Sailor Moon 11

After retrieving all of the evil Clow Cards, fifth-grader Sakura, Master of the Clow, must now face the challenges sent by Clow Reed, the creator of the Clow Cards,

while also dealing with her love for older student Yukito.

Cardcaptor Sakura: Clear Card

MPD-Psycho, the most-requested manga series in recently memory, has found a fitting home at Dark Horse Manga, where it will be presented uncut and uncensored in all of its controversial and unflinchingly grotesque glory! If Takashi Miike's MPD-Psychotelevision series still has you confused and reeling, the original manga series that inspired the show is sure to take you on a longer, darker journey into madness. Enjoy the MPD-Psychoseries for all of its absurd twists, sci-fi touches, and inventive torture scenes, but you'll also be mesmerized by the plethora of odd conspiracies and case files found in Otsuka and Tajima's uncontrollable, urban horrorshow. In MPD-Psycho Volume One, police detective Kobayashi Yousuke's life is changed forever after a serial killer notices something "special" about him. That same killer mutilates Kobayashi's wife and kick-starts a "multiple personality battle" within Kobayashi that pushes him into a complex tempest of interconnected deviants and evil forces. Earning praise for its consistently shocking plotlines and Tajima's clean, arresting art style, MPD-Psycho is the manga event of the decade!

Abby's Choice

If you've never experienced this unique, cute sci-fi romance about what it means to be human, now's your chance! One of the biggest hits from CLAMP, creators of xxxHOLiC and Magic Knight Rayearth, returns in a definitive, hardcover premium collector's edition, featuring a large size, premium paper, color pages, and more. After moving from the countryside into the big city, poor college student Hideki Motosuwa finds himself down on his luck. All he wants is a good job, a girlfriend, and his very own "persocom" - the latest and greatest in humanoid computer technology. Hideki's luck changes one night when he finds Chi - an adorable, but seemingly broken, persocom thrown out in a pile of trash. After taking her home, Hideki discovers that Chi is more responsibility than he expected - and that there's much more to his cute new persocom than meets the eye.

Data visualization is an essential means of making visible the invisible patterns that surround us, and of seeing beyond the numbers. In *Data Sketches*, Nadieh Bremer and Shirley Wu document the deeply collaborative, deeply creative process behind 24 unique data visualization projects. Completed over the course of 12 months and spanning 12 different topics - from the Olympics to Presidents & Royals and from Movies to Myths & Legends - each pair of "wondrously eccentric" visualizations explores different technologies and forms, blurring the boundary between visualization as an exploratory tool and an art form in its own right. The book provides an intimate, behind-the-scenes account of all 24 projects - from data gathering, to sketching, to coding processes - and shares the authors' personal notes and drafts every step of the way. The book features: Detailed information on data gathering, sketching, and implementing processes, with screenshots of works-in-progress and reproductions from the authors' notebooks Never-before-published technical write-ups, with beginner-friendly explanations of core data visualization concepts Practical lessons based on the data and design challenges behind each project: the mistakes that were made and how they were overcome Full-color pages, showcasing all 24 final data visualizations An interview between the authors and series editor Tamara Munzner This book is perfect for anyone interested or working in data visualization and information design, especially those who want to take their work to the next level and are inspired by unique and compelling data-driven storytelling. Nadieh Bremer is an astronomer turned data scientist turned freelancing data visualization designer. Shirley Wu studied business and finance,

graduated as a software engineer, and is now an independent data visualization designer. Connected by a mutual love for visualizing data, they bring a unique approach to visualization and refuse to be tied down by convention and available tools. The results are beautiful, innovative, and inspiring. They are both award-winning and internationally recognized data visualization designers. Their past clients include Google, UNESCO, SFMOMA, and the New York Times.
