Original essays lend context to the novel by surveying the political and cultural events out of which the novel grew as well as how Atwood's critics have responded to the novel. Two other original essays explore the novel in light of the dystopian literary tradition and feminist literary theory. A collection of republished essays continues the conversation with consideration of the novel's narrative structure and an examination of the role of love in the novel.

What happened at 10 Rillington Place was so shocking and gruesome that even today everyone over a certain age still remembers the case with a shudder. In 1950, Timothy Evans was hanged for the violent murder of his baby daughter; he was also assumed to have murdered his wife. Then, less than three years later, another tenant, John Christie, was found to have killed at least six women, hiding their bodies in the garden, under floorboards and in a concealed kitchen alcove. Christie followed Evans to the gallows. It seemed unlikely that two murderers were living at 10 Rillington Place, and the evidence that emerged in the Christie case eventually led to Evans receiving a pardon. But there was also circumstantial evidence that Evans had indeed killed his wife and child. Crime student Edna Gammon firmly believes that Evans was guilty. In *A House To Remember*, she explains why.

"Intriguing and captivating."—Celia Rees, author of *Witch Child WRONGED. HANGED. ALIVE? (AND TRUE!)* Anne can't move a muscle, can't open her eyes, can't scream. She lies immobile in the darkness, unsure if she'd dead, terrified she's buried alive, haunted by her final memory—of being hanged. A maidservant falsely accused of infanticide in 1650 England and sent to the scaffold, Anne Green is trapped with her racing thoughts, her burning need to revisit the events—and the man—that led her to the gallows. Meanwhile, a shy 18-year-old medical student attends his first dissection and notices something strange as the doctors prepare their tools . . . Did her eyelids just flutter? Could this corpse be alive? Beautifully written, impossible to put down, and meticulously researched, *Newes from the Dead* is based on the true story of the real Anne Green, a servant who survived a hanging to awaken on the dissection table. *Newes from the Dead* concludes with scans of the original 1651 document that recounts this chilling medical phenomenon. *Newes from the Dead* is a 2009 Bank Street - Best Children's Book of the Year.

The increasingly popular idea that cinematic fictions can 'do' philosophy raises some difficult questions. Who is actually doing the philosophizing? Is it the philosophical commentator who reads general arguments or theories into the stories conveyed by a film? Could it be the film-maker, or a group of collaborating film-makers, who raise and try to answer philosophical questions with a film? Is there something about the experience of films that is especially suited to the stimulation of worthwhile philosophical reflections? In the first part of this book, Paisley Livingston surveys positions and arguments surrounding the cinema's philosophical value. He raises criticisms of bold theses in this area and defends a moderate view of film's possible contributions to philosophy. In the second part of the book he defends an intentionalist approach that focuses on the film-makers' philosophical background assumptions, sources, and aims. Livingston outlines intentionalist interpretative principles as well as an account of authorship in cinema. The third part of the book exemplifies this intentionalist approach with reference to the work of Ingmar Bergman. Livingston explores the connection between Bergman's work and the Swedish director's primary philosophical source—a treatise in philosophical psychology authored by the Finnish philosopher, Eino Kaila. Bergman proclaimed that reading this book was a tremendous philosophical experience for him and that he 'built on this ground'. With reference to materials in the newly created Ingmar Bergman archive, Livingston shows how Bergman took up Kaila's topics in his cinematic explorations of motivated irrationality, inauthenticity, and the problem of self-knowledge.

Unlearning Meditation

Almost everyone who crosses the therapist's threshold is looking for a second chance—a shot at living a richer, less restricted life. Understanding how echoes of the past resonate in and shape the present provides opportunities to resolve crippling conflicts and make new choices. Furthermore, such insight produces a sense of mastery. But not everyone is aware that the problems s/he brings into weekly therapy are just the first few bars of his or her song. Jane Hall wrote *Deepening the Treatment* to help the psycho-dynamically informed therapist help the patient recognize that exploring ideas and feelings is a journey worth taking and that the therapist is a trustworthy guide. Often, people need to wade before they feel comfortable diving into deep waters. Hall introduces a responsible if unconventional application of respectful, nondirective therapy, and she supports her vision with clinical examples and thoughtful attention to issues of basic technique—among them separation, termination, self-disclosure, frequency of sessions, tolerating patient rage, and, of course, interpreting the transference.

This collection of essays makes an original contribution to medieval manuscript studies through deep engagement with the material side of book creation. The volume brings together major scholars of medieval manuscripts with leading contemporary book artists. The result is a ground-breaking collection which will be of interest both for its methodological implications and for the insights that the case studies provide. In a sequence of interconnected essays, experts in the field of literature, history, art, and manuscript studies enact readings of medieval manuscripts that incorporate extreme attention to the materiality of the object of their study. While the digital revolution has provided unparalleled visual access to medieval manuscripts, these essays are attentive to what has got left behind—not just the aura of the original, but also the engagement of the other senses, such as the feel of the binding, the heft of the volume, the smell of the parchment, or the sound of the pages. By bringing together experienced medievalist scholars with practicing book artists of today, this volume brings back an artisanal sense of the complete book to an understanding of medieval manuscripts.

In the United States, precious little is known about the active role Muslim women have played for nearly a century in the religious culture of Indonesia, the largest majority-Muslim country in the world. While much of the Muslim world excludes women from the domain of religious authority, the country's two leading Muslim organizations--Muhammadiyah and Nahdlatul Ulama (NU)--have created enormous networks led by women who interpret sacred texts and exercise powerful religious influence. In *Women Shaping Islam*, Pieterella van Doorn-Harder explores the work of these contemporary women leaders, examining their attitudes toward the rise of radical Islamists; the actions of the authoritarian Soeharto regime; women's education and employment; birth control and family planning; and sexual morality. Ultimately, van Doorn-Harder reveals the many ways in which Muslim women leaders understand and utilize Islam as a significant force for societal change; one that ultimately improves the economic, social, and psychological condition of women in Indonesian society.

Critical Insights: The Handmaid's Tale

When we meditate, our minds often want to do something other than the meditation instructions we've been taught. When that happens repeatedly, we may feel frustrated to the point of abandoning meditation altogether. Jason Siff invites us to approach meditation in a new way, one that honors the part of us that doesn't want to do the instructions. He teaches us how to become more tolerant of intense emotions, sleepiness, compelling thoughts, fantasies—the whole array of inner experiences that are usually considered hindrances to meditation. The meditation practice he presents in *Unlearning Meditation* is gentle, flexible, permissive, and honest, and it's been wonderfully effective for opening up meditation for people who thought they could never meditate, as well as for injecting a renewed energy for practice into the lives of seasoned practitioners.

How to be a Brilliant English Teacher

A magnificent wartime love story about the forces that brought the author's parents together and those that nearly drove them apart Marianne Szegedy-Maszák's parents, Hanna and Aladár, met and fell in love in Budapest in 1940. He was a rising star in the foreign ministry—a vocal anti-Fascist who was in talks with the Allies when he was arrested and sent to Dachau. She was the granddaughter of Manfred Weiss, the industrialist patriarch of an aristocratic Jewish family that owned factories, were patrons of intellectuals and artists, and entertained dignitaries at their baronial estates. Though many in the family had converted to Catholicism decades earlier, when the Germans invaded Hungary in March 1944, they were forced into hiding. In a secret and controversial deal brokered with Heinrich Himmler, the family turned over their vast holdings in exchange for their safe passage to Portugal. Aladár survived Dachau, a fragile and anxious version of himself. After nearly two years without contact, he located Hanna and wrote her a letter that warned that he was not the man she'd last seen, but he was still in love with her. After months of waiting for visas and transit, she finally arrived in a devastated Budapest in December 1945, where at last they were wed. Framed by a cache of letters written between 1940 and 1947, Szegedy-Maszák's family memoir tells the story, at once intimate and epic, of the complicated relationship Hungary had with its Jewish population—the moments of glorious humanism that stood apart from its history of anti-Semitism—and with the rest of the world. She resurrects in riveting detail a lost world of splendor and carefully limns the moral struggles that history exacted—from a country and its individuals. Praise for *I Kiss Your Hands Many Times* “*I Kiss Your Hand Many Times* is the sweeping story of Marianne Szegedy-Maszák's family in pre- and post-World War II Europe, capturing the many ways the struggles of that period shaped her family for years to come. But most of all it is a beautiful love story, charting her parents' devotion in one of history's darkest hours.”—Arianna Huffington, president and editor-in-chief, the Huffington Post Media Group “In this panoramic and gripping narrative of a vanished world of great wealth and power, Marianne Szegedy-Maszák restores an important missing chapter of European, Hungarian, and Holocaust history.”—Kati Marton, author of *Paris: A Love Story* and *Enemies of the People: My Family's Journey to America* “How many times can a heart be broken? Hungarians know, Marianne Szegedy-Maszák's family more than most. History has broken theirs again and again. This is the story of that violence, told by the daughter of an extraordinary man and extraordinary woman who refused to surrender to it. Every perfectly chosen word is as it happened. So brace yourself. Truth can break hearts, too.”—Robert Sam Anson, author of *War News: A Young Reporter in Indochina* “This family memoir is everything you could wish for in the genre: the story of a fascinating family that illuminates the historical time it lived through. . . . Informative and fascinating in every way, [*I Kiss Your Hands Many Times*] is a great introduction to World War II Hungary and a moving tale of personal relationships in a time of great duress.”—Booklist (starred review)

This edition of Swokowski's text is truly as its name implies: a classic. Groundbreaking in every way when first published, this book is a simple, straightforward, direct calculus text. Its popularity is directly due to its broad use of applications, the easy-to-understand writing style, and the wealth of examples and exercises which reinforce conceptualization of the subject matter. The author wrote this text with three objectives in mind. The first was to make the book more student-oriented by expanding discussions and providing more examples and figures to help clarify concepts. To further aid students, guidelines for solving problems were added in many sections of the text. The second objective was to stress the usefulness of calculus by means of modern applications of derivatives and integrals. The third objective, to make the text as accurate and error-free as possible, was accomplished by a careful examination of the exposition, combined with a thorough checking of each

example and exercise.

This is the first modern edition of a Latin treatise published in London and in Paris between 1509 and 1520. The author once held the title of confessor to Henry VIII of England, imaginably the most obstreperous of penitents. Stephen Baron, a Franciscan living at Cambridge, advises Henry VIII on how to be a wise Christian king. Using a triadic structure reminiscent of Dante, he reviews the vices which beset a prince, the virtues he should practise, and the burdens which pertain to his exalted office. Though rooted in the Scholastic tradition, he is touched by the Erasmian elegances of early Tudor humanism. The editor provides an introduction, an English translation facing the original, and an extensive commentary. A preface and an epilogue set the work in the context of political thought through parallels with Thomas More.
