The Filmmaker's Handbook

A consumer guide integrates shopping suggestions and handy user tips as it describes and rates dozens of digital electronic products, including cell phones, digital cameras, televisions, computers, and home theater products.

Buying Guide

Greater Delaware Valley Regional Industrial Purchasing Guide

As HDTV is developed, refined and becomes more available to the masses, technicians will be required to service them. Up until now, precious little information has been available on the subject. This book provides a detailed background on what HDTV is, the technical standards involved, how HDTV signals are generated and transmitted, and a generalized description of the circuitry an HDTV set consists of.

Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

The EDCF Guide to Digital Cinema Production

Choosing the right school for film or television studies is a challenge. You must evaluate everything: location, size, academic opportunities, access to equipment, curriculum, general philosophy, and reputation. In this generous guide, distinguished film teacher and director Ernest Pintoff lists 639 undergraduate and graduate schools in America that offers programs in cinema and television. He details curricular emphasis, facilities and equipment, special activities, degrees offered, and the strengths of individual schools, as well as a glossary of technical terms. Including insider advice on how to get the most out of film school from acclaimed directors such as Paul Mazursky and writers such as Stu Silver, as well

as from current students and recent graduates, this invaluable guide will steer anyone who wants to get into filmmaking in the right direction. "Like Dr. Johnson's dictionary, Professor Pintoff's book is a publishing first--all the information that an aspiring film student needs to make an informed decision about his education can now be found between the covers of this book." - Robert Towne, screenwriter
"Learning your craft is Priority One if you want to be a filmmaker. This book beckons you to an indispensable first step." - Jack Valenti, President, Motion Pictures Association of America

Beginner's Guide to Video

A professional introduction to the end-to-end process of digital filmmaking! The EDCF Guide to Digital Cinema Production sheds light on the ongoing and confusing transition from analog to digital technology in film production. In addition to a complete analysis of technical concerns, this text deals with a number of issues

where European and Hollywood priorities differ. It adds fuel to the discussion on "Photo-Chemical Fundamentalism" and the future of traditional film-based cinematography. With special emphasis on new HD production techniques for the big cinema screen, this guide is the one and only resource available from a European perspective. The EDCF Guide to Digital Cinema Production provides film professionals and decisions-makers in European cinema with an excellent basis for discussions on how to handle the transition from analog to digital technology. Look no further for: * Several production case studies, among them Ingmar Bergman's last film "Saraband" (2003) and Lars von Trier's "Dogville" (2003). * Surveys of HD Systems & Cameras and "The 37 MFAQ on HD Production." * Expert reports on Audio Recording for HD and the Digital Intermediate Process. * Detailed European initiatives in Digital Cinema. * An up-to-date survey of the problematic standards situation for Digital Cinema. * A comprehensive look at archiving - the "Achilles Heel" of digital production. * The pros and cons of producing feature films digitally - a unique and professional view of "the agony and ecstasy." Editor-in-Chief Lasse Svanberg is a founding member of EDCF. He was DoP on 14 feature films 1966-81, founded TM (Technology & Man) Magazine at the Swedish Film Institute in 1968 and was its Chief Editor until 1998 He was elected Fellow of BKSTS 1979, Fellow of SMPTE 1995 and granted Professor's title by the Swedish Government 2002. He is the author of six books on the history and possible future of film, video and television. The European Digital Digital Cinema Forum (EDCF) was constituted in June 2001 as joint Swedish-British-French effort to establish a European forum for

discussions, information exchange and industrial activities in the field of Digital Cinema. This project was initiated because digital production, digital distribution and digital exhibition of film is the most radical technical change facing the film industry since sound film was introduced.
