A Basic History of Art

Sixty-seven female artists and their work from the sixteenth century to the present demonstrate the evolution of art through a female-empowered lens. The history of art has been forever considered, written, published, and taught by men, primarily for a male audience. For women, the mere possibility of becoming an artist--to have access to the necessary materials, to produce, exhibit, and, against all odds, succeed and sustain the activity--has been an incessant, dangerous, and exhausting fight--physically, mentally, and psychologically. The time has come to reframe the history of art in the context of the brave women who had the courage to defy all rules in order to pursue their vocation and carve out their place in the art world. This book draws the portraits of sixty-seven fascinating women and their significant artistic achievements, from groundbreaking Renaissance painter Artemisia Gentileschi to the photography of Nan Goldin today. Tracing the painters, sculptors, photographers, and performance artists who shaped modern art, readers discover key figures and their signature works, including Mary Cassatt, Sonia Delaunay, Georgia O'Keeffe, Tamara de Lempicka, Frida Kahlo, Dorothea Tanning, Leonora Carrington, Yoko Ono, Eva Hesse, Marina Abramović, Carrie Mae Weems, and Cindy Sherman. Exploring the codes and archetypes of art history, this celebration of women in art analyzes their slow but steady achievement of artistic independence and the hard-won recognition for their creative work in a domain historically reserved for men.

Vietnam Reflexes and Reflections

History of Art for Young People

For forty years, this widely acclaimed classic has remained unsurpassed as an introduction to art in the Western world, boasting the matchless credibility of the Janson name. This newest update features a more contemporary, more colorful design and vast array of extraordinarily produced illustrations that have become the Janson hallmark. A narrative voice makes this book a truly enjoyable read, and carefully reviewed and revised updates to this edition offer the utmost clarity in contributions based on recent scholarship. Extensive captions for the book's incredible art program offer profound insight through the eyes of twentieth-century art historians speaking about specific pieces of art featured throughout. Significantly changed in this edition is the chapter on "The Late Renaissance," in which Janson offers a new perspective on the subject, tracing in detail the religious art tied to the Catholic Reform movement, whose early history is little known to many readers

of art history. Janson has also rearranged early Renaissance art according to genres instead of time sequence, and he has followed the reinterpretation of Etruscan art begun in recent years by German and English art historians. With a truly humanist approach, this book gives written and visual meaning to the captivating story of what artists have tried to express—and why—for more than 30,000 years.

History of Art

For undergraduate one-semester courses in Art History, Art Appreciation, and General Humanities. Retaining the intelligence and freshness of H.W. Janson's classic original work, this unsurpassed introductory survey on the history of Western art from the ancient through modern worlds is specifically written and designed to make art history accessible and enjoyable for students. Now with a new Art History CD-ROM containing nearly 400 images in a flash card format, and an exciting new design, the Sixth Edition enhances its narrative with in-margin coverage of historical/terminology notes, drawings, tables on historical events and personages, explanation of artistic processes, and boxes with history of music and theater topics.
