Log Horizon, Vol. 11 (light novel)

One of Time's 100 best English-language novels • A mind-altering romp through a future America so bizarre, so outrageous, you'll recognize it immediately Only once in a great while does a writer come along who defies comparison—a writer so original he redefines the way we look at the world. Neal Stephenson is such a writer and Snow Crash is such a novel, weaving virtual reality, Sumerian myth, and just about everything in between with a cool, hip cybersensibility to bring us the gigathriller of the information age. In reality, Hiro Protagonist delivers pizza for Uncle Enzo's CosoNostra Pizza Inc., but in the Metaverse he's a warrior prince. Plunging headlong into the enigma of a new computer virus that's striking down hackers everywhere, he races along the neon-lit streets on a search-and-destroy mission for the shadowy virtual villain threatening to bring about infocalypse. Praise for Snow Crash "[Snow Crash is] a cross between Neuromancer and Thomas Pynchon's Vineland. This is no mere hyperbole."—The San Francisco Bay Guardian

“Fast-forward free-style mall mythology for the twenty-first century.”—William Gibson “Brilliantly realized . . . Stephenson turns out to be an engaging guide to an onrushing tomorrow.”—The New York Times Book Review

Atomic Ranch is an in-depth exploration of post-World War II residential architecture in America. Mid-century ranches (1946-1970) range from the decidedly modern gable-roofed Joseph Eichler tracts in the San Francisco Bay area and butterfly wing houses in Palm Springs, Florida, to the unassuming brick or

stucco L-shaped ranches and split-levels so common throughout the United States. Authors Michelle Gringeri-Brown and Jim Brown, founders and publishers of the popular quarterly Atomic Ranch magazine, extol the virtues of the tract, split-level, rambler home and its many unique qualities: private front facades, open floor plans, secluded bedroom wings, walls of glass, and an easy-living lifestyle. From updated homes with high-end Italian kitchens, terrazzo floors, and modern furniture to affordable homeowner renovations with eclectic thrift-store furnishings, Atomic Ranch presents twenty-five homes showcasing inspiring examples of stylish living through beautiful color photographs, including before and after shots, design-tip sidebars, and a thorough resource index. Atomic Ranch reveals: Hallmarks of the ranch style Inspiring original ranch homes Ranch house transformations and makeovers Preservation of mid-century neighborhoods Adding personality to a ranch home Yards and landscaping Plus, a helpful resource section and index!

Roast Mortem

The capstone and crowning achievement of the Future History series, from the New York Times bestselling Grand Master of Science Fiction Time Enough for Love follows Lazarus Long through a vast and magnificent timescape of centuries and worlds. Heinlein's longest and most ambitious work, it is the story of a man so in love with Life that he refused to stop living it; and so in love with Time that he became his own ancestor.

The Wicked Will Rise

Completely lost, Krusty finds himself with nothing to do in the enchanting lands of the Chinese server. As it happens, Kanami and her party are also nearby, hoping to explore the Sirius Grotto dungeon. However, Elias is deemed "too powerful," which prevents him from entering and participating in the dungeon raid! He begins to harbor doubts about the value of his existence, making him easy prey for Enchantress Youren's manipulations and setting him on a collision course with none other than Krusty!

Snow Crash

A new employee's first-day office tour includes descriptions of other workers' most private thoughts and actions. "Orientation" is a story from Daniel Orozco's critically acclaimed collection of the same name, which leads the reader through the hidden lives and moral philosophies of bridge painters, men housebound by obesity, office temps, and warehouse workers. He reveals the secret pleasures of late-night supermarket trips for cookie binges, exceptional data entry, and an exiled dictator's occasional piss on the U.S. embassy. A love affair blooms between two officers in the impartially worded pages of a police blotter; during an earthquake, the consciousness of the entire state of California shakes free for examination.

Orientation introduces a writer at the height of his powers, whose work surely invites us to reassess the landscape of American fiction.

Spiral

In the tradition of Edith Wharton and Henry James--part one of a romantic duology featuring an indomitable American heiress torn between her quest for romance and her equal desire for independence, and the autocratic English duke she loves, who harbors a dark secret. Perfect for fans of Downton Abbey and Upstairs Downstairs! The Buccaneers--fresh, untutored, and easy-going--conquered 1870s English society, but in Edwardian England, American heiresses were supposed to be cool and level-headed about their pursuit of titles. Amanda Vandewater embodied this new wave of American invaders when she meets and marries the 9th Duke of Malvern, though she soon discovers she desires more than a coronet and strawberry leaves: she desires his heart. But the duke's heart isn't his to give, trapped as he is by old promises and a haunting past that binds him to the very traditions that stole his independence. Set against the backdrop of the rise of aviation, the suffragette movement, and the turbulent years leading up to WWI, An Ideal Duchess is the tale of an idealistic American heiress who must fight for her position--and for love--in the face of the strict adherence to duty over desire, of reputation over understanding, and of clinging to the past over embracing the present. The only question is if Amanda is strong enough to withstand the

pressure.

Requiem for Medusa

From the author of *Flawless* and *Starlight* comes an emotional, sensual romance set during World War II about a female British civilian pilot and the American paratrooper medic who opens her heart--only available as an eBook. After the War took the lives of Lulu Davies's parents and her fiancé, she promised herself she would guard her heart carefully and concentrate on her great love—flying the biggest and best airplanes in the sky. Lulu is a pilot in the British civilian air force, ferrying planes around Great Britain and keeping her eye on a coveted spot in a training program for world-class pilots. She's perfectly content to strive for greatness in the skies, and dance with a few GIs on the way. Brawny, quiet American medic Joe Weber signed up with the paratroopers to escape his checkered past; he's hoping that jumping out of planes and patching up soldiers will earn him respect and a hopeful future. Joe's first real test of medical skill is on a pilot whose plane takes a hard landing in a training field; after rushing to the crash scene, he is stunned to come face-to-face with a gorgeous Rita Hayworth lookalike. And when the two cross paths at a dance hall a couple weeks later, he can't resist the urge to find out more about this spirited, dark-haired beauty. Their flirtation breaks all of Lulu's rules, but dance by dance, week by week, walk by walk, she finds herself falling in love with this honest, vulnerable man on the run

from his demons. But as Lulu and Joe's undeniable attraction gains momentum, World War II steadily intensifies toward D-Day. The lovers only have one night together before Joe is transported to France for the Battle of the Bulge, where his skills and his instinct for survival will be pushed to their limits. Lulu distracts herself with flight school and the friendships of her colleagues, but she can't get the handsome medic out of her head. Only time and hope will tell if her love will return unharmed from War, and if the two will be able to overcome their pasts to form a beautiful life together in peace-time.

National Book Award Finalist: “This man’s ideas may be the most influential, not to say controversial, of the second half of the twentieth century.”—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. “Don’t be put off by the academic title of Julian Jaynes’s *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor.”—The New York Times “When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis.”—John Updike, *The New Yorker* “He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior.”—*American Journal of Psychiatry*

I was a different person once. Faith, a young wife, hoping to become a mother. My life was pleasant. Stable. It was hell. Until Killian Knight opened my eyes to a world of espionage and intrigue. He saw something in me, something I was too afraid to acknowledge. I didn't want to be excited by the danger. Didn't want to crave the wicked passion only he could provide. But I did want, so now I run. And I pay. I never meant to corrupt her, but I'm not sorry. After all, I'm already damned. After four years of searching and longing, I've finally found her. Faith, the one person in the world I breathe for. She lives beneath my skin as

surely as I wear proof of our transgressions inked on my body. And like the forbidden fruit that doomed us from the beginning, our end is inevitable. We lived with no regret. We loved without inhibition. We betrayed those closest to us. We killed for that love. Now we will burn in hell together.

The Complete Star Wars Encyclopedia: P-Z

Across Islands and Oceans is the memoir of twenty-five year-old James Baldwin and his epic two-year, solo circumnavigation in Atom, his trusty but aging twenty-eight foot sailboat. Early on and "as broke as [he] dared to be," James determined not only to sail around the world, but also to hike across every island that he visits. His inland forays are unique in the literature of circumnavigators as he finds danger, humor, friendship and romance in places most sailors will never visit. James' story unfolds in his earnest exploration of distant lands and seas, his meditations on the people whose lives he touched, and his greater voyage to explore his own private ocean of solitude. His adventure is not merely an attempt to seek thrills, nor even to tempt death, but rather a voyage of discovery as he set out in the direction of his youthful dreams to meet the life he imagined. "Go seek what you will, where you will, but be a seeker all of your life." -James Baldwin

Time Enough for Love

Spanning eight decades and chronicling the wild ride of a Greek-American family through the vicissitudes of the twentieth century, Jeffrey Eugenides' witty, exuberant novel on one level tells a traditional story about three generations of a fantastic, absurd, lovable immigrant family -- blessed and cursed with generous doses of tragedy and high comedy. But there's a provocative twist. Cal, the narrator -- also Callie -- is a hermaphrodite. And the explanation for this takes us spooling back in time, through a breathtaking review of the twentieth century, to 1922, when the Turks sacked Smyrna and Callie's grandparents fled for their lives. Back to a tiny village in Asia Minor where two lovers, and one rare genetic mutation, set our narrator's life in motion. Middlesex is a grand, utterly original fable of crossed bloodlines, the intricacies of gender, and the deep, untidy promptings of desire. It's a brilliant exploration of divided people, divided families, divided cities and nations -- the connected halves that make up ourselves and our world. Justly acclaimed when it was released in Fall 2002, it announces the arrival of a major writer for our times. From the Hardcover edition.

Bird Strike

One of the most dazzling and adventurous writers now working in English takes on the enigma of the Cambridge spies in a novel of exquisite menace, biting social comedy, and vertiginous moral complexity. The narrator is the elderly Victor Maskell, formerly of British intelligence, for many years art expert to the Queen.

Now he has been unmasked as a Russian agent and subjected to a disgrace that is almost a kind of death. But at whose instigation? As Maskell retraces his tortuous path from his recruitment at Cambridge to the airless upper regions of the establishment, we discover a figure of manifold doubleness: Irishman and Englishman; husband, father, and lover of men; betrayer and dupe. Beautifully written, filled with convincing fictional portraits of Maskell's co-conspirators, and vibrant with the mysteries of loyalty and identity, *The Untouchable* places John Banville in the select company of both Conrad and Le Carre. Winner of the Lannan Literary Award for Fiction "Contemporary fiction gets no better than this Banville's books teem with life and humor." - Patrick McGrath, *The New York Times Book Review* "Victor Maskell is one of the great characters in recent fiction *The Untouchable* is the best work of art in any medium on [its] subject." - *Washington Post Book World* "As remarkable a literary voice as any to come out of Ireland; Joyce and Beckett notwithstanding." - *San Francisco Chronicle*

Applied Economics for Africa

On a warm and golden afternoon, October 4, 1960, a Lockheed Electra jet turboprop carrying 72 souls took off from Logan Airport. Seconds later, the plane slammed into a flock of 10,000 starlings, and abruptly plummeted into Winthrop Harbor. The collision took 62 lives and gave rise to the largest rescue mobilization in Boston's history, which included civilians in addition to police, firefighters, skindivers, and Navy and Coast Guard air-sea rescue teams. Largely because of the quick action and good seamanship of Winthrop citizens, many of them boys in small boats, ten passengers survived what the Civil Aeronautics Board termed "a non-survivable crash." Using firsthand interviews with survivors of the crash, rescuers, divers, aeronautics experts, and ornithologists, as well as a wide range of primary source material, Kalafatas foregrounds the story of the crash and its aftermath to anchor a broader inquiry into developments in the aeronautics industry, the increase in the number of big birds in the skies of North America, and the increasing danger of "bird strikes." Along the way he looks into interesting historical sidelights such as the creation of Logan Airport, the transformation of Boston's industrial base to new technologies, and the nature of journalistic investigations in the early 1960s. The book is a rare instance when an author can simultaneously write about a fascinating historical event and a clear and present danger today. Kalafatas calls for and itemizes solutions that protect both birds and the traveling public.

Careless Love

Hold your screams and enter a world of seasonal creatures, dreams of bones, and confessions modeled from open eyes and endless insomnia. Christina Sng's A Collection of Nightmares is a poetic feast of sleeplessness and shadows, an exquisite exhibition of fear and things better left unsaid. Here are ramblings at the end of the world and a path that leads to a thousand paper cuts at the hands of a skin carver. There are crawlspace whispers, and fresh sheets gently washed with

sacrifice and poison, and if you're careful in this ghost month, these poems will call upon the succubus to tend to your flesh wounds and scars. These nightmares are sweeping fantasies that electrocute the senses as much as they dull the ache of loneliness by showing you what's hiding under your bed, in the back of your closet, and inside your head. Sng's poems dissect and flower, her autopsies are delicate blooms dressed with blood and syntax. Her words are charcoal and cotton, safe yet dressed in an executioner's garb. Dream carefully. You've already made your bed. The nightmares you have now will not be kind. And you have no one to blame but yourself.

"An unusual and challenging puzzle mystery that will keep [you] guessing until the final pages. Wow!" —Library Journal STARRED review Seven years ago, Bethany Friend was found drowned in mere inches of water in the lonely Serpent Pool in England's Lake District. Was it suicide or murder? Now, determined to win justice for Bethany's dying mother, DCI Hannah Scarlett of the Cold Case Squad re-opens the case. But Hannah has problems of her own: a new sergeant with a reputation for causing trouble, a new house close to the Serpent Pool, and new cause to doubt her partner, second-hand bookseller Marc Amos. Worried by dwindling finances and the horrific death of one of his best customers, Marc finds himself drawn to the lovely and enigmatic Cassie Weston, who works in his shop. Then Hannah meets

Louise Kind, sister of historian Daniel Kind. Louise has been living with book collector and lawyer Stuart Wagg, and has just confessed to her brother that she struck Wagg with a knife. Searching for the supposed victim, Hannah and Daniel—who is writing a book about the brilliant but opium-addicted 19th-century English writer Thomas De Quincey—encounter dark secrets and strange obsessions that oddly echo De Quincey's drug-fueled writings.

Careless Love is the full, true, and mesmerizing story of Elvis Presley's last two decades, in the long-awaited second volume of Peter Guralnick's masterful two-part biography. Last Train to Memphis, the first part of Guralnick's two-volume life of Elvis Presley, was acclaimed by the New York Times as "a triumph of biographical art." This concluding volume recounts the second half of Elvis' life in rich and previously unimagined detail, and confirms Guralnick's status as one of the great biographers of our time. Beginning with Presley's army service in Germany in 1958 and ending with his death in Memphis in 1977, Careless Love chronicles the unravelling of the dream that once shone so brightly, homing in on the complex playing-out of Elvis' relationship with his Machiavellian manager, Colonel Tom Parker. It's a breathtaking revelatory drama that for the first time places the events of a too-often mistold tale in a fresh, believable, and understandable context. Elvis' changes during these years form a tragic mystery that Careless Love unlocks for the first time. This is the quintessential American

story, encompassing elements of race, class, wealth, sex, music, religion, and personal transformation. Written with grace, sensitivity, and passion, *Careless Love* is a unique contribution to our understanding of American popular culture and the nature of success, giving us true insight at last into one of the most misunderstood public figures of our times.

Atomic Ranch

Steve Irwin meets David Attenborough in this jaw-dropping account of studying the world's most venomous creatures. Venomologist Bryan Grieg Fry has one of the most dangerous jobs on earth: he works with its deadliest creatures. He's been bitten by twenty-six venomous snakes, been stung by three stingrays, and survived a near-fatal scorpion sting while deep in the Amazon jungle. He's received more than four hundred stitches and broken twenty-three bones, including breaking his back in three places, and had to learn how to walk again. But when you research only the venom you yourself have collected, the adventures—and danger—never stop. Imagine a three-week-long first date in Siberia catching venomous water shrews with the daughter of a Russian war hero; a wedding attended by Eastern European prime ministers and their machine-gun-wielding bodyguards and snakes; or leading a team to Antarctica that results in the discovery of four new species of venomous octopi. Bryan's discoveries have radically reshaped views on venom evolution and contributed to the creation of

venom-based life-saving medications. In pursuit of venom, he has traveled the world collecting samples from Indonesia to Mexico, Germany, and Brazil. He's encountered venomous creatures of all kinds, including the Malaysian king cobra, the Komodo dragon, and the funnel-web spider. Bryan recounts his lifelong passion for studying the world's most venomous creatures in this outlandish, captivating memoir, where he and danger are never far apart.

Higher (the Indigo Lounge Series #2)

From a beloved master of crime fiction, *Nightmare in Pink* is one of many classic novels featuring Travis McGee, the hard-boiled detective who lives on a houseboat. Travis McGee's permanent address is the Busted Flush, Slip F-18, Bahia Mar, Lauderdale, and there isn't a hell of a lot that compels him to leave it. Except maybe a call from an old army buddy who needs a favor. If it wasn't for him, McGee might not be alive. For that kind of friend, Travis McGee will travel almost anywhere, even New York City. Especially when there's a damsel in distress. "As a young writer, all I ever wanted was to touch readers as powerfully as John D. MacDonald touched me."—Dean Koontz The damsel in question is his old friend's kid sister, whose fiancé has just been murdered in what the authorities claim was a standard Manhattan mugging. But Nina knows better. Her soon-to-be husband had been digging around, finding scum and scandal at his real estate investment firm. And this scum will go to any lengths to make sure their secrets don't get out. Travis is determined to get to the bottom of things, but just as he's closing in on the truth, he finds himself drugged and taken captive. If he's being locked up in a mental institution with a steady stream of drugs siphoned into his body, how can Travis keep his promise to his old friend? More important, how can he get himself
