the unforgettable Aunt Ruby and her hilarious encounter with a parrot! Heart-warming, funny and delightful, *The Parrot Who Wouldn't Talk and Other Stories* features some old favourites as well as refreshingly new stories. Marked by Bond's inimitable style and trademark humour, and embellished with lively illustrations, this book will be a firm favourite with children.

Kvinnens lange arm

'Stories are not chapters of novels. They should not be read one after another, as if they were meant to follow along. Read one. Shut the book. Read something else. Come back later. Stories can wait' Mavis Gallant In 1950, *THE NEW YORKER* accepted one of Mavis Gallant's short stories for publication and she has since become the one of the most accomplished and respected short story writers of her time. Gallant is an undisputed master whose peerless prose captures the range of human experience in her sweeping portraits set in Europe in the second half of the last century. An expatriate herself, her stories deal with exile, displacement, of love and of estranged emotions, but they are never conventional. This collection of fifty-two stories, written between 1953 and 1995, is timeless, to be savoured and re-read.

Educating Humanity

Widely considered to be one of the first, if not the first comic strip in North America, Outcault wrote and drew the comic for the powerful Pulitzer and Hearst newspapers from 1895-1898. The Yellow Kid's popularity rose to previously unheard of heights and is thought to be the first character to be widely merchandised.

The Serpent Gift

A New York Times Notable Book: A revealing look at the famous twentieth-century children's author who brought us The BFG and Charlie and the Chocolate Factory. Few writers have had the enduring cultural influence of Roald Dahl, who inspired generations of loyal readers. Acclaimed biographer Jeremy Treglown cuts no corners in humanizing this longstanding immortal of juvenile fiction. Roald Dahl explores this master of children's literature from childhood—focusing a tight lens on the relationship between Dahl and his mother, who lovingly referred to him as “Apple”—through to his death. Treglown deftly navigates Dahl's time as a fighter pilot in the Royal Air Force, exploring how the experience transformed many of the beliefs that influenced the English writer's work, including The Gremlins, which was commissioned by Walt Disney. A former editor of the Times Literary Supplement, Treglown discusses many of Dahl's most famous works, such as James and the Giant Peach and Fantastic Mr. Fox, while also delving into his marriage to actress Patricia Neal, combing through letters and archives to show a man who could be both comic and vitriolic, thoughtful yet manipulative and irascible. Treglown highlights many of Dahl's literary achievements as well as his breakdowns and shortcomings, presenting a very

personal and telling picture of the author and the inner turmoil that crippled him. Separating the man from the myth, Treglown's frank, intimate portrait of Dahl illuminates the contradictions within the mind of this beloved author, a man who could be both a monster and a hero. It is required reading for book lovers and film buffs alike.

The Selected Stories of Mavis Gallant

Rabindranath Tagore, also written Rabindranatha Thakura, (7 May 1861 - 7 August 1941), sobriquet Gurudev, was a Bengali polymath who reshaped Bengali literature and music, as well as Indian art with Contextual Modernism in the late 19th and early 20th centuries. Author of Gitanjali and its "profoundly sensitive, fresh and beautiful verse", he became the first non-

European to win the Nobel Prize in Literature in 1913. In translation his poetry was viewed as spiritual and mercurial; however, his "elegant prose and magical poetry remain largely unknown outside Bengal. Tagore introduced new prose and verse forms and the use of colloquial language into Bengali literature, thereby freeing it from traditional models based on classical Sanskrit. He was highly influential in introducing the best of Indian culture to the West and vice versa, and he is generally regarded as the outstanding creative artist of the modern Indian subcontinent, being highly commemorated in India and Bangladesh, as well as in Sri Lanka, Nepal and Pakistan.

In Munch, writer and artist Steffen Kverneland brings the story of one of the world's most influential painters to vivid life. This extraordinary, inventive graphic novel uses text drawn exclusively from the quotes of Edvard Munch and his contemporaries. Filled with authenticity and life, Munch debunks the familiar myth of the half-mad expressionist painter--anguished, starving, and ill-treated--and draws out his neglected sense of humor and optimism. Born out of a lifelong fascination with Munch's life and work, Kverneland's seven-year project is a landmark of graphic biography and the funniest, most entertaining portrait yet of a complex man and the pioneering artist behind *The Scream*.

The Wonderful Story of Henry Sugar and Six More

172 Hours on the Moon

In *Going Solo*, the world's favourite storyteller, Roald Dahl, tells of life as a fighter pilot in Africa. 'They did not think for one moment that they would find anything but a burnt-out fuselage and a charred skeleton, and they were astounded when they came upon my still-breathing body lying in the sand nearby.' In 1938 Roald Dahl was fresh out of school and bound for his first job in Africa, hoping to find adventure far from home. However, he got far more excitement than he bargained for when the outbreak of the Second World War led him to join the RAF. His account of his experiences in Africa, crashing a plane in the Western Desert, rescue and recovery from his horrific injuries in Alexandria, flying a Hurricane as Greece fell to the Germans, and many other daring deeds, recreates a world as bizarre and unnerving as any he wrote about in his fiction. 'Very nearly as grotesque as his fiction. The same compulsive blend of wide-eyed innocence and fascination with danger and horror' *Evening Standard* 'A non-stop demonstration of expert raconteurship' *The New York Times Book Review* Roald Dahl, the brilliant and worldwide acclaimed author of *Charlie and the Chocolate Factory*, *James and the Giant Peach*, *Matilda*, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, *Roald Dahl's Twisted Tales* by Jeremy

Dyson. Roald Dahl's stories continue to make readers shiver today.

Buzz Aldrin, *What Happened to You in All the Confusion?* opens with the line: "The person you love is 72.8% water, and it hasn't rained for weeks." From there, Brage Award-winning author and playwright Johan Harstad's debut—previously published to great success in eleven countries and now making its first English-language appearance—tells the story of Mattias, a thirty-something gardener living in Stavanger, Norway, whose idol is Buzz Aldrin, second man on the moon: the man who was willing to stand in Neil Armstrong's shadow in order to work, diligently and humbly, for the success of the Apollo 11 mission. Following a series of personal and professional disasters, Mattias finds himself lying on a rain-soaked road in the desolate, treeless Faroe Islands, population only a few thousand, a wad of bills in his pocket and no memory of how he had come to be there—that's when a truck approaches him, driven by a troubled, fantastic man with an offer that will shortly change Mattias's life. And so, surrounded by a vivid and memorable cast of characters—aspiring pop musicians, Caribbean-obsessed psychologists, death-haunted photographers, girls who dream of anonymous men falling in love with them on bus trips, and even Buzz Aldrin himself—launches *Buzz Aldrin, What Happened To You In All The Confusion?*, the epic story of Mattias's pop-saturated odyssey through the world of unconventional psychiatry, souvenir sheep-making, the Cardigans, and space: the space between himself and other people, a journey maybe as remote and personally dangerous as the trip to the moon itself.

Yury Trifonov, one of the preeminent Russian writers of the twentieth century, took a turn toward the controversial-and a leap toward greatness-with the publication of the two novellas included in this collection. "The Exchange" and "The Long Goodbye," part of the "Moscow trilogy" that established Trifonov's reputation, are remarkable for their depiction of the complex dilemmas and compromises of Russian life after the Second World War. These works, along with the two short stories "Games at Dusk" and "A Short Stay in the Torture Chamber," detail the moral and spiritual decline in Russia that resulted from the growing distance between the theoretical idealism of the Soviet state and the actual materialism and careerism that increasingly marked Russian society. While immersing readers in the social milieus of his characters, and in the specifics of their days, Trifonov finds and examines the precise moment when a person takes a wrong turn in life, the moment of moral betrayal. Whether the moment occurs in a woman's plot to obtain better living quarters by taking in her dying mother-in-law or in the corruption of love and talent by ambition in an affair between an actress and a writer, Trifonov brings the clashes between different generations, cultural backgrounds, ideals, and realities to nuanced, disturbing, and memorable life.
