Black and Hispanic students are not learning enough in our public schools. Their typically poor performance is the most important source of ongoing racial inequality in America today. Thus, say Abigail and Stephan Thernstrom, the racial gap in school achievement is the nation's most critical civil rights issue and an educational crisis. It's no wonder that "No Child Left Behind," the 2001 revision of the Elementary and Secondary Education Act, made closing the racial gap in education its central goal. An employer hiring the typical black high school graduate or the college that admits the average black student is choosing a youngster who has only an eighth-grade education. In most subjects, the majority of twelfth-grade black students do not have even a "partial mastery" of the skills and knowledge that the authoritative National Assessment of Educational Progress calls "fundamental for proficient work" at their grade. No Excuses marshals facts to examine the depth of the problem, the inadequacy of conventional explanations, and the limited impact of Title I, Head Start, and other familiar reforms. Its message, however, is one of hope: Scattered across the country are excellent schools getting terrific results with high-needs kids. These rare schools share a distinctive vision of what great schooling looks like and are free of many of the constraints that compromise education in traditional public schools. In a society that espouses equal opportunity we still have a racially identifiable group of educational have-nots -- young African Americans and Latinos whose opportunities in life will almost inevitably be limited by their inadequate education. When

students leave high school without high school skills, their futures -- and that of the nation -- are in jeopardy. With successful schools already showing the way, no decent society can continue to turn a blind eye to such racial and ethnic inequality.

NO EXCUSES!

In a lifetime of achievement---creating a major commercial construction company, raising a family, traveling the world and teaching the principles of success to thousands---David Neenan treasures most his mistakes, failures and troubles. When his company faced a loss greater than his net worth, David learned how to lead an effective organization. When an immune disorder made it almost impossible to stand, he learned how to heal himself. When he was 10,000 miles from home doing mindless work, he learned how to gain vision. These lessons are the keys to accomplishment and meaning. In each case, David found there are no shortcuts to success. Meaningful happiness derives from taking responsibility for your own life---and accomplishment has value only when it is reached with integrity, love, humor and faith in the wonderful dance of life. "No Excuses" describes David's challenges, failures and lessons through personal stories that portray a colorful life. Readers will hear how a simple pair of shoes led to a crucial realization at an early age. How he made peace with a childhood catastrophe at his father's grave. And how only embracing life's struggles every day brings meaning and joy. David believes we all want that---and we are the only ones responsible for achieving it.

The Trial at Bar of Sir Roger C.D. Tichborne, Bart

From the legendary Oklahoma coach, a candid and inspiring memoir. When Bob Stoops took over as football coach in 1999, the Oklahoma Sooners were in disarray with back-to-back losing seasons. But in just two years' time, Stoops achieved the seemingly impossible: winning a national championship and returning the struggling Sooners to their powerhouse status, churning out NFL talent, Heisman Trophy winners and conference championships, bowl wins and national title runs on a regular basis. During his 18 seasons at OU, his record was a remarkable 190-48. At only age 56, at the peak of his career, he stunned the college football world by walking away. For the first time, Bob opens up about his career alongside the evolution of the game itself. From his unlikely emergence as a star player at the University of Iowa, to his coaching apprenticeships under giants like Hayden Fry, Bill Snyder, and Steve Spurrier, Stoops recounts how the game he fell in love with as a boy has evolved into a billion-dollar business often compromised by recruiting wars, aggressive agents, overzealous boosters and alumni, and the emergence of the CEO head coach rather than mentor and teacher. Bob holds nothing back while explaining why it was time to step away from the game-and players-he still loves. Told with a rare combination of sincerity, vulnerability, and pure heart, No Excuses is both an engaging and eye-opening football memoir and an unprecedented portrait of a coach of one of the greatest legacy programs in the history of the college game.

He delivered a fresh take on the mantra "time is money" and showed entrepreneurs how to maximize their time to better manage their business. However, times have changed and so has the technology. In this latest edition, Kennedy tackles the technology of today

Kennedy covers virtual assistants, errand-running services, and the far-reaching scope of activities and tasks people are paying others to do for them. Kennedy also adds two new chapters discussing how to get more accomplished by leveraging cooperative relationships, why goal setting (and New Year’s Resolutions) fails and how he manages achievement.

He was named by The Atlantic Monthly as "the most sought-after strategist in the Democratic party." He was targeted by National Review as the Democratic Party's "poet goon." From his unique perspective, Robert Shrum gives us an epic and personal story of the struggle for power in America during the past four decades. With wit and humor, rare candor, and a wealth of detail, he vividly recounts the real personalities and real forces that shaped the outcome of the closest and most

important elections of our time. We are there with Shrum in the back rooms, on the planes, and in the motorcades with Ted Kennedy, Al Gore, John Kerry, John Edwards, and Bill and Hillary Clinton. Shrum reveals the manipulations and limitations of old and new forms of political persuasion, from the historic and sometimes controversial speeches he wrote to the negative ads he created for national and statewide candidates, from prepping presidential nominees for critical debates to the deployment of the new political weapon, the Internet. He lifts the curtain on decisive moments. Did John Kerry and John Edwards actually believe in the Iraq war they voted for? What was the real reason the Kerry campaign didn't respond faster to the Swift Boat attacks? Why didn't Al Gore let Bill Clinton campaign all-out in 2000? How did Clinton get through the first perilous week of the Lewinsky scandal? This is a provocative journey through recent history: George McGovern's antiwar campaign of 1972, the improbable rise of Jimmy Carter, Senate campaigns that made historic breakthroughs and shaped the presidential contests of the future, the gifts that made Bill Clinton a great politician -- and the circumstances and calculations that kept him from being a great president. As strategist, adviser, and often friend to the leaders he enlisted with, Shrum shows them as they are, with their strengths and human weaknesses -- as well as his own. Assailed as a populist who pushed the Democratic Party, in a phrase he coined, "to stand for the people, not the powerful," Shrum argues that unlike Republicans from Reagan on, Democrats fall short, politically or in office, when they trim their convictions and walk away from fundamental issues -- like universal

An invaluable guidebook, which contends that the most vexing problems facing women today isn't that doors of opportunity aren't open but that not enough women are walking through them Feminist icon Gloria Feldt pulls no punches in this new book, which argues that the most confounding problem facing women today isn't that doors of opportunity aren't open, but that not enough women are walking through them. From the boardroom to the bedroom, public office to personal relationships, she asserts that nobody is keeping women from parity-except themselves. Feldt puts women's power into an historical context, showing the ways in which women have made huge leaps forward in the past, only to pull back right when they were at the threshold. Feldt argues that there's no excuse-whether it's the way women are socialized, or pressure to conform, or work/life balance issues-for women today not to own their power. Women are still facing unequal pay, being passed over for promotions, entering public office at a much lesser rate than men, and oftentimes still struggling with traditional power dynamics in their interpersonal relationships. Feldt's solution to all these places where women face inequality is the same: we need to shift the way we think to

achieve true parity with our male counterparts. No Excuses is divided into nine chapters that organized around how women can change the way they think, and therefore the way they act. These include: Know Your History and You Can Create the Future of Your Choice; Define the Terms-First; Embrace Controversy; Employ Every Medium; and other helpful ideas for using the tools and resources women already have to create the changes they want to see. No Excuses is a timely and invaluable book to help women equalize gender power in politics, work, and love.

Playfully illustrated once again by Stacy Heller Budnick, No Excuses! tells the story of a boy with a seemingly impossible dream who almost lets excuses stand in his way. Luckily, he learns some important lessons that allow him to attain his goals--lessons that just about all children will be able to understand and apply to their lives. This book goes beyond historical and psychological explanations of the Holocaust to directly address the moral responsibility of individuals involved in it. While defending the view that individuals caught up in large-scale historical events like the Holocaust are still responsible for their choices, he provides the philosophical tools needed to assess the responsibility, both negative and positive, of perpetrators, accomplices, bystanders, victims, helpers and rescuers. or results in counterintuitive rulings—often with perverse results—the American public is reassured by the trial bar that the case is not "typical" and that our trial system remains the best in the world. William T. Pizzi here argues that what the public perceives is in fact exactly what the United States has: a trial system that places far too much emphasis on winning and not nearly enough on truth, one in which the abilities of a lawyer or the composition of a jury may be far more important to the outcome of a case than any evidence. How has a system on which Americans have lavished enormous amounts of energy, time, and money been allowed to degenerate into one so profoundly flawed? Acting as an informal tour guide, and bringing to bear his experiences as both insider and outsider, prosecutor and academic, Pizzi here exposes the structural faultlines of our trial system and its paralyzing obsession with procedure, specifically the ways in which lawyers are permitted to dominate trials, the system's preference for weak judges, and the absurdities of plea bargaining. By comparing and contrasting the U.S. system with that of a host of other countries, *Trials Without Truth* provides a clear-headed, wide-ranging critique of what ails the criminal justice system—and a prescription for how it can be fixed.
