Timothy is on probation. It's a strange word—something that happens to other kids, to delinquents, not to kids like him. And yet, he is under house arrest for the next year. He must check in weekly with a probation officer and a therapist, and keep a journal for an entire year. And mostly, he has to stay out of trouble. But when he must take drastic measures to help his struggling family, staying out of trouble proves more difficult than Timothy ever thought it would be. By turns touching and funny, and always original, *House Arrest* is a middlegrade novel in verse about one boy's path to redemption as he navigates life with a sick brother, a grieving mother, and one tough probation officer.

Being healthy is much more than being physically fit and free from disease. Health is the state of well-being in which all of the components of health -- physical, emotional, social, mental, spiritual, and environmental -- are in balance. To be truly healthy, you must take care of all six components. - p. 11.
