Management

Organization Theory and Design, First Canadian Edition, by Richard L. Daft and Ann Armstrong, helps students understand and design organizations for today's environment. Organizations today face uncertainty, a renewed emphasis on ethics and social responsibility, and the need for a speedy response to change, crisis, or a shift in customer expectations. This text rises to these challenges with a discussion of topics such as culture, virtual network organizational structures, applying ethics to create socially responsible organizations, outsourcing, customer relationship management, applying business intelligence, and coping with the complexity of our global environment. By presenting the most recent thinking about organizations in a way that is interesting and enjoyable, this edition captures the richness of the Canadian experience, while retaining the international examples to accurately represent Canada?s role in the world.

Understanding the Theory and Design of Organizations

Baker and Paulson present a collection of approximately thirty experiential exercises that are designed to help illustrate and internalize key concepts in organization theory. The exercises vary in

length and complexity--some may serve as class 'warm-ups' while others could occupy an entire course period. Activities vary in range from personal inventories to actual creative production activities and occasionally require fieldwork. The exercises have all been class-tested and are adapted from a wide array of sources to ensure a variety of activities that will engage students regardless of their background.

What distinguishes great leaders? Exceptional leaders capture passion. They lead for real: from the heart, smart and focused on the future, and with a

commitment to being their very best. As Annie McKee and Richard Boyatzis have shown in their bestselling books Primal Leadership and Resonant Leadership, they create resonance with others. Through resonance, leaders become attuned to the needs and dreams of people they lead. They create conditions where people can excel. They sustain their effectiveness through renewal. McKee, Boyatzis, and Frances Johnston share vivid, real-life stories illuminating how people can develop emotional intelligence, build resonance, and renew themselves. Reflecting twenty years of longitudinal research and practical wisdom with executives and leaders around the world, this new book is organized around a core of experience-tested exercises. These tools help you articulate your strengths and values, craft a plan for intentional change, and create resonance with others. Practical and inspiring, Becoming a Resonant Leader is your hands-on guide to developing emotional intelligence, renewing and sustaining yourself and your relationships, and taking your leadership to a whole new level. This book is ideal for anyone seeking personal and professional development and for consultants, coaches, teachers, and faculty to use with their clients or students.

The market-leading textbook on organization theory reaches a new level with Richard L. Daft being joined by Jonathan Murphy and Hugh Willmott (both Cardiff Business School) to provide an unparalleled resource for students in Europe, the Middle East and Africa (EMEA). After listening to the requirements of lecturers, the authors have added diverse global examples – featuring such organizations as AirAsia, Philips NV, Carrefour, Bedlam Games and Circus Oz – and cases supplied from a range of international academics. Students will benefit from a boosted critical focus, carefully threaded into the hallmark structure using a new "Counterpoint" feature, while a fully adapted set of lecturer and student resources makes this the complete textbook for modern courses.

Honor, Patronage, Kinship & Purity

Executive leadership is critically important to understanding the workings and performance of organizations, yet it is a topic that is usually ignored by mainstream leadership research. Leadership and Information Processing provides a much-needed analysis of this crucial element of organizational behaviour. Robert G. Lord and Karen J. Maher examine how executives make decisions and how decision acceptance is constrained by the leadership perceptions of others. Focussing in particular on leadership and social perceptions, perceptions of female leaders, organizational culture, and the effects of executive succession. Leadership and Information Processing offers crucial information for students, researchers and teachers of mangement, business, organizational behavior and organizational/social psychology.

MANAGEMENT, 12E includes several innovative pedagogical features to help students understand their management capabilities and learn what it's like to manage in an organization today. Each of the 19 chapters begins with an opening questionnaire that engages the reader's interest, directly connects to the topic of the chapter, and enables students to see how they respond to situations and challenges that real-life managers typically face. A New Manager Self-Test in each chapter provides students with further insight into how they would function in the real world of management. The Remember This bullet-point summaries at the end of each major chapter section give students a snapshot of the key points and concepts covered in that section. The end-of-chapter

questions have been carefully revised to encourage critical thinking and application of chapter concepts, and Small Group Breakout exercises give students the opportunity to apply concepts while building teamwork skills. Ethical dilemmas, all-new end-of-chapter cases, and a fully updated set of On the Job video cases help students sharpen their diagnostic skills for management problem solving. The chapter sequence in MANAGEMENT is organized around the management functions of planning, organizing, leading, and controlling. These four functions effectively encompass management research and the characteristics of the manager's job. A companion guidebook to the number-one bestselling Good to Great, focused on implementation of the flywheel concept, one of Jim Collins' most memorable ideas that has been used across industries and the social sectors, and with startups. The key to business success is not a single innovation or one plan. It is the act of turning the flywheel, slowly gaining momentum and eventually reaching a breakthrough. Building upon the flywheel concept introduced in his groundbreaking classic Good to Great, Jim Collins teaches readers how to create their own flywheel, how to accelerate the flywheel's momentum, and how to stay on the flywheel in shifting markets and during times of turbulence. Combining research from his Good to Great labs and case studies from organizations like Amazon, Vanguard, and the Cleveland Clinic which have turned their flywheels with outstanding results, Collins demonstrates that successful organizations can disrupt the world around them—and reach unprecedented success—by employing the flywheel concept.
