He shows how movies became crucial events in the shaping of Monroe's identity. He regards her enduring gifts as a creative artist, discussing how her smaller roles in *The Asphalt Jungle* and *All About Eve* established the context for her career, while in-depth chapters on her more

important roles in *Bus Stop*, *Some Like It Hot*, and *The Misfits* provide the centerpiece of his examination of her life and career. Through extensive interviews with many of Monroe's colleagues, close friends, and other biographers, and a careful rethinking of the literature written about her, Rollyson is able to describe her use of Method acting and her studies with Michael Chekhov and Lee Strasberg, head of the Actors' Studio in New York. The author also analyzes several of Monroe's own drawings, diary notes, and letters that have recently become available. With over thirty black and white photographs (some published for the first time), a new foreword, and a new afterword, this volume brings Rollyson's 1986 book up to date. The Return of Marilyn Monroe

From hefty biographies and fact-based novels to photograph collections and memoirs, more books have been written about Marilyn Monroe than any other female over the past century. Drawing on excerpts from her diaries, journals, letters, and even checks and receipts—as well as reports of others—Rollyson recreates the day-to-day world of a woman who still fascinates us more than fifty years after her death. This national bestselling biography is the insightful and uniquely sensitive account of the iconic 1950s sex symbol from the feminist author and activist. Few books have altered the perception of a celebrity as much as Marilyn. Gloria Steinem reveals that behind the familiar sex symbol lay a tortured spirit with powerful charisma, intelligence, and complexity. The book delves into a topic many other writers have ignored—that of Norma Jeane, the young girl who grew up with an unstable mother, constant shuffling between foster homes, and abuse. Steinem evocatively recreates that world, connecting it to the

fragile adult persona of Marilyn Monroe. Her compelling text draws on a long, private interview Monroe gave to photographer George Barris, part of an intended joint project begun during Monroe's last summer. Steinem's Marilyn also includes Barris's extraordinary portraits of Monroe, taken just weeks before the star's death.

Fragments is an event—an unforgettable book that will redefine one of the greatest icons of the twentieth century and that, nearly fifty years after her death, will definitively reveal Marilyn Monroe's humanity. Marilyn's image is so universal that we can't help but believe we know all there is to know of her. Every word and gesture made headlines and garnered controversy. Her serious gifts as an actor were sometimes eclipsed by her notoriety—and by the way the camera fell helplessly in love with her. Beyond the headlines—and the too-familiar stories of heartbreak and desolation—was a woman far more curious, searching, witty, and hopeful than the one the world got to know. Now, for the first time, readers can meet the private Marilyn and understand her in a way we never have before. Fragments is an unprecedented collection of written artifacts—notes to herself, letters, even poems—in Marilyn's own handwriting, never before published, along with rarely seen intimate photos. Jotted in notebooks, typed on paper, or written on hotel letterhead, these texts reveal a woman who loved deeply and strove to perfect her craft. They show a Marilyn Monroe unsparing in her

analysis of her own life, but also playful, funny, and impossibly charming. The easy grace and deceptive lightness that made her performances indelible emerge on the page, as does the simmering tragedy that made her last appearances so affecting.

Tribute: Marilyn Monroe

There is much written, rumored, told, and retold about Marilyn Monroe, but the most unusual and remarkable fact about her is this: In person as well in her films, she appeared to be outright luminous?enveloped by a glow, like a firefly in the dark. Even Laurence Olivier, who costarred with Marilyn in the 1957 film *The Prince and the Showgirl*, saw it. Though he seemed to dislike her intensely, he had to admit that, in all her scenes, she lit up the screen. But exquisite as it can be, luminosity can be a kind of camouflage. It can hide the truth underneath. What exactly was Marilyn illuminating in the atmosphere that surrounded her? Her beauty was certainly stunning, dazzling—blinding, even—but what did it hide? Marilyn, more brilliant than many understood, knew well the difference between looking upon the light and seeing beyond the glow. “Men do not see me,” she said. “They just lay their eyes on me.” Psychoanalyst and longtime woman's biographer Dr. Alma Bond imagines, in detail, a several-year stretch during the late 1950s and early 1960s, when Marilyn, an exceedingly fragile figure, submits to

Written at the height of her fame but not published until over a decade after her death, this autobiography of actress and sex symbol Marilyn Monroe (1926-1962) poignantly recounts her childhood as an unwanted orphan, her early adolescence, her rise in the film industry from bit player to celebrity, and her marriage to Joe DiMaggio.
