Chicken Little

The Green New Deal is a comprehensive legislative plan to fight climate change, transition to a green-energy economy, clean up our air and water, and promote racial and economic equality through family-sustaining job opportunities. In its breadth and boldness, it's a vision that mirrors President Franklin Delano Roosevelt's original New Deal, implemented to pull the country out of the Great Depression in the 1930s. And just as Roosevelt and his administration used art, particularly posters designed by WPA artists, to rally support for the New Deal, here is a collection of 50 vibrant tear-out posters that celebrate the pillars of the Green New Deal, including environmental sustainability, renewable energy, equality, job creation, and community. The posters are designed by more than 40 illustrators representing a wide range of artistic styles—but all reflecting the urgency and passion of these issues. They are oversized, colorful, and visually striking. Perforated pages make them easy to tear out to hang or to use as signs at marches and demonstrations. The back of each poster features text explaining the issue and how the Green New Deal seeks to address it. The book also features a foreword by Massachusetts Senator Ed Markey, co-sponsor of the bill, and helpful resources for getting involved in the fight.

Glad Monster, Sad Monster

Ralph Masiello's Bug Drawing Book

Ed Emberley shies away from calling himself an artist and instead likes to say that “he draws pictures for a living.” Now in his eighties, Ed Emberley is a Caldecott award-winning children's book illustrator and writer who has been creating original books since the 1960s. He has written and illustrated more than 100 books and is perhaps best known for his beloved how-to-draw books for kids such as: Ed Emberley's Big Green Drawing Book, Ed Emberley's Drawing Book of Faces, and Ed Emberley's Great Thumbprint Drawing Book, and many others. These simple and straightforward books, first published in the 1970s, have encouraged a generation of kids to take the drawing process step by step. Contemporary working artists today often cite Ed Emberley as a beloved early inspiration in their development as artists. By encouraging kids to draw using just a few simple shapes, Emberley has made drawing and creating accessible to everyone. As Emberley likes to say, “Not everyone needs to be an artist, but everyone needs to feel good about themselves.” This definitive monograph on the wide repertoire of Emberley's life's work has been beautifully put together by Todd Oldham and Caleb Neelon. Highlighting work spanning over five decades, this gorgeous and comprehensive book celebrates the talented and prolific life of Ed Emberley.
