This book is designed to be an ancillary to the classes, labs, and hands on practice that you have diligently worked on in preparing to obtain your MS-900: Microsoft 365 Fundamentals certification. I won't bother talking about the benefits of

certifications. This book tries to reinforce the knowledge that you have gained in your process of studying. It is meant as one of the end steps in your preparation for the MS-900 exam. This book is short, but it will give you a good gauge of your readiness. Learning can be seen in 4 stages: 1. Unconscious Incompetence 2. Conscious Incompetence 3. Conscious Competence 4. Unconscious Competence This book will assume the reader has already gone through the needed classes, labs, and practice. It is meant to take the reader from stage 2, Conscious Incompetence, to stage 3 Conscious Competence. At stage 3, you should be ready to take the exam. Only real-world scenarios and work experience will take you to stage 4, Unconscious Competence. Before we get started, we all have doubts when preparing to take an exam. What is your reason and purpose for taking this exam? Remember your reason and purpose when you have some doubts. Obstacle is the way. Control your mind, attitude, and you can control the situation. Persistence leads to confidence. Confidence erases doubts.

Exam 98-369 Cloud Fundamentals measures your ability to accomplish technical tasks such as understanding the cloud; enabling Microsoft cloud services; administering Office 365 and Microsoft Intune; using and configuring Microsoft cloud services; and supporting cloud users. Students who are beginning studies in technology need a strong foundation in the basics before moving on to more advanced technology courses and certification programs. The Microsoft Technology Associate (MTA) is a new and innovative certification track designed to provide a pathway for future success in technology courses and careers. The MTA program curriculum helps instructors teach and validate fundamental technology concepts and provides students with a foundation for their careers as well as the confidence they need to succeed in advanced studies. Through the use of MOAC MTA titles you can help ensure your students future success in and out of the classroom. Students will learn key cloud services and terminology, Microsoft cloud services, Microsoft Office 365 and Intune administration, and the ability to use, configure, or support parts of other key Microsoft technologies for cloud services including SharePoint Online, Skype for Business Online, Exchange Online, and OneDrive.

Book II, Grounding the Cloud: Big Data and the Alphabet of Security channels Thomas Edison as he exemplifies innovation specific to electricity. We leave Ohio and go coast to coast in search of real world examples of big data and security. First stop is Glendale, California where we meet Dan Block, formerly DineEquity Executive Director of Human Resources. Dan takes us into the world of managing HR systems for Applebee's and IHOP. Logan Browne, Chief Technologist and Director, Cyber Security at Hewlett Packard Enterprise in Sacramento takes us behind the scenes of security precautions at one of the world's largest companies. North in Seattle, we visit with Microsoft's Bob Herbold. Bill Gate's COO gives his historical perspective on Big Data. Looking back to 1987, he discusses Procter and Gamble, Sam Walton, Walmart, and fresh flowers. Lastly, looking east, we take the red-eye to Dulles International to speak with William J. McBourrough, a cyber security consultant and Adjunct professor at the University of Maryland University College. With candor, William lays bare the real-world implications of weakness in the human element.
