### AHCNSY305

This unit of competency describes the skills and knowledge required to carry out routine visual inspections of park and recreational facilities to identify visible hazards and existing and potential risks. It applies to individuals who work under general supervision and exercise limited autonomy with some accountability for their own work. They undertake defined activities and work in a structured context.

### Ahcbus405

This unit of competency covers the skills and knowledge required to implement a low volume or sprinkler irrigation maintenance program. It applies to individuals who take responsibility for own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

### AHCTRF303

This unit of competency describes the skills and knowledge required to construct soil profiles for the establishment of high-performance sports and recreational turf surfaces. It applies to the construction of turf playing surfaces in new projects and to the complete renovation of existing soil profiles in sporting, commercial and public recreational open spaces such as golf greens and tees, cricket pitches and other turfed sporting surfaces.

### Ahcbio302

This unit of competency describes the skills and knowledge required to take a soil sample and interpret the test results. This unit applies to individuals whose job role includes undertaking soil or growing media sampling and interpreting the results

as a foundation for further horticultural operations such as nutrition programs and irrigation scheduling. This unit applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

### **Ahcwrk305**

This unit of competency describes the skills and knowledge required to plan and implement a program for the use of chemicals as well as assess and mitigate risks associated with the use of chemicals across a range of industry sectors. All work must be carried out to comply with workplace procedures, work health and safety and pesticide legislation and codes, and sustainability practices. This unit applies to individuals who take responsibility for their own work and may provide direction to others. They provide and communicate solutions to a range of predictable and sometimes unpredictable problems. Work is carried out to industry standards.

### **Ahcmom204**

This unit of competency describes the skills and knowledge required to coordinate work site activities for small scale projects. This unit applies to individuals who work under broad direction and take responsibility for their own work including limited responsibility for the work of others. They use discretion and judgement in the selection and use of available resources.

### **Ahcnsy402**

This unit of competency describes the skills and knowledge required to plan and carry out sampling and testing of water quality as part of a monitoring program.

### **Ahclsc401**

This unit of competency describes the skills and knowledge required to implement a tree maintenance program. It also describes the skills and knowledge required to apply a range of tree maintenance techniques; and monitor and review the maintenance program over the course of a year. The work requires application of extensive arboricultural knowledge and a broad range of arboricultural skills. This unit applies to individuals who have a range of skills to select and apply a

specialised range of methods, tools, equipment and information to complete routine activities and provide and transmit solutions to predictable and sometimes unpredictable problems. Work is implemented with low risk work procedures and to comply with Safe Work Method Statement documentation.

### **Ahcpgd304**

This unit of competency describes the skills and knowledge required to participate in an e-business supply chain. All work must be carried out to comply with organisational requirements, work health and safety legislation and codes, sustainability practices and in consultation with the management team.

### **Ahcpcm302**

### **Ahcpgd305**

This unit of competency describes the skills and knowledge required to manage staff. All work must be carried out to comply with organisational requirements, work health and safety legislation and codes and in consultation with the management team. This unit applies to individuals who take personal responsibility and exercise autonomy in undertaking complex work. They must analyse information and exercise judgement to complete a range of advanced skilled activities.

### **AHCPGD303**

This unit of competency describes the skills and knowledge required to install and construct a retaining wall.

### **AHCSOL401**

This unit of competency describes the skills and knowledge required to plan and establish plant displays either indoors or as seasonal displays of annual and perennial plants in garden beds.

### **Ahcber301**

This unit of competency describes the skills and knowledge required to implement and monitor quality assurance procedures.

## **AHCPGD302**

This unit of competency describes the skills and knowledge required to design plant displays in a wide range of locations and situations, buildings and structures. It applies to permanent, semi-permanent and temporary displays of plant life under a range of gardening, exhibition, visual merchandising, marketing and commercial leasing and hiring activities. It applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

## **Ahcwrk403**

This unit of competency describes the skills and knowledge required to plan a propagation program and monitor the implementation of the program. It applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

## **AHCLPW303**

This unit of competency describes the skills and knowledge required to prepare specialised, unusual or rare plants in a production nursery or by other organisations, groups and individuals with a wide range of species and cultivars as the specialised plants or individual cultivars under production.

## **AHCPGD206**

This unit of competency describes the skills and knowledge required to develop a plant establishment program and a relevant site plan and specifications. It applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

## **AHCCHM402**

This unit of competency describes the skills and knowledge required to install water features. Water features may include waterfalls, ponds, waterways and fountains. They may be prefabricated as supplied by irrigation suppliers and garden centres or formed 'in situ'. This unit applies to individuals who take responsibility for their own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

### **AhcPGD203**

This unit of competency describes the skills and knowledge required to supervise landscape project works. This unit applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

### **AHCLSC306**

This unit of competency describes the skills and knowledge required to prepare for, carry out and complete operational maintenance of machinery used in the agriculture, horticulture and land management sectors. The unit applies to individuals who undertake routine work under general supervision with limited autonomy and accountability when conducting machinery maintenance tasks.

### **AHCPGD401**

This unit of competency describes the skills and knowledge required to prune shrubs and small trees that are less than three meters in height while standing on the ground.

### **AHCPGD402**

This unit of competency describes the skills and knowledge required to investigate the maintenance of cultural knowledge by Indigenous people and provide this knowledge to others, if permitted by cultural authorities. All work is performed according to Community guidelines and cultural protocols. This unit applies to individuals who work under broad direction and use discretion and judgement in the selection and use of available resources.

### **Ahclsc309**

This unit of competency describes the skills and knowledge required to inspect park or recreational facilities to identify hazards, existing and potential risks and non-conformities with Australian Standards and workplace health and safety requirements.

### **Ahctrf301**

This unit of competency describes the skills and knowledge required to recognise plant pests, diseases and disorders, determine the treatment options and apply treatments under supervision.

### **Ahcirg333**

This unit of competency describes the skills and knowledge required to administer finance, insurance and legal requirements.

### **Ahcwrk401**

This unit of competency describes the skills and knowledge required to provide information to clients and others about plants and their cultural requirements. It applies to individuals who take responsibility for their own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

### **Ahcpmg202**

This unit of competency covers the skills and knowledge required to operate low volume and sprinkler irrigation systems. It applies to individuals who take responsibility for own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

### **Ahcpcm401**

This unit of competency describes the skills and knowledge required to maintain and repair grassed areas.

## **Ahclpw306**

This unit of competency describes the skills and knowledge required to install and construct a paved surface to a prepared base within a documented scope of works incorporated in a project across a range of situations and environments.

## **Ahclsc307**

This unit of competency describes the skills and knowledge required to recommend plants and cultural practices. It applies to both sales staff in plant nurseries and garden centres and others in the amenity horticulture industries. It applies to individuals who analyse information and exercise judgement to complete a range of advanced skilled activities and demonstrate deep knowledge in a specific technical area. They have accountability for the work of others and analyse, design and communicate solutions to a range of complex problems. All work is carried out to comply with workplace procedures.

## **AHCARB301**

This unit of competency covers the skills and knowledge required to work effectively within own area of responsibility while responding to an emergency disease or plant pest incursion.

## **Ahcilm302**

This unit of competency describes the skills and knowledge required to regulate crops by thinning and pruning flower, fruit or vegetable crops to control yield and quality.

## **Ahcirg332**

This unit of competency describes the skills and knowledge required to construct access tracks and clear vegetation on rural land.

## **AHCLSC305**

This unit of competency describes the skills and knowledge required to safely receive, move and sample bulk materials in a storage area to minimise loss or damage according to industry standards and storage program. The unit applies to

individuals who work in a bulk storage environment under broad direction and take responsibility for their own work. They use discretion and judgement in the selection and use of available resources and to solve problems.

### **AHCPHT305**

This unit of competency covers the skills and knowledge required to construct stone structures and features as a component of landscape project works.

### **Ahcbus501**

This unit of competency describes the skills and knowledge required to supervise work routines and staff performance.

### **Tend Nursery Plants**

This unit of competency describes the skills and knowledge required to recognise unusual disease or plant pest signs during day-to-day work and take appropriate reporting action.

### **Ahcwrk308**

This unit of competency describes the skills and knowledge required to implement a landscape maintenance program of newly constructed or established landscapes. It applies to individuals who take responsibility for their own work and for the quality of the work of others. They use discretion and judgement in the selection, allocation and use of available resources. All work is carried out to comply with workplace procedures.

### **Ahcbus401**

This unit of competency describes the skills and knowledge required to perform specialist amenity pruning using specialist pruning techniques.
