"The Dream Society . . . provides dramatic insights into how marketing will operate in the 21st century."Atlanta Business Chronicle A fascinating look into the future of business, as featured in Fast Company The future is uncertainthe world is constantly changing. While anything can happen, some things are far more likely than others. Rolf Jensen, internationally renowned futurist, provides readers with a tangible look at what the future will be like over the next 25 years. By identifying what lies ahead, Jensen gives people the knowledge they need to make informed decisions and strategically align themselves to capitalize on the unknown future, a future Jensen calls "the Dream Society." This dream society is characterized by the commercialization of emotions. In this provocative exploration, Jensen says that it will no longer be enough to produce a useful product. He shows that, for a product to be successful, its primary purpose will be the ability to fulfill an emotional need. Those who understand the workings of this dream society will be the ones who create the new products, new markets, and new businesses that dominate the world of tomorrow.

Pocas disciplinas pueden mostrar un grado tan intenso de dinamismo como el que ha caracterizado a lo largo de las últimas décadas al Desarrollo Local. En las postrimerías del siglo XX ha dejado de ser una cuestión marginal e incipiente para convertirse en una actividad consolidada institucionalmente y con una amplia inserción profesional. Se ha evidenciado que una de las más eficientes políticas de creación de empleo y mejora del nivel de bienestar de la población consiste en actuar a nivel local. Ante eso, se ha priorizado la parte práctica, diseñando catálogos de estrategias y de recursos asequibles para los profesionales sobre los que recaen las responsabilidades de este tipo de implementación de políticas. Sin embargo, buena parte de los profesionales desconocen los marcos teóricos que sirven de guía para la acción y, en cambio, nada hay más práctico que una buena teoría. En este libro, un grupo de profesores de diferentes universidades españolas ofrece un elenco de esos marcos. Proceden además de diferentes titulaciones y áreas de conocimiento, precisamente, con objeto de abrir, lo máximo posible, ese abanico que permita tanto a profesionales, como a estudiosos, entender e interpretar las prácticas del Desarrollo Local. Ofrecemos esa diversidad a modo de guía para que el lector pueda proceder a recomponer el cuerpo teórico que considere más adecuado. Quizá no exista una teoría verdadera, pero sí puede encontrar algunas más útiles que otras, dependiendo de su particular concepción del Desarrollo Local.

Consumerism has established itself as a dominant lifestyle, but the reasons behind this are often unclear. This study revisits a large amount of diverse research, and argues that consumerism is a powerful ritual "machine" that can make up for the modern lack of values with new symbols and rituals. Consumerism made its claim between the end of the 19th and the beginning of the 20th century, when the traditional symbolic world had ended and a new one had not yet emerged. Slowly but progressively, consumerism begun to develop new symbolic forms and new social rituals, becoming the basis for new mimetic behaviours. As nationalism has progressively declined, consumerism has permeated the entire social fabric. Supermarkets and shopping malls must be interpreted in the light of their ritual significance, as temples and holy cities of a new symbolic order. In the consumeristic era, many people are led to think and imagine in consumer terms, to identify

themselves through consumption rituals. The impact of consumerism on culture, from literature to art, should not be underestimated. Many artists have tried to develop their aesthetics by triggering a dialectical, or openly critical, confrontation with consumerism. This book also takes into account the development of violence and the effects of consumerism on childhood and new generations. The book contains a preface by the German anthropologist Christoph Wulf, and the images illustrating the text are by Belgian artist Michel Couturier.

The Das Kapital of the 20th century, Society of the Spectacle is an essential text, and the main theoretical work of the Situationists. Few works of political and cultural theory have been as enduringly provocative. From its publication amid the social upheavals of the 1960's, in particular the May 1968 uprisings in France, up to the present day, with global capitalism seemingly staggering around in it's Zombie end-phase, the volatile theses of this book have decisively transformed debates on the shape of modernity, capitalism, and everyday life in the late 20th century. This 'Red and Black' translation from 1977 is Introduced by Notting Hill armchair insurrectionary Tom Vague with a galloping time line and pop-situ verve, and given a more analytical over view by young upstart thinker Sam Cooper.
