Use a practical approach to teaching mathematics that integrates proven literacy strategies for effective instruction. This professional resource will help to maximize the impact of instruction through the use of whole-class instruction, small-group instruction, and Math Workshop. Incorporate ideas for using ongoing assessment to guide your instruction and increase student learning, and use hands-on, problem-solving experiences with small groups to encourage mathematical communication

and discussion. Guided Math supports the College and Career Readiness and other state standards.

GO Math! combines fresh teaching approaches with never before seen components that offer everything needed to address the rigors of new standards and assessments. The new Standards Practice Book, packaged with the Student Edition, helps students achieve fluency, speed, and confidence with grade-level concepts. GO Math! is the first K-6 math program written to align with the Common Core. With GO Math! you will hit the ground running and have everything you need to teach the Common Core State Standards. GO Math! combines fresh teaching approaches with everything needed to address the rigors of the Common Core Standards. Using a unique write-in student text at every grade, students represent, solve, and explain -- all in one place. - Publisher.

### **Go Math!**

"California GO Math! is specifically designed for California teachers and students to ensure success with California Common Core Standards and the Smarter Balanced Assessment. California GO Math! K-6 incorporates mathematical practices in every lesson so students develop the mathematical thinking they need. It features exploration-driven lessons that begin with problem-based situations and build to more abstract problems. It includes resources to personalize instruction for Rtl, online assessment, and ongoing data to inform instruction for Intervention, ELD, and challenge."--Publisher's website.

Let's Build a Canoe for eighth-grade mathematics is a Hawaiian canoe-themed textbook for teaching U.S. standardized mathematical concepts to students in Hawai'i and the Pacific. The STEM2 Book Series for eighth-grade mathematics was developed as part of a technology-enabled pedagogical approach (Ne'epapa Ka Hana model) for teaching mathematics in Hawai'i middle schools. This book

series seeks to provide Hawai'i middle school teachers resources and training to incorporate problem-based learning, social learning and inclusive pedagogy through a culturally relevant mathematics curriculum. The series currently includes: \* Let's Build a Canoe - Student Activities and Teacher's Guide (Common Core aligned) \* Let's Play the Ukulele - Student Activities and Teacher's Guide (Common Core aligned) \* Let's Go Fishing - Student Activities and Teacher's Guide (SBAC aligned) \* Let's Make Da Kine - Student Mini Projects and Teacher's Guide (Skill development) The printed and online resources produced by NKH through STEM2 are fully aligned with the Common Core Standards for Mathematical Practice and Content and the Smarter Balanced Assessments for mathematics. Based on the GO Math! curriculum structure, the NKH STEM2 book series and social learning platform ([www.stemd2.com](http://www.stemd2.com)) is flexible for teachers to implement partially or fully in their classrooms, as a tool to encourage students' interest and achievement in STEM subjects. Funded by a three-year grant from the Department of Education's Native Hawaiian Education Act Program, Ne'epapa Ka Hana is a project of the STEM2 Research & Development Group in the Center on Disability Studies at the University of Hawai'i at Manoa. More information about STEM2 is available online at [www.stemd2.org](http://www.stemd2.org).
