students, Indian girls rescued from nearby reservations, will not survive without assistance, Mary decides to stay. She builds a henery, makes repairs to living quarters, cares for stock, and treks into the mountains to provide food. Brushes with death do not deter her. Mary drives a horse and wagon through perilous terrain and blizzards to improve the lives of missionaries, homesteaders and Indians and, in the process, her own. After weathering wolf attacks, wagon crashes and treacherous conspiracies by scoundrels, local politicians and the state's first Catholic bishop, Mary Fields creates another daring plan. An avid patriot, she is determined to register for the vote. The price is high. Will she manifest her personal vision of independence? MCCONNELL'S RESEARCH enabled USPS to verify Mary Fields as the first African American woman star route mail carrier in the U.S. A chronicle of Fields' life in Montana from 1885 until her death in 1914, the narrative examines women rights, bootleg politics, Montana's turn-of-the-century transition from territory to state and its scandalous 1914 woman suffrage election. SHORT-LISTED 2015 LARAMIE AWARD McConnell fashioned a historical narrative marrying prose and poetry, fact with creative writing. With the discerning eye of a photographer, the deft hand of a historian, and the literary heart of a poet, the life of Mary Fields, legendary black woman of Montana, rises off the page into living history. If the reader has any interest in Mary Fields, aka Stagecoach Mary, *Deliverance* is the one book you must read.--Cowboy Mike Searles, Author, Professor of History, Augusta University, GA. A great story and history of Mary Fields, an important back westerner. A must read for youths and adults. --Bruce A. Glasrud, Author, Professor, California State University.

American Nightmare

The Global Economy: A Concise History traces the history of the global economy over the past thousand years. In doing so, it explores all the main waves of globalization, from the trade revolution of the Middle Ages, to the Great and Little Divergence between the West and the East, as well as the North and the South of the world. This book examines the Industrial Revolution and the World Wars, and their respective consequences, as well as the interaction between technological shifts and the transition in geopolitical equilibria. The last chapters are dedicated to an in-depth examination

of the transformation which occurred in the global economy after 1989. The chronological structure of the book is designed to help students memorize and understand key events. This book also discusses broader themes, such as convergence–divergence, growth and decline, development, and industrial revolutions. This will make it of interest not only to students and academics, but to all readers wishing to gain a deeper understanding of the history and current state of the global economy.

African Americans, Combined Volume

"This is a ground-breaking book. The text is remarkable in its use of MPAA files and studio archives; Weisenfeld uncovers all sorts of side stories that enrich the larger narrative. The writing is clear and concise, and Weisenfeld makes important theoretical interpretations without indulging in difficult jargon. She incorporates both film theory and race theory in graceful, non-obtrusive ways that deepen understanding. This is an outstanding work."—Colleen McDannell, author of *Picturing Faith: Photography and the Great Depression*

Caring for Equality

Patient-Centered Clinical Care for African Americans

This study resource includes commentary, definitions, identifications, map exercises, short-answer exercises, and essay questions.

African Americans

A Concise History of American Antisemitism shows how Christianity's negative views of Jews pervaded American history from colonial times to the present. The book describes the European background to American anti-Semitism, then divides American history into time periods, and examines the anti-Semitic ideas, personalities, and literature in each period. It also demonstrates that anti-Semitism led to certain behaviors in some United States officials that resulted in the deaths of hundreds of thousands of Jews during the Holocaust. Clear and forceful, A Concise History of American Antisemitism is an important work for undergraduate course use and for the general public interested in the roots of the current rash of anti-Semitism.

Torchbearers of Democracy

The term 'science fiction' has an established common usage, but close examination reveals that writers, fans, editors, scholars, and publishers often use this word in different ways for different reasons. Exploring how science fiction has emerged through competing versions and the struggle to define its limits, this Concise History: provides an accessible and clear overview of the development of the genre traces the separation of sf from a broader fantastic literature and the simultaneous formation of neighbouring genres, such as fantasy and horror shows the relationship between magazine and paperback traditions in sf publishing is organised by theme and presented chronologically uses text boxes throughout to highlight key works in sf traditions including dystopian, apocalyptic and evolutionary fiction includes a short overview and bullet-pointed conclusion for each chapter. Discussing the place of key works and looking forward to the future of the genre, this book is the ideal starting point both for students and all those seeking a better understanding of science fiction.

An African American and Latinx History of the United States

Contains nearly 100 source documents, organized chronologically in 17 chapters. Includes letters, speeches, editorials, interviews, memoirs, petitions, poems, songs, and stories by African American men and women of all classes in different regions of the United States.

Born on the Links

This title is an easy-to-read guide outlining specific differences in communication, clinical therapies, medications, protocols, and other critical approaches to the care of African Americans. The book discusses a wide range of disorders impacting African Americans and takes a comprehensive and evidence-based approach to the clinical support of providers that see African American patients. Recording the worst medical outcomes of any racial/ethnic group in America, African Americans have the highest mortality, longest hospital length of stay, worst compliance with medications and referrals, and the lowest trust of the healthcare system. Indeed, there are countless well-designed studies that validate verified differences in the clinical care of a number of pervasive diseases in African Americans, including hypertension, heart disease, kidney disease, obesity, cancer, and more. Despite the widespread acknowledgement of the existence of health disparities among racial/ethnic groups, the overall outcomes for African Americans are still the most shocking. From high infant mortality to death by almost any cause, African Americans have the worst data of any other racial or ethnic group. Patient-Centered Clinical Care for African Americans, a highly practical and first-of-its-kind title, illuminates these alarming issues and represents a major contribution to the clinical literature. It will be of significant interest to all physicians, clinicians, and allied health personnel.

The American Promise: A Concise History, Combined Volume

Download Ebook African Americans Concise History Combined

A compelling story of agency, survival, struggle and triumph over adversity. This text illuminates the central place of African Americans in U.S. history by telling the story of what it has meant to be black in America and how African-American history is inseparably woven into the greater context of American history. African Americans draws on recent research to present black history within broad social, cultural and political frameworks. From Africa to the 21st century, this book follows the long turbulent journey of African Americans, the rich culture they have nurtured throughout their history and the quest for freedom through which African Americans have sought to counter oppression and racism. This text also recognizes the diversity within the African-American sphere, providing coverage of class and gender and balancing the lives of ordinary men and women with accounts of black leaders. The Global Economy

From one of the world's leading historians?a comprehensive narrative of the 3,000 years that have formed Asia's people, culture, and global destiny Tracing its origins in Mesopotamia to its modern role on the global geopolitical stage, historian Arthur Cotterell offers a compelling, lively, and readable account of one of the most culturally diverse, and often misunderstood, parts of the world. Beginning with the emergence of the world's earliest civilization in 3000 BC, Asia: A Concise History provides a fascinating look at the global convulsions?like the rise and fall of Assyria and Persia, the medieval states that flourished after the advent of Islam, and the modern transformations triggered by the lightning conquests of imperial Japan?that have shaped the continent. Covers the great events and figures of Asian history, along with a look at the monumental remains that bear witness to those times: the ziggurats of Iraq, the Taj Mahal, the Great Wall of China, the temple of Angkor Wat Includes fascinating slices of history, including funeral arrangements for Qin Shi Huangdi in 210 BC; an extract from Lord Macartney's journal of his 1793 diplomatic mission to the Qing emperor Qian Long; and Toyotomi Hideyoshi's edict of 1587 banning firearms in Japan Features boxed inserts of special interest?like a Babylonian recipe for lamb stew circa 1500 BC Contains over 100 illustrations, maps, and photos Other books by Cotterell: The Minoan World, The First Emperor of China, The Encyclopedia of Mythology, and Chariot Destined to become a reference staple for history buffs and students of Asian history, Asia: A Concise History offers readers a breathtaking narrative and wealth of detail that make the formative periods, key events, and personalities from this once remote part of the world come alive.

The Struggle for Freedom

In the Jim Crow era, along with black churches, schools, and newspapers, African Americans also had their own history. *Making Black History* focuses on the engine behind the early black history movement, Carter G. Woodson and his Association for the Study of Negro Life and History (ASNLH). Author Jeffrey Aaron Snyder shows how the study and celebration of black history became an increasingly important part of African American life over the course of the early to mid-twentieth century. It was the glue that held African Americans together as “a people,” a weapon to fight racism, and a roadmap to a brighter future. *Making Black History* takes an expansive view of the historical enterprise, covering not just the production of black history but also its circulation, reception, and performance. Woodson, the only professional historian whose parents had been born into slavery, attracted a strong network of devoted members to the ASNLH, including professional and lay historians, teachers, students, “race” leaders, journalists, and artists. They all grappled with a set of interrelated questions: Who and what is “Negro”? What is the relationship of black history to American history? And what are the purposes of history? Tracking the different answers to these questions, Snyder recovers a rich public discourse about black history that took shape in journals, monographs, and textbooks and sprang to life in the pages of the black press, the classrooms of black schools, and annual celebrations of Negro History Week. By lining up the Negro history movement’s trajectory with the wider arc of African American history, Snyder changes our understanding of such signal aspects of twentieth-century black life as segregated schools, the Harlem Renaissance, and the emerging modern civil rights movement.

A Concise History of History

Expertly steering readers through the often tumultuous and exhilarating history of the United States, from its early modern Native American roots to twenty-first-century neoliberalism and the shifting political climate of the past decade, this highly readable textbook provides a compelling overview of American development over the last five centuries. This book avoids either celebratory or condemnatory rhetoric to present a critical examination of domestic America and its interaction with the rest of the world. Balancing coverage of political, social, cultural, and economic history, each chapter also includes a wealth of features to facilitate learning: Timelines situating key events in their wider chronology Lists of topics covered within each chapter for easy reference Concept boxes discussing selected issues in more detail Historiography boxes exploring key debates Chapter summaries offering condensed outlines of the main themes of each chapter Further reading lists guiding readers to additional resources Maps and images bringing to life important events and figures from America's history Clearly and engagingly written and positioning America's narrative within the wider global context, this textbook is particularly accessible for non-US students and is the perfect introduction for those new to US history. This textbook is also supported by a companion website offering interactive content including a timeline, multiple-choice quizzes, and links to selected web resources.

Korean Americans: A Concise History

Chronicles the history of the laws enacted following the conclusion of the Civil War that segregated the South into white and non-white segments, discussing how they were established, justified, and finally dismantled.

May We Forever Stand

In *Mental Health among African Americans: Innovations in Research and Practice*, Erlanger A. Turner presents a new theoretical framework that emphasizes culturally sensitive clinical practices and Afrocentric values in order to address the lower rates of African Americans seeking medical treatment in the United States.

A Concise History of Brazil

The second edition of A Concise History of Brazil features a new chapter that covers the critical time period from 1990 to the present, focusing on Brazil's increasing global economic importance as well as its continued democratic development.

African Americans, A Concise History Volume 2

The Color Line provides a concise history of the role of race and ethnicity in the US, from the early colonial period to the present, to reveal the public policies and private actions that have enabled racial subordination and the actors who have

fought against it. Focusing on Native Americans, African Americans, Asian Americans, and Latino Americans, it explores how racial subordination developed in the region, how it has been resisted and opposed, and how it has been sustained through independence, the abolition of slavery, the civil rights movement, and subsequent reforms. The text also considers the position of European immigrants to the US, interrogates relevant moral issues, and identifies persistent problems of public policy, arguing that all four centuries of racial subordination are relevant to understanding contemporary America and some of its most urgent issues. This book will be of interest to students and scholars of American history, the history of race and ethnicity, and other related courses in the humanities and social sciences.

These United States: The Questions of Our Past: Volume I: To 1877

This short history of history is an ideal introduction for those studying or teaching the subject as part of courses on the historian's craft, historical theory and method, and historiography. Spanning the earliest known forms of historical writing in the ancient Near East right through to the present and covering developments in Europe, Asia, Africa and the Americas, it also touches on the latest topics and debates in the field, such as 'Big History', 'Deep History' and the impact of the electronic age. It features timelines listing major dynasties or regimes throughout the world alongside historiographical developments; guides to key thinkers and seminal historical works; further reading; a glossary of terms; and sample questions to promote further debate at the end of each chapter. This is a truly global account of the process of progressive intercultural contact that led to the hegemony of Western historiographical methods.

Sources of the African American Past

For the 380,000 African American soldiers who fought in World War I, Woodrow Wilson's charge to make the world "safe for democracy" carried life-or-death meaning. Chad L. Williams reveals the central role of African American soldiers in the global conflict and how they, along with race activists and ordinary citizens, committed to fighting for democracy at home and beyond. Using a diverse range of sources, *Torchbearers of Democracy* reclaims the legacy of African American soldiers and veterans and connects their history to issues such as the obligations of citizenship, combat and labor, diaspora and internationalism, homecoming and racial violence, "New Negro" militancy, and African American memories of the war.

Race and Ethnicity in America

Offers a reconstructed history of the United States as seen through the experiences and struggles of African Americans during the Colonial period, slavery, the Civil War, reconstruction, and the Civil Rights era.

Reconstruction

Black Faces, White Spaces: Reimagining the Relationship of African Americans to the Great Outdoors

Black Faces, White Spaces

The African-American Odyssey is a compelling story of agency, survival, struggle and triumph over adversity. The authors highlight what it has meant to be black in America and how African-American history is inseparably woven into the greater context of American history. The text provides accounts of the lives of ordinary men and women alongside those of key African-Americans and the impact they have had on the struggle for equality to illuminate the central place of African-Americans in U.S. history more than any other text.

African American Lives

The American Promise: A Concise History is a brief, inexpensive narrative with a clear political, chronological narrative that makes teaching and learning American history a snap. Streamlined by the authors themselves to create a truly concise book, the fifth edition is nearly 15 percent shorter than the fourth compact edition, yet it includes more primary sources than ever—including a new visual sources feature. It is also enhanced by LearningCurve, our easy-to-assign adaptive learning system that will ensure students come to class prepared.

A Concise History of American Antisemitism

Uses a biographical approach to present the history of African Americans as active and thoughtful agents in the construction of their lives and communities. This text places African American lives and stories at the center of the narrative and as the basis of historical analysis. Each chapter opens with a vignette focusing on an individual.

The Routledge Concise History of Science Fiction

Reconstruction: A Concise History' is a gracefully-written interpretation of Reconstruction as a spirited struggle to re-integrate the defeated Southern Confederacy into the American Union after the Civil War, to bring African Americans into the political mainstream of American life, and to recreate the Southern economy after a Northern, free-labor model.
