The practice of hatha yoga, as we commonly know it, is but one of eight branches of the body of knowledge that is yoga. In fact, yoga is a sophisticated system of self-empowerment that is capable of harnessing and activating inner energies in such a way that your body and mind function at their optimal capacity. It is a means to create inner situations exactly the way you want them, turning you into the architect of your own joy. A yogi lives life in this expansive state, and in this transformative book Sadhguru tells the story of his own awakening, from a boy with an unusual affinity for the natural world to a young daredevil who crossed the Indian continent on his motorcycle. He relates the moment of his enlightenment on a mountaintop in southern India, where time stood still and he emerged radically changed. Today, as the founder of Isha, an organization devoted to humanitarian causes, he lights the path for millions. The term guru, he notes, means "dispeller of darkness, someone who opens the door for you As a guru, I have no doctrine to teach, no philosophy to impart, no belief to propagate. And that is because the only solution for all the ills that plague humanity is self-transformation. Self-transformation means that nothing of the old remains. It is a dimensional shift in the way you perceive and experience life."

Government Brahmana is the English translation of the Kannada autobiography of Aravind Malagatti. The autobiographical narrative is in the form of a series of episodes from the author's childhood and youth. These episodes function as what G.N. Devy calls epiphanic moments in a caste society. The author reflects on specific instances from his childhood and student days that illustrate the normative cruelty practiced by caste Hindu society on dalits. We encounter all the tropes of (male) dalit life: is isolation in school where even drinking water is an ordeal; life in the village where dalits perform the filthiest tasks but are denied access to common wells, lakes, where they cannot step into shops and therefore have their purchases thrown at them, where they have to cut their own hair because no barber would touch it; consuming dead-animal meat and innards; doomed love affairs with `upper caste women. A painful, disturbing, thought-provoking memoir, this text is conversely full of vitality, even tenderness. In its structure and purpose as a series of notes towards a dalit autobiography Government Brahmana appears to be anticipated by Ambedkar's own autobiographical sketches.
