NATIONAL BESTSELLER WINNER OF THE PULITZER PRIZE The searing, post-apocalyptic novel about a father and son's fight to survive. A father and his son walk alone through burned America. Nothing moves in the ravaged landscape save the ash on the wind. It is cold enough to crack stones, and when the snow falls it is gray. The sky is dark. Their destination is the coast, although they don't know what, if anything, awaits them there. They have nothing; just a pistol to defend themselves against the lawless bands that stalk the road, the clothes they are wearing, a cart of scavenged food—and each other. The Road is the profoundly moving story of a journey. It boldly imagines a future in which no hope remains, but in which the father and his son, "each the other's world entire," are sustained by love. Awesome in the totality of its vision, it is an unflinching meditation on the

worst and the best that we are capable of: ultimate destructiveness, desperate tenacity, and the tenderness that keeps two people alive in the face of total devastation. ## **Reminiscences of John Murray Forbes**

In *Scarlet Tides* David Hair continues his stunning fantasy epic set in the masterfully crafted world of Urte. With the Leviathan Bridge now uncovered from the sea, it re-opens the East to the Rondian legions and the Third Crusade ensues in the name of Emperor Constant. The Rondians are determined to succeed in their latest Crusade and have recruited the strongest and most lethal magi of the Church's Inquisition to lead the way--and to leave nothing but blood and ruins in their wake. While most of the Rondians have their sights set on gold, one fraction of the Inquisition is set on finding a more important treasure--the Scytale of Corneus. As the source of all magical power, the Scytale is a sure game-changer, and it is imperative that the power-hungry and ruthless Rondians to keep it out of the hands of their enemies if they wish to maintain their growing empire. Yet, as the Inquisition marches forward, conspiracy to overthrow the new emperor lurks in the shadows in both the East and West. With the unlikely heroes of Alaron, a failed mage; Ramita, a lowly market maid; and Cymbellea, the daughter of a gypsy set on ending a world of war, *Scarlet Tides* is an impressive world-building feat that proves that sometimes even weapons and magic cannot overcome the power of love and loyalty.

### **Behind Closed Doors**

As seen in Time, USA TODAY, The Atlantic, The Wall Street Journal, and on CBS This Morning, BBC, PBS, CNN, and NPR, iGen is crucial reading to understand how the children, teens, and young adults born in the mid-1990s and later are vastly different from their Millennial predecessors, and from any other generation. With generational divides wider than ever, parents, educators, and employers have an urgent need to understand today's rising generation of teens and young adults. Born in the mid-1990s up to the mid-2000s, iGen is the first generation to spend their entire adolescence in the age of the smartphone. With social media and texting replacing other activities, iGen spends less time with their friends in person—perhaps contributing to their unprecedented levels of anxiety, depression, and loneliness. But technology is not the only thing that makes iGen distinct from every generation before them; they are also different in how they spend their time, how they behave, and in their attitudes toward religion, sexuality, and politics. They socialize in completely new ways, reject once sacred social taboos, and want different things from their lives and careers. More than previous generations, they are obsessed with safety, focused on tolerance, and have no patience for inequality. With the first members of iGen just graduating from college, we all need to understand them: friends and family need to look out for them; businesses must figure out how to recruit them and sell to them; colleges and universities must know how to educate and guide them. And members of iGen also need to understand themselves as they communicate with their elders and explain their views to their older peers. Because where iGen goes, so goes our nation—and the world.
