Was there a genuine theological consensus about Christ in the early Church? Donald Fairbairn's persuasive study uses the concept of grace to clarify this question. There were two sharply divergent understandings of grace and christology. One understanding, characteristic of Theodore and Nestorius, saw grace as God's gift of co-operation to Christians and Christ as the uniquely graced man. The other understanding, characteristic of Cyril of Alexandria and John Cassian, saw grace as God the Word's personal descent to the human sphere so as to give himself to humanity. Dealing with, among others, John Chrysostom, John of Antioch, and Leo the Great, Fairbairn suggests that these two understandings were by no means equally represented in the fifth century: Cyril's view was in fact the consensus of the early Church.

As early as AD 781, the writer of the Xi'an Fu inscription described the spread of Syriac Christianity (called Jingjiao in Chinese) to China as a wind blowing eastward. The discovery of the Xi'an Fu Stele, the Dunhuang Jingjiao Manuscripts, the numerous Syriac tombstones and fragments in Central Asia and many parts of China has unearthed a buried history of Syriac Christianity from the Tang Dynasty to the time of the Mongol Empire. The papers in this volume cover a wide range of topics from manuscripts and inscription, to the historical, liturgical and theological perspectives of Syriac Christianity in this geographic realm. Winkler is Professor of Patristic Studies and Ecclesiastical History at the University of Salzburg and Director of the Center for the Study of Eastern Christianity (ZECO) of the University of Salzburg. Good Money tells the fascinating story of British manufacturers' challenge to the Crown's monopoly on coinage. In the 1780s, when the Industrial Revolution was gathering momentum, the Royal Mint failed to produce enough small-denomination coinage for factory owners to pay their workers. As the currency shortage threatened to derail industrial progress, manufacturers began to mint custom-

made coins, called "tradesman's tokens." Rapidly gaining wide acceptance, these tokens served as the nation's most popular currency for wages and retail sales until 1821, when the Crown outlawed all moneys except its own. Economist George Selgin presents a lively tale of enterprising manufacturers, technological innovations, alternative currencies, and struggles over the right to coin legal money. George Selgin is Professor of Economics in the Terry College of Business at the University of Georgia and Research Fellow at the Independent Institute in Oakland, California ([www.independent.org](http://www.independent.org)).

The transit historian and author of *Under the Sidewalks of New York* delivers a lively and authoritative history of New York City's fabled subway. On the afternoon of October 27, 1904, ordinary New Yorkers descended beneath the sidewalks for the first time to ride the electric-powered trains of the newly inaugurated Interborough Rapid Transit System. More than a century later, the subway has expanded greatly, weaving its way into the fabric of New York's unique and diverse urban life. In *A Century of Subways*, transit historian Brian J. Cudahy offers a fascinating tribute to New York's storied and historic subway system, from its earliest beginnings and many architectural achievements, to the ways it helped shape today's modern metropolis. Taking a fresh look at one of the marvels of the twentieth century, Cudahy creates a vivid sense of this extraordinary system and the myriad ways the city was transformed once New Yorkers started riding below the ground.

The history of Christianity in Asia is little dealt with either by Church historians or by historians of religion. It is generally unknown, even amongst theologians, that there was a long history of Christianity in Persia, India, Central Asia and China before the appearance on the scene of the first missionaries from the West. A systematic history of the Christian Church in Asia before 1500 is needed. Drawing on material hitherto unknown in the English speaking world, this is a timely and important book because there is a heightened interest today in the early forms of Asian Christianity. The Church in Asia today seeks to find forms of religious expression that are in harmony with Asian culture as was the case in the earlier period. The book covers the period up to 1500 CE. The geographical areas dealt with are Palestine, Syria, Mesopotamia, Persia, India, Central and South East Asia, China and Japan. The book takes into account the outward development of the Church in these areas as well as the inner, theological issues.

The Church of the East is arguably the most interesting of all the Syriac-speaking Churches. Few outside the Middle East are familiar with it, yet between the ninth and fourteenth centuries the Church of the East was the largest Christian Church in the world, with dioceses stretching from the Mediterranean to Asia and China. The church has been harried and persecuted throughout its history. The tragic story of this `martyred church' is brought vividly to life in this impressive book.
