A History of England from the First Invasion by the Romans, 1

This book challenges the orthodox views of William I's great census of 1086, to give an intriguing story of the origins of England's greatest historical record, as well as new insights into its contents.

Tudors: The History of England from Henry VIII to Elizabeth I

History of England from the First Invasion by the Romans

Staying Power is a panoramic history of black Britons. Stretching back to the Roman conquest, encompassing the court of Henry VIII, and following a host of characters from Mary Seacole to the abolitionist Olaudah Equiano, Peter Fryer paints a

Read Free History Of England Before The Norman Conquest

picture of two thousand years of Black presence in Britain. First published in the '80s, amidst race riots and police brutality, Fryer's history performed a deeply political act; revealing how Africans, Asians and their descendants had long been erased from British history. By rewriting black Britons into the British story, showing where they influenced political traditions, social institutions and cultural life, was - and is - a deeply effective counter to a racist and nationalist agenda. This new edition includes the classic introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*, in addition to a brand-new foreword by Guardian journalist Gary Younge, which examines the book's continued significance today as we face Brexit and a revival of right wing nationalism.

A Short History of England

In Civil War, Peter Ackroyd continues his dazzling account of England's history, beginning with the progress south of the Scottish king, James VI, who on the death of Elizabeth I became the first Stuart king of England, and ends with the deposition and flight into exile of his grandson, James II. The Stuart dynasty brought together the two nations of England and Scotland into one realm, albeit a realm still marked by political divisions that echo to this day. More importantly, perhaps, the Stuart era was marked by

Read Free History Of England Before The Norman Conquest

the cruel depredations of civil war, and the killing of a king. Ackroyd paints a vivid portrait of James I and his heirs. Shrewd and opinionated, the new King was eloquent on matters as diverse as theology, witchcraft and the abuses of tobacco, but his attitude to the English parliament sowed the seeds of the division that would split the country in the reign of his hapless heir, Charles I. Ackroyd offers a brilliant – warts and all – portrayal of Charles's nemesis Oliver Cromwell, Parliament's great military leader and England's only dictator, who began his career as a political liberator but ended it as much of a despot as 'that man of blood', the king he executed. England's turbulent seventeenth century is vividly laid out before us, but so too is the cultural and social life of the period, notable for its extraordinarily rich literature, including Shakespeare's late masterpieces, Jacobean tragedy, the poetry of John Donne and Milton and Thomas Hobbes' great philosophical treatise, Leviathan. Civil War also gives us a very real sense of the lives of ordinary English men and women, lived out against a backdrop of constant disruption and uncertainty.

A History of England from the First Invasion by the Romans, 2

This book gives a comprehensive and enjoyable survey of England's past from prehistory right through to the present. All the major periods of English history are dealt with, including the Roman occupation, the invasions of the Anglo-Saxons, Vikings, and Normans, and the power struggles of the medieval kings. In the 20th century the Empire was transformed into the Commonwealth; two victorious, but costly, World Wars were fought; the Welfare State was established; and membership in the European Community was finally achieved.

Sir James Mackintosh

From the invaders of the dark ages to the aftermath of the coalition, one of Britain's most respected journalists, Simon Jenkins, weaves together a strong narrative with all the most important and interesting dates in a book that characteristically is as stylish as it is authoritative. A Short History of England sheds light on all the key individuals and events, bringing them together in an enlightening and engaging account of the country's birth, rise to global prominence and then partial eclipse. There have been long synoptic histories of England but until now there has been no standard short work covering all significant events, themes and individuals. Now updated to take in the rapid progress of recent events and beautifully illustrated, this magisterial history will be the standard work for years to come.

A Short History of England, Ireland and Scotland

The history of England, by sir J. Mackintosh (continued by W. Wallace, R. Bell).

The first book in Peter Ackroyd's history of England series, which has since been followed up with two more installments, Tudors and Rebellion. In Foundation, the chronicler of London and of its river, the Thames, takes us from the primeval forests of England's prehistory to the death, in 1509, of the first

Tudor king, Henry VII. He guides us from the building of Stonehenge to the founding of the two great glories of medieval England: common law and the cathedrals. He shows us glimpses of the country's most distant past--a Neolithic stirrup found in a grave, a Roman fort, a Saxon tomb, a medieval manor house--and describes in rich prose the successive waves of invaders who made England English, despite being themselves Roman, Viking, Saxon, or Norman French. With his extraordinary skill for evoking time and place and his acute eye for the telling detail, Ackroyd recounts the story of warring kings, of civil strife, and foreign wars. But he also gives us a vivid sense of how England's early people lived: the homes they built, the clothes they wore, the food they ate, even the jokes they told. All are brought vividly to life in this history of England through the narrative mastery of one of Britain's finest writers.

An abridgment of the History of England continued by an eminent writer to the present time. The sixth edition

Peter Ackroyd, one of Britain's most acclaimed writers, brings the age of the Tudors to vivid life in this monumental book in his The History of England series, charting the course of English history from Henry VIII's cataclysmic break with Rome to the epic rule of Elizabeth I. Rich in detail and atmosphere, Peter Ackroyd's Tudors is the story of Henry VIII's relentless pursuit of both the perfect wife and the perfect heir; of how the brief reign of the teenage king, Edward VI, gave way to the violent reimposition

of Catholicism and the stench of bonfires under "Bloody Mary." It tells, too, of the long reign of Elizabeth I, which, though marked by civil strife, plots against the queen and even an invasion force, finally brought stability. Above all, however, it is the story of the English Reformation and the making of the Anglican Church. At the beginning of the sixteenth century, England was still largely feudal and looked to Rome for direction; at its end, it was a country where good governance was the duty of the state, not the church, and where men and women began to look to themselves for answers rather than to those who ruled them.
