This lively collection of essays and articles tests the boundaries and sensitivities of so-called 'gay culture'. Time Out's Gay Editor, and former Consultant Editor at Attitude, takes an incisive, often 'irresponsible' look at gay men's attitudes to themselves, each other, and the icons that matter to them.

### **Quill & Quire**

In the tradition of The Story of O comes this story of "X," a wise-cracking, postmodern callboy who cheerfully relates all the juicy details of his commissioned sexual encounters in a series of twenty-three confessions that are sometimes shocking, sometimes touching, but always uproarious. Most people confess their sins, but X confesses his weaknesses, those things about himself that point to his humanity and unwelcomed sentimentality. Since he turned his first trick at fifteen, X hasn't had a romantic urge for anyone. But suddenly everything is changing, and X finds his long-frozen sex drive thawing. The object of his affections is his roommate, Andrew, a great big hunk who is confused about his sexuality. Meanwhile, X's other roommate - a precocious, seventeen-year-old partyboy named Joe - is falling for X in a big way. X soon discovers how messy uncommissioned and unrequited lust can be.

"Dancing at the Dead Sea is a powerful narrative on the critically important topic of the world's environmental hotspots. This is not a pessimistic tirade, but instead a factual commentary that will convince many, written by a gifted writer with an independent mind. I recommend this book without reservation." Richard Leakey Alanna Mitchell, winner of the Global Reuters IUCN media award for excellence in environmental reporting, embarks on an incredible worldwide cultural and environmental odyssey, zeroing in on environmental hotspots and examines how we can live, even flourish, without destroying the planet. One hundred and fifty years after the publication of *The Origin of Species*, Mitchell retraces the development of evolutionary theory, grappling with Richard Leakey's contention that the extinction of the human species is well under way. How and why are we human beings shortening our time on Earth? Travelling to the last living Eden, Madagascar, Mitchell is witness to the destruction of all but 10 percent of the original forest, not due to industrial activity but woodcutting by a primitive society still dependent on fire as its main energy resource. She then moves on to the badlands of Alberta, where she draws on the theory of world-famous paleontologist Philip Currie and the extinction of dinosaurs to gain insight on humanity's own impending suicide. Travel to the Azraq Oasis in Jordan, the meeting place of Africa, Asia and Europe, the mythical Galapagos Islands, seemingly unspoiled, but not immune to degradation, the far north and the Arctic desert of Banks Island, one of the first places on Earth where climate change with global impact is visible. Like the work of Wade Davis or books such as *Krakatoa* by Simon Winchester and *Four Wings and a Prayer* by Sue Halpern, *Dancing at the Dead Sea* intertwines scientific theory with travel adventure and history, creating a dramatic, fresh narrative voice examining not the origin, but the ultimate fate of the human species. (April 2004)

Sex, Art, and Audience responds to and discusses issues raised by ballet, modern dance, and non-Western performances during the 1980s and 1990s. The essays examine the subject of gender and sexuality in performances, the relationship of the dance performance to its audience, and the important but puzzling fact that dance, alone amongst art forms, lacks a

reproducible text. In addition, these essays consider the development of classical style in the works of modern choreographic masters such as George Balanchine, Martha Graham, Paul Taylor, and Merce Cunningham. Through its five chapters, *Sex, Art, and Audience* develops an aesthetic stance of contextual viewing: dance is most productively seen in its place among other art forms, and the arts collectively as a constituent, if distinct, part of our lives as a whole.

### **Dancing With Strangers In Dark Places**

Laughter, contemporary theory suggests, is often aggressive in some manner and may be prompted by a sudden perception of incongruity combined with memories of past emotional experience. Given this importance of the past to our recognition of the comic, it follows that some "traditions" dispose us to ludic responses. The studies in *Of Corpse: Death and Humor in Folklore and Popular Culture* examine specific interactions of text (jokes, poetry, epitaphs, iconography, film drama) and social context (wakes, festivals, disasters) that shape and generate laughter. Uniquely, however, the essays here peruse a remarkable paradox---the convergence of death and humor.

### **Left History**

Terry Gilliam has been making movies for more than forty years, and this volume analyzes a selection of his thrilling directorial work, from his early films with Monty Python to *The Imaginarium of Doctor Parnassus* (2009). The frenetic genius, auteur, and social critic continues to create indelible images on screen--if, that is, he can get funding for his next project. Featuring eleven original essays from an international group of scholars, this collection argues that when Gilliam makes a movie, he goes to war: against Hollywood caution and convention, against American hyper-consumerism and imperial militarism, against narrative vapidness and spoon-fed mediocrity, and against the brutalizing notion and cruel vision of the "American Dream."
