George Eastman

"Drawing upon the archives of the George Eastman House Collection, 500 Cameras

Read Book George Eastman And The Camera Inventors And Their Discoveries

takes a unique approach to the fascinating story of photography. Tracing the medium's history through some of the most important equipment ever used by professionals and amateurs, this remarkable survey presents 500 cameras, all beautifully illustrated in spectacular images."--P. [2] of cover.

George Eastman

Billed as "The World's Largest Photographs," Eastman Kodak's 18-by-60-foot Coloramas brought photography to the masses with a spectacular display of communicative power. During its forty-year run in Grand Central Terminal in New York City, the Colorama program presented a panoramic photo album of American scenes, lifestyles, and achievements from the second half of the twentieth century. Produced in association with the George Eastman House Collection, Colorama explores the history of these colossal images. A selection of the most striking images are beautifully reproduced, making these images available to viewers nostalgic for American life in decades gone by, as well as people with a personal connection to the original display in Grand Central Station.

A Triumph of Genius

Describes the life and career of the man who revolutionized photography by

developing a camera simple enough for anyone to use.

George Eastman

The Tesla Coil

Describes how the camera was invented and how it has evolved over time.

Comprehensive Guide for Camera Collectors

Describes the impact of the Eastman dry film camera and its development process on photography, especially for amateurs, and recounts the life and career of their inventor, George Eastman.

George Eastman and the Early Photographers

This book tells the remarkable story of the Kodak Girl, one of the most durable and successful marketing campaigns in advertising history. Created by George Eastman, inventor of the inexpensive hand-held camera, the Kodak Girl traces the intersection of American culture with photography as it evolved from a studio-

bound practice to a snapshot obsession for the masses. Martha Cooper's extensive collection of Kodak Girl material ranges from advertising, by Kodak and other camera manufacturers, to photographs from all periods, engravings, trading cards, matchbooks as well as commemorative stamps and Valentine's Days cards. This rich collection considers the relationship of the Kodak Girl to the birth of the snapshot during the late nineteenth to the mid-twentieth centuries, and is accompanied by two essays on the seminal role of women - on both sides of the camera - in photography's early history.

is no assurance that Kodak will survive its bankruptcy.

The History of the Japanese Camera

A gorgeous picture book biography of botanist and photographer Anna Atkins--the first person to ever publish a book of photography After losing her mother very early in life, Anna Atkins (1799-1871) was raised by her loving father. He gave her a scientific education, which was highly unusual for women and girls in the early 19th century. Fascinated with the plant life around her, Anna became a botanist. She recorded all her findings in detailed illustrations and engravings, until the invention of cyanotype photography in 1842. Anna used this new technology in order to catalogue plant specimens—a true marriage of science and art. In 1843, Anna published the book *Photographs of British Algae: Cyanotype Impressions* with handwritten text and cyanotype photographs. It is considered the first book of photographs ever published. Weaving together histories of women, science, and art, *The Bluest of Blues* will inspire young readers to embark on their own journeys of discovery and creativity.

500 Cameras

It's a Snap!

In graphic novel format, describes how George Eastman developed the Kodak camera, and how his company changed the way people captured memories.

Curious Cameras

From her hand-colored, machine-stitched photographic prints to her artist's books and well-known Mountain Dream Tarot card deck, the first-known photographic treatment of the tarot, Bea Nettles's work has always upended tradition. *Bea Nettles: Harvest of Memory* presents the span of her art across half a century, in conjunction with an exhibition co-organized by the George Eastman Museum in Rochester, New York, and the Sheldon Art Galleries in St. Louis, Missouri. Recognized for her innovations in mixed-media photography, Nettles used alternative photographic processes that produced textured works with subjects including self-portraits; investigations of the body and its relationship to nature and landscape; and the experience of mothering, loss, and aging. A tremendously productive artist, Nettles's work has received critical acclaim, and been acquired

into the permanent collections of museums coast to coast. Now, for the first time in her fifty-year career, *Bea Nettles: Harvest of Memory* offers a large-scale retrospective, tracing the journey of an artist who profoundly illuminates our inner worlds.

Camera, The

A biography of George Eastman--the inventor of dry plates, film, and the Brownie camera.

Is This Something George Eastman Would Have Done?

Abelardo Morell's first monograph, from the Smithsonian's Photographers at Work series, includes selections from his camera obscura series, as well as samples of book photographs, objects, and night shots.

George Eastman and the Kodak Camera

While history books consider George Eastman to be the father of photography, most people are unaware that his contributions to the world extended far beyond his multimillion-dollar company, Eastman Kodak. A banker by trade, his

Read Book George Eastman And The Camera Inventors And Their Discoveries

determination to improve and simplify his weekend hobby led to discovering cutting-edge photographic technology and the birth of his own business. A shrewd and principled businessman, he was a pioneer in customer service, employee relations, and worldwide product distribution. A generous philanthropist, his donations helped build universities, improve healthcare, and advance scientific research. His fascinating journey is deftly chronicled in *George Eastman: Bringing Photography to the People*, where readers will be inspired by a man whose invention and passion improved the lives of millions of people and the pictures they took.

Brassai

A brief biography of George Eastman, who simplified the complicated process of photography so that he was able "to make the camera as convenient as the pencil."

A Century of Cameras from the Collection of the International Museum of Photography at George Eastman House

informative biography, Elizabeth Brayer draws a vivid portrait of this enigmatic and complex man.

Click!

Offers insight into the work and methods of the celebrated American illustrator, describing with lavish reproductions of numerous works his efforts at the sides of skilled photographers who combined models, props, and locations that served as the basis of Rockwell's iconic images.

Color as Form

How corporate hubris caused the bankruptcy of America's greatest photography company. A meticulously documented history of Eastman Kodak Company's financial implosion. Once a member of the Dow Jones Industrial Average, a blue chip growth stock, and a member of the Nifty-Fifty, Kodak filed a Chapter XI petition early in 2012. If you want to know how and why, then read this book.

Real Heroes

Beginning with Paul Strand's landmark *From the Viaduct* in 1916 and continuing

Read Book George Eastman And The Camera Inventors And Their Discoveries

through the present day, Photography's Last Century examines defining moments in the history of the medium. Featuring nearly 100 masterworks from one of the most important private holdings of photography, the book includes works by Diane Arbus, Richard Avedon, Walker Evans, László Moholy-Nagy, Man Ray, and Cindy Sherman, as well as a diverse group of important lesser-known practitioners. A fascinating interview with Ann Tenenbaum provides a personal account of the works, while the main text offers an essential history of photography that addresses the implications of calling this period the medium's "last" century.

The Bluest of Blues

When George Eastman decided to make photography his hobby, "simple" was hardly the word to describe the pastime. He had to lug 50 pounds of camera equipment around with him, including the fragile glass plates that would become pictures. But resourceful George wasn't one to put up with such inconvenience for long. Click! is the story of how George Eastman developed a camera simple enough for anyone to use—the Kodak, predecessor of today's pocket instamatics—and forever revolutionized photography.

George Eastman

Read Book George Eastman And The Camera Inventors And Their Discoveries

Character is indispensable to a successful career and a happy life. It's also essential to our liberty, because if a society can't govern itself, then government must step in to police our decisions and actions. Sounds pretty heavy, right? Well, the good news is that character is nothing more than the sum of our choices, and it is something every one of us has total control over. And here's even better news: this book gives us flesh-and-blood models—men and women whose choices and actions make them heroes. The forty people Lawrence W. Reed profiles in this accessible, inspirational book are not the usual examples. Some are well-known historical and cultural figures, yes—but *Real Heroes* also features many remarkable people you have never heard of. Reed ranges far and wide—from the distant past to the present; from the United States, to Europe, to Asia; from statesmen to scientists, athletes to inventors, entrepreneurs to theologians, and writers to teachers. Concise and compelling, *Real Heroes* features a bulleted summary of key facts and takeaways at the end of each profile. This book will become a treasured resource for parents and teachers and a favorite of readers of all ages.
