powers, telling a powerful, evocative tale of a prodigal of the twentieth century. "Tell me what happened while there's still time," demands the dying Senator Adam Sunraider to the itinerate Negro preacher whom he calls Daddy Hickman. As a young man, Sunraider was Bliss, an orphan taken in by Hickman and raised to be a preacher like himself. Bliss's history encompasses the joys of young southern boyhood; bucolic days as a filmmaker, lovemaking in a field in the Oklahoma sun. And behind it all lies a mystery: how did this chosen child become the man who would deny everything to achieve his goals? Brilliantly crafted, moving, wise, Juneteenth is the work of an American master.

A systematic, building block-style plan for mastering the most daunting aspect of learning Chinese--how to remember the meaning of more than 2,000 of the most common characters--is provided in this handbook. Beginning with the simplest of strokes, such as those for numbers, scepter, and earth, and progressing to the extremely complex, such as destroy, insert, and mouse, this manual presents a methodology employing memory techniques to associate meanings with the characters' visual components. A sequence of numbered panels displays each character in two font styles, and a notation in the adjacent margin describes the character's pinyin pronunciation. Graphics that identify the components or characters from which the featured characters are drawn, and a listing of both the names of these root components, and the panel numbers that cite their location in the book augment the presentation. Beginners will be best served by using this guide in conjunction with the development of language skills, while those who are familiar with the language will find this book to be a comprehensive reference and refresher.

Newbery Medalist Laura Amy Schlitz brings her sorcery to a Victorian gothic thriller — an enthralling, darkly comic tale that would do Dickens proud. The master puppeteer, Gaspare Grisini, is so expert at manipulating his stringed puppets that they appear alive. Clara Wintermute, the only child of a wealthy doctor, is spellbound by Grisini's act and invites him to entertain at her birthday party. Seeing his chance to make a fortune, Grisini accepts and makes a splendidly gaudy entrance with caravan, puppets, and his two orphaned assistants. Lizzie Rose and Parsefall are dazzled by the Wintermute home. Clara seems to have everything they lack — adoring parents, warmth, and plenty to eat. In fact, Clara's life is shadowed by grief, guilt, and secrets. When Clara vanishes that night, suspicion of kidnapping falls upon the puppeteer and, by association, Lizzie Rose and Parsefall. As they seek to puzzle out Clara's whereabouts, Lizzie and Parse uncover Grisini's criminal past and wake up to his evil intentions. Fleeing London, they find themselves caught in a trap set by Grisini's ancient rival, a witch with a deadly inheritance to shed before it's too late. Newbery Medal winner Laura Amy Schlitz's Victorian gothic is a rich banquet of dark comedy, scorching magic, and the brilliant and bewitching storytelling that is her trademark.

Transnationalism has become one of the new key concepts designed to highlight areas of a positive dynamics in the context of an as yet amorphous process of globalization (which many consider as tantamount to Americanization). But what does the much-quoted "fading of borders" imply when we study its manifestations in the Western Hemisphere? Are the classic markers and containers of self, of culture, of ethnic or racial identity, of economic and political nation truly fading? Or are we witnessing a realignment of borders? Perhaps merely a displacement, that is new borders and with it a tacit reconfiguration of empire? The contributors of this volume originally presented their ideas at a conference organized by the Bavarian American Academy. Thomas J. Courchene, Jurgen Kahler, Ricardo D. Salvatore, Stefan Rinke, Reg Whitaker, John Urry, Paul Ashdown, Todd Gitlin, Susan H. Armitage, John Carlos Rowe, Werner Sollors, Stephan Palmie and Patricia Fernsandez-Kelly address the question of transnationalism from the perspectives of political sciences, economics, cultural studies, history, sociology and literature. Novelist Bharati Mukherjee concludes the volume by responding to the theoretical aspects raised by the contributors and by adding a fictional exemplification of the formation of a truly transnational American consciousness.

There is much excitement about Web 2.0 as an unprecedented, novel, community-building space for experiencing, producing, and consuming leisure, particularly through social network sites. What is needed is a perspective that is invested in neither a utopian or dystopian posture but sees historical continuity to this cyberleisure geography. This book investigates the digital public sphere by drawing parallels to another leisure space that shares its rhetoric of being open, democratic, and free for all: the urban park. It makes the case that the history and politics of public parks as an urban commons provides fresh insight into contemporary debates on corporatization, democratization and privatization of the digital commons. This book takes the reader on a metaphorical journey through multiple forms of public

Readers looking for an interdisciplinary, historical and spatial approach to staid Web 2.0 discourses will undoubtedly benefit from this text.

Hiroshima is the story of six people--a clerk, a widowed seamstress, a physician, a Methodist minister, a young surgeon, and a German Catholic priest--who lived through the greatest single manmade disaster in history. In vivid and indelible prose, Pulitzer Prize-winner John Hersey traces the stories of these half-dozen individuals from 8:15 a.m. on August 6, 1945, when Hiroshima was destroyed by the first atomic bomb ever dropped on a city, through the hours and days that followed. Almost four decades after the original publication of this celebrated book, Hersey went back to Hiroshima in search of the people whose stories he had told, and his account of what he discovered is now the eloquent and moving final chapter of Hiroshima.

Research results over the past decades have consistently demonstrated that a key reason why many second language learners fail--while some learners do better with less effort--lies in various learner attributes such as personality traits, motivation, or language aptitude. In psychology, these attributes have traditionally been called "individual differences." The scope of individual learner differences is broad--ranging from creativity to learner styles and anxiety--yet there is no current, comprehensive, and unified volume that provides an

overview of the considerable amount of research conducted on various language learner differences, until now. Each chapter in this new volume focuses on a different individual difference variable. Besides a review of the relevant second language literature, Zoltán Dörnyei presents a concise overview of the psychological research involving each topic. A key concern for the author has been to define the various learner factors as measurable constructs and therefore the discussion includes a summary of the most famous tests and questionnaires in each domain. A wide range of readers will benefit from this book--students in linguistics, applied linguistics, modern languages, and psychology programs; second language teachers participating in in-service training courses; and researchers in second language acquisition and psychology.

From avant-garde to oeuvre, the Harlem Renaissance to New Objectivity, museum fatigue to memento mori – the Babes use their whip-smart humor, on-point knowledge, and a heavy dose of candor to explain even the most complex ideas in bite-sized definitions, as in: ACTION PAINTING (n.) – If Jackie Chan had buckets of paint strapped to his arms and legs in Rush Hour 2, and there just happened to be a blank canvas nearby, you would end up with action painting. [...] IMPASTO (n.) – Have you ever gotten up close to a painting, looked at it, and thought: “Those brushstrokes are sensual as hell.”? That’s how I feel about impasto, a painting style that involves applying thick, textured strokes of paint using a brush or palette knife or other tool of your choice.
