Noah Keller has a pretty normal life, until one wild afternoon when his parents pick him up from school and head straight for the airport, telling him on the ride that his name isn't really Noah and he didn't really just turn eleven in March. And he can't even ask them why, not because of his astonishing stutter, but because asking questions is against the newly instated rules. As Noah, now "Jonah Brown," and his parents head behind the Iron Curtain into East Berlin, the rules and secrets begin to pile up so quickly that he can hardly keep track of the questions bubbling up inside him.

Introductory Statistics is designed for the one-semester, introduction to statistics course and is geared toward students majoring in fields other than math or engineering. This text assumes students have been exposed to intermediate algebra, and it focuses on the applications of statistical knowledge rather than the theory behind it. The foundation of this textbook is Collaborative Statistics, by Barbara Illowsky and Susan Dean. Additional topics, examples, and ample opportunities for practice have been added to each chapter. The development choices for this textbook were made with the guidance of many faculty members who are deeply involved in teaching this course. These choices led to innovations in art, terminology, and practical applications, all with a goal of increasing relevance and accessibility for students. We strove to make the discipline meaningful, so that students can draw from it a working knowledge that will enrich their future studies and help them make sense of the world around them. Originally published in 1989 and long out-of-print, this 30th Anniversary Edition of the essential Columbo book features a new preface by author Mark Dawidziak, an overview of post-1989 Columbo developments, including the twenty-four new ABC

A Gen-X librarian's laugh-out-loud funny, deeply moving collection of love letters and break-up notes to the books in her life. Librarians spend their lives weeding. Not weeds, but books! Books that have reached the end of their shelf life, both literally and figuratively. They remove the ones that patrons no longer check out, and they put back the ones they treasure. Annie Spence, who has a decade of experience as a Midwestern librarian, does this not only at her Michigan library but also at home, for her neighbors, at cocktail parties—everywhere. In *Dear Fahrenheit 451*, she addresses those books directly. We read her love letters to *Just Kids* and *Frog and Toad Storybook Treasury*, as well as her break-ups with *The Giving Tree* and *Dear John*. Her notes to *The Goldfinch* and *The Time Traveler's Wife* feel like

classics. Through the lens of the books in her life, Annie comments on everything from feminism to health to poverty to childhood aspirations. Hilarious, compassionate, and wise, Dear Fahrenheit 451 is the consummate book-lover's book.

The Giver (Graphic Novel)

Becoming Ray Bradbury chronicles the making of an iconic American writer by exploring Ray Bradbury's childhood and early years of his long life in fiction, film, television, radio, and theater. Jonathan R. Eller measures the impact of the authors, artists, illustrators, and filmmakers who stimulated Bradbury's imagination throughout his first three decades. Unprecedented access to Bradbury's personal papers and other private collections provides insight into his emerging talent through his unpublished correspondence, his rare but often insightful notes on writing, and his interactions with those who mentored him during those early years. Beginning with his childhood in Waukegan, Illinois, and Los Angeles, this biography follows Bradbury's development from avid reader to maturing author, making a living writing for pulp magazines. Eller illuminates the sources of Bradbury's growing interest

in the human mind, the human condition, and the ambiguities of life and death--themes that became increasingly apparent in his early fiction. Bradbury's correspondence documents his frustrating encounters with the major trade publishing houses and his earliest unpublished reflections on the nature of authorship. Eller traces the sources of Bradbury's very conscious decisions, following the sudden success of *The Martian Chronicles* and *The Illustrated Man*, to voice controversial political statements in his fiction, and he highlights the private motivations behind the burst of creative energy that transformed his novella "The Fireman" into the classic novel *Fahrenheit 451*. *Becoming Ray Bradbury* reveals Bradbury's emotional world as it matured through his explorations of cinema and art, his interactions with agents and editors, his reading discoveries, and the invaluable reading suggestions of older writers. These largely unexplored elements of his life pave the way to a deeper understanding of his more public achievements, providing a biography of the mind, the story of Bradbury's self-education and the emerging sense of authorship at the heart of his boundless creativity.

Pick. Already an award-winning writer, ZZ Packer now shares with us her debut, *Drinking Coffee Elsewhere*. Her impressive range and talent are abundantly evident: Packer dazzles with her command of language, surprising and delighting us with unexpected turns and indelible images, as she takes us into the lives of characters on the periphery, unsure of where they belong. We meet a Brownie troop of black girls who are confronted with a troop of white girls; a young man who goes with his father to the Million Man March and must decide where his allegiance lies; an international group of drifters in Japan, who are starving, unable to find work; a girl in a Baltimore ghetto who has dreams of the larger world she has seen only on the screens in the television store nearby, where the Lithuanian shopkeeper holds out hope for attaining his own American Dream. With penetrating insight that belies her youth—she was only nineteen years old when *Seventeen* magazine printed her first published story—ZZ Packer helps us see the world with a clearer vision. *Drinking Coffee Elsewhere* is a striking performance—fresh, versatile, and captivating. It introduces us to an arresting and unforgettable new voice.

Ray Bradbury's Fahrenheit 451

A Graphic Adaptation An HBO Original Movie starring Michael B. Jordan (Black Panther), Sofia Boutella (Star Trek: Beyond), and Michael Shannon (The Shape of Water). An Eisner Award Nominee "Monday burn Millay, Wednesday Whitman, Friday Faulkner, burn 'em to ashes, then burn the ashes." For Guy Montag, a career fireman for whom kerosene is perfume, this is not just an official slogan. It is a mantra, a duty, a way of life in a tightly monitored world where thinking is dangerous and books are forbidden. In 1953, Ray Bradbury envisioned one of the world's most unforgettable dystopian futures, and in Ray Bradbury's Fahrenheit 451, the artist Tim Hamilton translates this frightening modern masterpiece into a gorgeously imagined graphic novel. As could only occur with Bradbury's full cooperation in this authorized adaptation, Hamilton has created a striking work of art that uniquely captures Montag's awakening to the evil of government-controlled thought and the inestimable value of philosophy, theology, and literature. Including an original foreword by Ray Bradbury and fully depicting the brilliance and force of his canonic and beloved masterwork, Ray Bradbury's Fahrenheit 451 is an exceptional, haunting work of graphic literature.
