Laying the Foundation for Nigeria's Democracy: My Account of June 12, 1993 Presidential Election and Its Annulment is a factual, gripping, and compelling insight into the most authentic analysis and explanation of the nation's political environment under which the June 12 election was held and how the result was tragically annulled, even as it was accurately adjudged as the freest and fairest in the history of the country. The theoretical thrust deals with the crux of the probl

The German education and training system has been the subject of considerable attention from other nations, and has often been used as a model. David Phillips' book brings together articles from some of the best known names in the field including Mitter, Glowka, Hearnden, Fuhr, Robinsohn and Prais and wagner. The book is organised into four sections. Section one examines the historical inheritance of the present education system. Section two covers standards and assessments and section three discusses vocational education and training, and area of the German education system which has received much admiration. Finally, and crucially, section four addresses questions about the future of the

current system in a unified Germany.

Parliamentary Debates (Hansard).

Pass with Distinction Physics (By Topic) is specially written for students who wish to score an excellent grade in their GCE O Level Physics examination. Based on the LATEST syllabus (5058), it contains many challenging questions that provide excellent revision material. These questions also help to reinforce students' understanding of concepts and their ability to apply them. The multiple choice questions (MCQs) and structured questions (SQs) have been carefully categorised into 22 topics. Answers are provided for all questions, with detailed solutions for the SQs. Full solutions, explanations and comments are also included for the more challenging MCQs. The new trend and challenging questions are marked with ✪. It is hoped that every student will greatly benefit from the use of this book. We believe it will give students an edge and added confidence in their forthcoming examination.

Post-O-level Studies in Modern Languages is a 14-chapter book that begins with an explanation of the changing structure of the sixth-form curriculum and the outlining of a model curriculum based on five areas of experience: communication; sociological and cultural aspects; mathematics; scientific education; and aesthetic experience. The book also discusses the transition from O-level to advanced studies; the study of literature in the A-level curriculum; and the French and literary studies in the sixth-form curriculum. Other chapters tackle the A-level examination syllabus, as well as some problems and suggestions in integrated language studies. Modern languages in industry and commerce, role of the language laboratory in post-O-level studies, and modern language tests in the United States are also explained.
