Some men just have more to offer. Like hard-muscled, shape-shifting Bo Novikov--part polar bear, part lion, pure alpha. . . Ten years after Blayne Thorpe first encountered Bo Novikov, she still can't get the smooth-talking shifter out of her head. Now he's shadowing her in New York--all seven-plus feet of him--determined to protect her from stalkers who

want to use her in shifter dogfights. Even if he has to drag her off to an isolated Maine town where the only neighbors are other bears almost as crazy as he is. . . Let sleeping dogs lie. Bo knows it's good advice, but he can't leave Blayne be. Blame it on her sweet sexiness--or his hunch that there's more to this little wolfdog than meets the eye. Blayne has depths he hasn't yet begun to fathom--much as he'd like to. She may insist Bo's nothing but a pain in her delectable behind, but polar bears have patience in spades. Soon she'll realize how good they can be together. And when she does, animal instinct tells him it'll be worth the wait. . . Introduction to Global Politics

THEOLOGY AND SANITYFRANK SHEED — A Catholic Classic! — Includes Linked Headings, Footnotes, Index and Table of Contents — Includes Illustrations by Gustave Dore Publisher: Available in Paperback:ISBN-13: 978-1-78379-499-7 I played with the thought of dedicating this book TO ALL WHO KNOW LESS THEOLOGY THAN I. It would have sounded flippant. But it would have been exact. There are thousands who know more theology than I, and for them I have no message: they must teach me. But there are thousands who know less, and less is not enough: I must try to teach them. This book contains theology, not the great mass of it that theologians need, but the indispensable minimum that every man needs in order that he may be living mentally in the REAL WORLD—which is what the word SANITY means in my title. Sanity, remember, does not mean living in the same world as everyone else; it means living in the real world. But some of the most important elements in the real world can be known only by the revelation of God, which it is theology's business to study. Lacking this knowledge, the mind must live a half-blind life, trying to cope with a reality most of which it does not know is there. This is a wretched state for an immortal spirit, and pretty certain to lead to disaster. There is a good deal of disaster around at this moment. PUBLISHER: CATHOLIC WAY PUBLISHING

Principles of Modern Microbiology

Up to this point in my journey, although I often get queasy on the prognostic cruise through life, I have been able to steer a safe voyage. Even though maintaining an even keel was not easy, I secured the ballast on my own. Minor bumps and bruises from the rolling waves, never altered my itinerary. Now I find the jig is up, along with the untamable flapping jib. I am typing this now, sitting alone at the kitchen table, on a Sunday evening. A scary warning hitched a ride with this morning's sunrise and beeped me a jangling S.O.S. "Batten down the nauseous hatches sailor, a tempest brews in your coffee pot." How can I navigate the crest of a mile-high whitecap? Signals predict an explosion with more foam than a Colgate shaving cream factory. My long overdue Ship of Life upchuck can no longer be controlled with Tums. Journal, you are my benevolent port of refuge. Under your warm and endless blank sheets, a girl can weather the worst of squalls. With you as her sanctuary, she is captain of her protected literary craft. Her pen will always obey orders, because she controls the strokes. There will never be mutiny, while she is at the helm. You crave "incessant thespian whining" in the same way that she craves succulent sweet strawberries, dipped in melted milk chocolate. In friendly addition, when she divulges her long list of daily grievances, you will not make that asinine wisecrack. I speak of the grammatically in arrears - as well as the disgusting retort - full of typical nincompoopery, "Shove yuh gripes where sun doesn't shine." A journal gives its author unlimited space to be

obnoxious. Unlike some significant others, her sounding board validates a need for histrionics that "raise the house roof." A journal is privy to the real reason why its writer hosts those tightfisted "rage parties" - the ones without any refreshments. As a convenient result, she can lift her journal's roof, any old time she wants. She knows that no matter how much of her understanding literary accomodation caves in later on - due to her "temperamental aerobics" - it will stick around for the messy cleanup, without any usual guilt- provoking conditions. This point is truer than ever, when she suffers from unforgiving mental fatigue. Sitting on the bed, with her open journal on her lap. she is aware of the pen slipping from her cramped fingers. This exhausted writer can only cry herself to sleep. Throughout the dark night, her tolerant journal waits alongside its worn-out author, who, wrung dry, is now in deep slumber - except sleep is brief. All too soon, her alarm clock decrees another round of difficult daylight, while tousled hair burrows into that still-saturated pillow. She is one of those frantic mice, in the direct sight of Farmer Gray's legendary shotgun. By this fidgety point, her tormented tresses are worthy of that mocking commentary, "Washed-out blonde with fried-to-a-crisp ringlets." They always say this, so they think, behind her sore and drafty back-scarred with more holes than a hunk of Swiss cheese. Loyal as ever, when said writer quits hitting the snooze button, her journal smiles by her scruffy -side to offer unconditional aid and comfort. What is even more sympathetic, a journal will never judge its author, nor speculate why her nose hides under "slimy-green mega-snot." A journal will not inquire why a pesky

skunk is on a rampage to spray its author's expensive new Adidas footwear. A journal can not urge its author to sprint on her "burly legs" right over to the mall, for the one-hour-only sale on Scope. or inform her how to stockpile three super-size bottles of this urgent mouthwash - just for the price of one. An author needs no shilly-shallying in the sock-it-to-me department. She is free to challenge her journal. She is able to fume at will and with fiendish flames blasting out of her "snotty nose," she can smack her journal - right between its pages. As a perpetual good sport, with no connections to law enforcement, a journal relishes - in the midst of this myriad of inadequacies - its writer's "silly juvenile tantrums." Journal, I have important decisions to make. Taking advantage of your anticipated assistance comes first. Before I officially begin, I should set the scene with narratives from My Crazy Existence interweaving both past and present. As they evolve, please prepare to support me on this unusual journey - a journey of transporting us both, deep into the unknown. Neither of us can predict what is about to come as your pages unfold. Trust me. You may as well know now that I use this expression imploring your trust when I am insecure, so you will be hearing these two little words often.

A groundbreaking Virtual Reality textbook is now even better Virtual reality is a very powerful and

compelling computer application by which humans interact with computer-generated environments in a way that mimics real life and engages various senses. Although its most widely known application is in the entertainment industry, the real promise of virtual reality lies in such fields as medicine, engineering, oil exploration, and the military, to name just a few. Through virtual reality, scientists can triple the rate of oil discovery, pilots can dogfight numerically superior "bandits," and surgeons can improve their skills on virtual (rather than real) patients. This Second Edition of the first comprehensive technical book on virtual reality provides updated and expanded coverage of the technology such as: Input and output interfaces including touch and force feedback Computing architecture (with emphasis on the rendering pipeline and task distribution) Object modeling (including physical and behavioral aspects) Programming for virtual reality (WorldToolKit, Java 3D, GHOST, and PeopleShop) An in-depth look at human factors issues, user performance, and sensorial conflict aspects of VR Traditional and emerging VR applications The new edition of Virtual Reality Technology is specifically designed for use as a textbook. Thus, it includes definitions, review questions, and a CD-ROM with video clips that reinforce the topics covered. The CD-ROM also contains a Laboratory Manual with homework and programming assignments in VRML and Java 3D, as follows: Introduction to VRML and Java 3D Sensor and Event Processing VRML and JavaScript Scene Hierarchy, Geometry, and Texture VRML PROTO and Glove Devices Viewpoint Control, Sound, and Haptic Effects The Second Edition will serve as a state-of-the-
