Unto a Good Land offers a distinctive narrative history of the American people -- from the first contacts between Europeans and North America's native inhabitants, through the creation of a modern nation, to the standing of the United States as a world power. Written by a team of distinguished historians led by David Edwin Harrell, Jr. and Edwin S. Gaustad, this textbook shows how grasping the uniqueness of the bAmerican experimentb depends on understanding the role of religion as well as social, cultural, political, and economic factors in shaping U.S. history. A common shortcoming of most United States history textbooks is that while, in recent decades, they have expanded their coverage of social and cultural history, they still tend to shortchange the role of religious ideas, practices, and movements in the American past. Unto a Good Land addresses this shortcoming in a balanced way. The authors recognize that religion is only one of many factors that have influenced our past -- one, however, that has often been neglected in textbook accounts. This volume gives religion its appropriate place in the story. Unprecedented coverage of the forces that have shaped the history of the

United States While none of America's rich history is left out, this volume is the first U.S. history textbook to give serious attention to the religious dimension of American life. This textbook is not a religious history; instead, it offers an account of American history that includes religious ideas, practices, and movements whenever they played a shaping role. Comprehensive and current This volume traces the American story from the earliest encounters between the first North American inhabitants and Europeans through the 2004 presidential election. Complete and balanced treatment is also given to issues of gender, race, and ethnicity, as well as cultural, political, and economic forces. A clear and compelling narrative The authors are more than expert historians; they are also talented writers who recognize history to be the retelling of human life. United by a seamless narrative structure, these chapters restore the bstoryb to history. Multiple formats specially designed for flexible classroom use Unto a Good Land is available as a single hardcover edition or as two paperback volumes, offering maximum flexibility when adapting curriculum for one- and two-semester courses in U.S. history. The two paperback volumes can be used for U.S. history survey courses divided at 1865 or 1900 -- or at any date in between. Informative special features to complement the text In addition to the book's exceptional narrative, an array of special features enhances the instructional value of the text and points students to resources for further study. Includes assistance for teaching and test preparation The instructor's manual for Unto a Good Land provides helpful suggestions for lesson plans and assignments, and the test bank provides multiple-choice and

essay questions for use as study aids, quizzes, or tests. Suitable for instruction at both secular and religious colleges and universities Drawing on their experience in both secular and religious schools, the authors have ensured that this textbook is suitable for U.S. history classes in a wide variety of settings.

In response to the ever-changing challenges of teaching the survey course, Understanding the American Promise combines a newly abridged narrative with an innovative chapter architecture to focus students' attention on what's truly significant. Each chapter is fully designed to guide students' comprehension and foster their development of historical skills. Brief and affordable but still balanced in its coverage, this new textbook combines distinctive study aids, a bold new design, and lively art to give your students a clear pathway to what's important.

"Building the American Republic tells the story of United States with remarkable grace and skill, its fast moving narrative making the nation's struggles and accomplishments new and compelling. Weaving together stories of abroad range of Americans. Volume 1 starts at sea and ends on the field. Beginning with the earliest Americans and the arrival of strangers on the eastern shore, it then moves through colonial society to the fight for independence and the construction of a federal republic. Vol 2 opens as America struggles to regain its footing, reeling from a presidential assassination and facing massive economic growth, rapid

demographic change, and combusive politics.

What was America? The question resounds today more than ever. While countless contemporary textbooks have sought to relate this country's history, most have done so in fragmented, diluted, or unapproachable ways. These two volumes break down all the barriers to a full understanding of America: it has just two authors, each with a strong point of view; it is told in pure narrative form, befitting its riveting story; and it is as low-cost a textbook as there has ever been. Unlike other open access textbooks, Building the Republic is authoritative and coherent.

Throughout, Harry Watson and Jane Dailey emphasize the enduring and multifarious influence of religion, the evolution of law and legal norms, and the distinctive history and influence of the South. And they take a capacious view of the role of politics in US history, beyond simple "political history." These two volumes sweep the reader up in the inimitable history of a country forever remaking itself.
