Fiction. "John Woods' THE COMPLETE COLLECTION brings the small-town America of Sherwood Anderson's Winesburg, Ohio into conversation with Italo Calvino's fake travelogue, Invisible Cities, and that book's dreamish vision of Imperial China. Like Calvino's novel, the book evokes a kind of nearly Renaissance-like iconographic worldview of Memory and the Imagination, but one channeled through the disposable world of American children's toys and comic books. The flat voice is disconcertingly balanced between farce, comedy and deadly seriousness"--Johannes Goransson. "An accomplished artist and writer, in addition to being an entertaining and often an electrifying one. John Woods does something very original in his combining of the arts in this collection, and my hat's off to him in his two-hat achievement"--Stephen Dixon.

Organizational Systematics--taxonomy, Evolution, Classification

By taking you through the development of a real web application from beginning to

end, the second edition of this hands-on guide demonstrates the practical advantages of test-driven development (TDD) with Python. You'll learn how to write and run tests before building each part of your app, and then develop the minimum amount of code required to pass those tests. The result? Clean code that works. In the process, you'll learn the basics of Django, Selenium, Git, jQuery, and Mock, along with current web development techniques. If you're ready to take your Python skills to the next level, this book—updated for Python 3.6—clearly demonstrates how TDD encourages simple designs and inspires confidence. Dive into the TDD workflow, including the unit test/code cycle and refactoring Use unit tests for classes and functions, and functional tests for user interactions within the browser Learn when and how to use mock objects, and the pros and cons of isolated vs. integrated tests Test and automate your deployments with a staging server Apply tests to the third-party plugins you integrate into your site Run tests automatically by using a Continuous Integration environment Use TDD to build a REST API with a front-end Ajax interface

Headway

Creating young thinkers with great futures. Show and Tell taps into children's natural curiosity, asking a question such as "who makes you happy?" or "what do our senses tell us?" as the focus for each unit. Activities encourage children to explore the question while learning the language they need to think and talk about it. End-of-unit class projects consolidate learning and encourage children to work collaboratively. Opportunities to "Show and Tell" allow them to present their projects in class or at home, and to talk about what they have learned - in English! Stories, hand-eye coordination practice and letter formation activities lead

to reading and writing simple sentences. Problem-solving activities encourage children to think critically and creatively. Values lessons teach children how to behave both inside and outside the classroom.

Show and Tell

A blended learning approach to automotive engineering at levels one to three. Produced alongside the ATT online learning resources, this textbook covers all the theory and technology sections that students need to learn in order to pass levels 1, 2 and 3 automotive courses. It is recommended by the Institute of the Motor Industry and is also ideal for exams run by other awarding bodies. Unlike the current textbooks on the market though, this title takes a blended learning approach, using interactive features that make learning more enjoyable as well as more effective. When linked with the ATT online resources it provides a comprehensive package that includes activities, video footage, assessments and further reading. Information and activities are set out in sequence so as to meet teacher and learner needs as well as qualification requirements. Tom Denton is the leading UK automotive author with a teaching career spanning lecturer to head of automotive engineering in a large college. His nine automotive textbooks published since 1995 are bestsellers and led to his authoring of the Automotive Technician Training multimedia system that is in common use in the UK, USA and

several other countries.

The Headspace Guide to Mindfulness & Meditation

New Headway Beginner is aimed at absolute beginners, or those who have learned a little English but lack the confidence to build on it. It provides a solid foundation for New Headway Elementary. Its measured, step-by-step approach builds both skills and confidence. The right mix of language work and plentiful practice material enables learners to consolidate their knowledge of key points before proceeding further. The clearly defined grammatical syllabus includes past, present and future time and provides a thorough basis on which to build. The presentation of new language is gradual, methodical and clearly structured, giving learners a clear sense of progression. The vocabulary syllabus focuses on high-frequency survival terms and avoids overload. The gradual introduction of simple skills work with manageable communicative activities give learners a sense of achievement. 'Everyday English' practises social expressions in common situations and shows how learners can apply their knowledge in practical ways.
