Being healthy is much more than being physically fit and free from disease. Health is the state of well-being in which all of the components of health -- physical, emotional, social, mental, spiritual, and environmental -- are in balance. To be truly healthy, you must take care of all six components. - p. 11.

### **Latin for the New Millennium: Level 2: student text**

A master theologian and popular Catholic author offers inspiring insights into the mystery of Christ's presence in our lives. As festive as the film "Babette's Feast" and as profound as the work of Ronald Knox, this fresh look at the Eucharist brings to light the meanings of meal, sacrifice, and real presence in our lives.

The Living Word provides an introduction to the Sacred Scriptures and to the unfolding of salvation history, with a particular focus on Jesus Christ as the fulfillment of salvation history. Revelation, both Divine and natural, is explored, as are inspiration, interpretation, and exegesis. The second edition of our popular Living In Christ series offers updated navigation, organizing and synchronizing curriculum across both teacher guides and student books. The student books have shifted from a section-part-article structure to a unit-chapter-article structure where sections become units and a part is now a chapter.
