Presenting cutting-edge studies from various countries into the theoretical and practical issues surrounding the literacy acquisition of at-risk children, this volume focuses specifically on the utility of technology in supporting and advancing literacy among the relevant populations. These include a range of at-risk groups such as those with learning disabilities, low socioeconomic status, and minority ethnicity. Arguing that literacy is a key requirement for integration into any modern society, the book outlines new ways in which educators and researchers can overcome the difficulties faced by children in these at-risk groups. It also reflects the rapid development of technology in this field, which in turn necessitates the accumulation of fresh research evidence.

The Blessing Of A Skinned Knee

This collection of essays and reviews represents the most significant and comprehensive writing on Shakespeare's A Comedy of Errors. Miola's edited work also features a comprehensive critical history, coupled with a full bibliography and photographs of major productions of the play from around the world. In the collection, there are five previously unpublished essays. The topics covered in these new essays are women in the play, the play's debt to contemporary theater, its critical and performance histories in Germany and Japan, the metrical variety of the play, and the distinctly modern perspective on the play as containing dark and disturbing elements. To compliment these new essays, the collection features significant scholarship and commentary on The Comedy of Errors that is published in obscure and difficulty accessible journals, newspapers, and other sources. This collection brings together these essays for the first time.
