Equality Law in the Workplace considers the equality issues that employers in Ireland need to be aware of, as well as deal with, on a daily basis, not only while someone is actively employed, but also certain concerns that can arise at either the pre-employment or post-employment stage. In five sections, the book examines: (I) Irish Legislation: Employment Equality Act 1998 \* Equality Act 2004 \* Civil Law (Miscellaneous Provisions) Act 2011 \* Civil Partnership and Certain Rights and Obligations of Cohabitants Act 2010 \* Employment Equality Act 1998 (S 76 Right to Information) \*\*\* (II) Fair Employment: Code of Practice Harassment, Order 208/2012 \*\*\* (III) Definition of Discrimination \*\*\* (IV) Pre-Employment: Advertisement \* Job Descriptions \* Application Forms v. CVs \* Shortlisting \* Interviews \* Feedback \* Pre-Employment Medicals \* References - Taking Up \* Criminal Record Checks \* Alcohol/Drug Testing \* Professional Qualifications - Proof of \* Immigration Checks \* Restrictive Covenants \*\*\* (V) Employment: Terms of Employment \* Offer Letter \* Contract \* Discrimination - Nine Grounds \* Victimization \* Social Media \* Equal Pay \* Institutions \* Claims - Time Limits \* EE1 + EE2 \* Mediation \* Burden of Proof \* References - Post Employment \* Defamation \* Remedies \* Records. [Subject: Irish Law, Human Rights Law, Employment Law]

In this well established book, now brought up to date in a second edition, the Technical Editor of 'Performance Bikes' shows you how to evaluate your engine, how to assess what work you can undertake yourself, and what is best left to a specialist. The great attraction of the two-stroke is its enormous potential, contrasted with its appealing simplicity. Armed with little more than a set of files, you can make profound changes to the output power of a two-stroke. But these changes will increase the power only if you know what you are doing. 'Motor Cycle Tuning (Two-stroke)' will therefore guide you through the necessary stages which can enable a stock roadster engine can be turned into a machine capable of winning open-class races, for an outlay which is positively low by racing standards. Very few other books on engine development and most of these are either devoted to car engines or are out of date Promoted by PERFORMANCE BIKES

Taking the Enlightenment and the feminist tradition to which it gave rise as its historical and philosophical coordinates, *Feminism and the Politics of Travel After the Enlightenment* explores the coincidence of feminist vindications and travel in the late eighteenth and nineteenth centuries, the way travel's utopian dimension and feminism's utopian ideals have intermittently fed off each other in productive ways. Travel's gender politics is analyzed in the works of J.-J. Rousseau, Mary Wollstonecraft, Stéphanie-Félicité de Genlis, Germaine de Staël, Frances Burney, Flora Tristan, Suzanne Voilquin, Gustave Flaubert, George Sand, Robyn Davidson, and Sara Wheeler.

This book provides a clear understanding of the nuts and bolts of valuation approaches for business investments, including market, income and asset-based methods. It reviews tools that arbitrators may employ to reach their final compensation assessment on a principled basis. The book and its many practical recommendations explore the decision making processes entailed in three central aspects of the arbitrator's role: and advance planning to enhance understanding of expert valuation evidence; and identification of and apples-to-oranges and miscomparisons; and and recognition of the true comparability between the business at issue and other examples offered in the expert evidence. The presentation focuses not only on the legal standards applicable to the valuation (full or adequate compensation, reparations, restitution, actual

loss, fair market value, fair or reasonably equivalent value, lost profits, etc.), but also on the informed judgment and reasonableness that must enter into the process of weighing the facts of each case and determining its aggregate significance. The book considers common valuation methods like discounted cash flows, adjusted present values, capitalized cash flows, adjusted book values and comparable sales and transactions. Additionally, it addresses means for arbitrators to assess expert valuation evidence in complex business investment disputes. andquot;Best book 2008 of the OGEMID awards!andquot;

Marcus Luttrell, author of the #1 bestseller Lone Survivor, share war stories about true American heroism from himself and other soldiers who bravely fought alongside him. Navy SEAL Marcus Luttrell returned from his star-crossed mission in Afghanistan with his bones shattered and his heart broken. So many had given their lives to save him -- and he would have readily done the same for them. As he recuperated, he wondered why he and others, from America's founding to today, had been willing to sacrifice everything-including themselves-for the sake of family, nation, and freedom. In Service, we follow Marcus Luttrell to Iraq, where he returns to the battlefield as a member of SEAL Team 5 to help take on the most dangerous city in the world: Ramadi, the capital of war-torn Al Anbar Province. There, in six months of high-intensity urban combat, he would be part of what has been called the greatest victory in the history of U.S. Special Operations forces. We also return to Afghanistan and Operation Redwing, where Luttrell offers powerful new details about his miraculous rescue. Throughout, he reflects on what it really means to take on a higher calling, about the men he's seen lose their lives for their country, and the legacy of those who came and bled before. A thrilling war story, Service is also a profoundly moving tribute to the warrior brotherhood, to the belief that nobody goes it alone, and no one will be left behind.

Whether you want to make an extra \$100 a month or an extra \$10,000, the high-level process is the same: Someone has to buy what you're selling. The money has to come from somewhere, right? (Hint: it comes from customers.) Sadly, there's an

epidemic going around. The reason most entrepreneurs, wantpreneurs, and side hustlers fail is a lack of customers. If you've ever failed in your own efforts to start a business or earn money on the side, I'm guessing that was the root cause. On top of that, you're in a constant battle of not having enough hours in the day and you don't know where to focus your limited time, energy, and money. That's the bad news. The Answer The good news is you have more opportunity today to earn income in your spare time than ever before. And you don't need a killer new business idea or millions of dollars in startup capital to do it. The good news is there isn't a shortage of customers. They're out there! This book will share specifics on how to increase your earning power-on your own time, on your own terms, and without getting another job. We'll look at real-life examples of people just like you making it happen. I'm going to arm you with dozens of income-generating ideas that don't require a ton of time or money to get started. And spoiler alert: there are no get-rich-quick schemes inside. Instead, you'll learn proven strategies for tapping into the growing peer-to-peer economy to supplement your income, diversify your revenue sources, and reduce your reliance on your day job for your livelihood. Go Where the Cash Is Already Flowing Buy Buttons focuses on marketplaces that already exist, where you can put your expertise, time, and assets up for sale or rent. There are hundreds of platforms that you can add your "buy buttons" to. You don't have to build a customer base from scratch, design a website, or even worry about payment processing. Each platform already has an eager audience of buyers looking for what you have to sell. Not sure what to sell? In the 300+ platforms featured inside, you're bound to find an idea or two that's a fit. These platforms are the "gateway drugs" of entrepreneurship. They're easy to get started on, to get the high from your first sale, and to keep coming back for more. Does It Really Work? I've used the same "buy buttons" marketplace strategy over and over again for the last 15 years as an entrepreneur. Even more exciting, thousands of SideHustleNation.com readers and Side Hustle Show listeners just like you are already seeing results by implementing the strategies in this book. The common thread is they set up their businesses on pre-existing platforms that made it easy for buyers to find them and spend money with them. This book will show you exactly where and how to set up your "buy buttons" to generate hundreds or thousands of dollars a month in side income. My Guarantee I guarantee you'll find at least one "buy button" platform that you can use to generate your own job-free income stream. If you don't, just send me a note (my contact info is at the end of the book), and I'll buy the book back from you, no questions asked. Now, where else are you going to find a deal like that? Ready? Hit the Buy Now button and let's get started!

## **Just a Spoonful of Laughter Helps the Medicine Go Down**

“Wheel books” were once found in the uniform pockets of virtually all junior officers and many senior petty officers. Each small notebook was unique to the Sailor carrying it, but all had in common a collection of data and wisdom that the individual deemed useful in the effective execution of his or her duties. Often used as a substitute for experience among neophytes and as a portable library of reference information for more experienced personnel, those weathered pages contained everything from the time of the next tide, to leadership hints from a respected chief petty officer, to the color coding of the phone-and-distance line used in underway replenishments. In that same tradition, the Naval Institute has created and aptly named the Wheel Book series, portable libraries culled from USNI’s vast array of information that has

accumulated for more than a century. Articles from the Institute's flagship publication Proceedings are combined with selections from USNI's oral history program and from Naval Institute Press books to create unique guides on a wide array of relevant professional subjects. Just as the "wheel books" of yesterday served the fleet well, the Naval Institute Wheel Books of today provide supplemental information, pragmatic advice, and cogent analysis on topics important to modern naval professionals. The pinnacle of leadership in a military organization is command. Article 0801 of Navy Regulations defines both the authority and the responsibility of command as "absolute." This Naval Institute Wheel Book provides practical guidance and food for thought that actual and would-be commanders can use to carry out that absolute authority while being absolutely responsible. Included in this specially-selected collection is the sage advice of those who have commanded as well as the expectations of those who are commanded. Aspirants as well as practitioners will do well to exploit this selected survey of what Fleet Admiral Chester Nimitz described as the "one purpose" for entering the Navy.

The wrathful deity Vajrakilaya embodies the enlightened activity of all the buddhas in order to subjugate delusion and negativity that can arise as obstacles to spiritual practice. The Vajrakilaya system of meditation is practiced widely in Tibet as well as in Western Buddhist centers. Written by the renowned scholars Ven. Khenchen Palden Sherab Rinpoche and Ven. Khenpo Tsewang Dongyal Rinpoche, The Dark Red Amulet presents a line-by-line description of this Vajrayana practice and describes the history of its oral transmission lineage. This book conveys the essential meaning of the Vajrakilaya teachings and provides an invaluable guide for Tibetan Buddhist practitioners to discover the absolute vajra nature that will transform every duality hindrance into clear wisdom and compassion. The book includes a translation of a brief biography of the text's terton, Tsasum Lingpa, and a chapter of students' questions and the Khenpos' answers.

## The Two Faces of Islam

Wall Street's miasmal garbage washes up on the Jersey Shore when a small time broker falls in love: Is he attracted to the beautiful lady — or her brother's inside information? Held spellbound by a steamy, auburn-haired woman with a dubious past and a get-rich-quick, insider trading scheme, Austin Carr knocks down a beehive of bad-acting Bonacellis, including the ill-tempered "Mr. Vic" Bonacelli, who wants his redhead back, and local mob lieutenant Angelina "Mama Bones" Bonacelli, architect of a strange and excruciating death trap for the fast-talking stockbroker she calls smarty pants. To survive, Austin must unravel threads of jealousy, revenge and new affections, discover the fate of a pseudo ruby called the Big Mojo and slam the lid on a pending United States of America vs. Austin Carr insider trading case. Can Austin and his Jersey Shore mouthpiece possibly out maneuver the savvy U.S. District Attorney from Manhattan? Will anything matter for Austin ever again if Mama Bones flips that switch? Praise for BIG MOJO ... "Darkly comic and always entertaining — with an outrageous cast of characters including a scheming grandmother and a mysterious redhead. Our engaging hero, fueled by honor and passion, does the best he can in a world where the bad guys seem determined to do him in. Gordon Gekko meets Janet Evanovich in this wry and winning caper — Jack Getze does it again!" — Hank Phillippi Ryan, Agatha, Anthony and Mary Higgins Clark Award winning author of Truth Be Told "If Jack Getze's Austin Carr novels aren't on your must-read list, you don't know what you're missing. Austin Carr's that buddy your wife doesn't like you to hang out with. Fast-talking, wisecracking, and hard-living, he's the type of guy who swears he's only ever looking for a good time, and yet every night out with him seems to end in a fight. But you can't deny he's got heart — and BIG MOJO is Carr's most epic adventure yet. It's got frame-ups. Insider trading. Stolen jewels. Double-crosses. Triple-crosses. Love potions. Gunplay. And enough outsized characters it could only take place in the great state of New Jersey. So pick it up. Give it a read. But maybe tell the missus you're hanging out with someone else." — Chris F. Holm, author of the Collector Series "There's no way you can lose with an Austin Carr novel with a gorgeous redhead, a character with the moniker of "Mama Bones", a double-crossing business partner, more bad guys than can be seen in one place outside of the White House, and Austin's smart mouth that surely he learned by reading lots of Robert B. Parker's character Spenser ... A truly rollicking, fun, action-filled read with more twists than a fevered revival of Hula Hoop fanatics at a Jersey Shore ballroom ... And then, there's that redhead. Always that redhead ... " — Les Edgerton, author of The Genuine, Imitation, Plastic Kidnapping and others "The irrepressible Austin Carr is back, and he's sly and sardonic as ever. Jack Getze's BIG MOJO is a rollercoaster ride you don't want to miss!" — Hilary Davidson, Anthony Award Winning Author of Blood Always Tells

Rantoul and the former Chanute Air Force Base are inseparably intertwined as primary players in a single historical narrative. Rantoul was first founded as an agriculturally based community in 1848 near an area known as Mink Grove. The settlement boomed with the coming of the Illinois Central Railroad in 1854; a railroad championed by the town's namesake, Robert Rantoul Jr. Disaster followed in 1899 and again in 1901 with devastating fires. Then, in 1917, a U.S. Army flying field was built on the outskirts of Rantoul. Named after the aviation pioneer Octave Chanute, Chanute Field, later Chanute Air Force Base, became a premier technical training facility. A mutually beneficial relationship quickly developed between these civilian and military establishments that would last for over 75 years. Chanute Air Force Base closed in 1993, ushering in yet another new era for the village of Rantoul.

This book has been developed from its earlier and far less formal presentment as the proceedings of a symposium entitled The Biochemistry of S-Adenosylmethionine as a Basis for Drug Design that was held at the Solstrand Fjord Hotel in Bergen, Norway on June 30-July 4, 1985. The purpose of the symposium was to bring together scientists from various disciplines (biochemistry, pharmacology, virology, immunology, chemistry, medicine, and so on) to discuss the recent advances that have been made in our understanding of the biological roles of S adenosylmethionine (AdoMet) and to discuss the feasibility of utilizing AdoMet-dependent enzymes as targets for drug design. Thus the information provided herein will be of value not only to basic scientists involved in elucidating the role of AdoMet in biology, but also to medicinal chemists who are using this basic knowledge in the process of drug design. The volume should also be of interest to pharmacologists and clinicians involved in biological evaluation of potential therapeutic agents arising from the efforts of the biochemists and medicinal chemists. Each plenary speaker at the symposium was requested to submit a chapter reviewing recent contributions of their discipline to our base of knowledge about the biological role of AdoMet. Topics covered in this volume include protein

and phospholipid methylations (Section A), nucleic acid methylations (Section B), the regulation of AdoMet, S-adenosylhomocysteine, and methylthioadenosine metabolism (Section C), clinical aspects of AdoMet (Section D), and the design, synthesis, and biological evaluation of trans methylation inhibitors (Section E).

The Complete Book of Moto Guzzi: 100th Anniversary Edition, Every Model Since 1921, written by respected motorcycle expert Ian Falloon, offers enthusiasts a thorough review of Guzzi's storied 100-year history via all of its production models. The oldest European motorcycle manufacturer in continuous production, Italy's Moto Guzzi has built some of the most iconic motorcycles ever produced. Established in 1921, the company is one of the most traditional motorcycle makers and also one of the most innovative. Carlo Guzzi's first engine design, a horizontal single, defined Moto Guzzi's road-going motorcycles for the company's first 45 years. In the 1950s, Moto Guzzi experienced tremendous success in Grand Prix motorcycle racing. Today, Moto Guzzi has a higher profile than ever, thanks to its popularity among enthusiast celebrities like Ewan McGregor. This new edition of The Complete Book of Moto Guzzi includes a 100th anniversary introduction, new photography, and additional pages to cover the newest models from 2018 to 2020. All of Moto Guzzi's production models are covered in detail, including the groundbreaking Falcone, the V-8 Grand Prix racers, the V7 Sport, the Ambassador, the Eldorado, the Le Mans, the Daytona, right up to today's the complete range of modern bikes including the V7, Griso, Stelvio, and V9. Celebrate a century of iconic Moto Guzzi machines, model by stunning model.

Since its formation in 1932, Saudi Arabia has been ruled by two interdependent families. The Al Sa'uds control politics and the descendants of Ibn Abd al-Wahhab impose Wahhabism—a violent, fanatical perversion of the pluralistic Islam practiced by most Muslims. Stephen Schwartz argues that Wahhabism, vigorously exported with the help of Saudi oil money, is what incites Palestinian suicide bombers, Osama bin Laden, and other Islamic terrorists throughout the world. Schwartz reveals the hypocrisy of the Saudi regime, whose moderate facade conceals state-sponsored repression and terrorism. He also raises troubling questions about Wahhabi infiltration of America's Islamic community and about U.S. oil companies sanitizing Saudi Arabia's image for the West. This sharp analysis and eye-opening expose illuminates the background to the

September 11th terrorist attacks and offers new approaches for U.S. policy toward its closest ally in the Middle East.
