The Story of Painting

Fifty years after its first publication, the multimillion-copy international bestseller is available again in English, sharing the heartbreaking tale of a gifted, mischievous, direly misunderstood boy growing up in Rio de Janeiro. When Zezé grows up, he wants to be a poet in a bow tie. For now the precocious young boy entertains himself by playing clever pranks on the residents of his Rio de Janeiro neighborhood, stunts for which his parents and siblings punish him severely. Lately, with his father out of work, the beatings have become harsher. Zezé's only solace comes from his time at school, his hours secretly spent singing with a street musician, and the refuge he finds with his precious magical orange tree. When Zezé finally makes a real friend, his life begins to change, opening him up to human tenderness but also wrenching sorrow. Never out of print in Brazil since it was first published in 1968, *My Sweet Orange Tree*, inspired by the author's own childhood, has been translated into many languages and has won the hearts of millions of young readers across the globe.

Bom-Crioulo

Euclides da Cunha's classic account of the brutal campaigns against religious mystic Antonio Conselheiro has been called the Bible of Brazilian nationality. "Euclides da Cunha went on the campaigns [against Conselheiro] as a journalist and what he returned with and published in 1902 is still unsurpassed in Latin American literature. Cunha is a talent as grand, spacious, entangled with knowledge, curiosity, and bafflement as the country itself. . . . On every page there is a heart of idea, speculation, dramatic observation that tells of a creative mission undertaken, the identity of the nation, and also the creation of a pure and eloquent prose style."—Elizabeth Hardwick, *Bartleby in Manhattan*

Tales of Mr. Keuner

The Spirit of Laws is a treatise on political theory first published by Charles de Secondat, Baron de Montesquieu in 1748. Montesquieu pleaded in favor of a constitutional system of government and the separation of powers, the ending of slavery, the preservation of civil liberties and the law, and the idea that political institutions ought to reflect the social and geographical aspects of each community.

This explosive narrative reveals for the first time the shocking hidden years of Coco Chanel's life: her collaboration with the Nazis in Paris, her affair with a master spy, and her work for the German military intelligence service and Himmler's SS. Gabrielle "Coco" Chanel was the high priestess of couture who created the look of the modern woman. By the 1920s she had amassed a fortune and went on to create an empire. But her life from 1941 to 1954 has long been shrouded in rumor and mystery, never clarified by Chanel or her many biographers. Hal Vaughan exposes the truth of her wartime collaboration and her long affair with the playboy Baron Hans Günther von Dincklage—who ran a spy ring and reported

directly to Goebbels. Vaughan pieces together how Chanel became a Nazi agent, how she escaped arrest after the war and joined her lover in exile in Switzerland, and how—despite suspicions about her past—she was able to return to Paris at age seventy and rebuild the iconic House of Chanel.

A RADIO FRANCE-CULTURE/TÉLÉRAMA BEST WORK OF FICTION BY THE WINNER OF THE 2013 CAMÕES PRIZE AND THE WINNER OF THE 2014 NEUSTADT PRIZE "Quite unlike anything else I have read from Africa."—Doris Lessing "By meshing the richness of African beliefs . . . into the Western framework of the novel, he creates a mysterious and surreal epic."—Henning Mankell Mwanito was eleven when he saw a woman for the first time, and the sight so surprised him he burst into tears. Mwanito has been living in a former big-game park for eight years. The only people he knows are his father, his brother, an uncle, and a servant. He's been told that the rest of the world is dead, that all roads are sad, that they wait for an apology from God. In the place his father calls Jezoosalem, Mwanito has been told that crying and praying are the same thing. Both, it seems, are forbidden. The eighth novel by the internationally bestselling Mia Couto, *The Tuner of Silences* is the story of Mwanito's struggle to reconstruct a family history that his father is unable to discuss. With the young woman's arrival in Jezoosalem, however, the silence of the past quickly breaks down, and both his father's story and the world are heard once more. *The Tuner of Silences* has been published to acclaim in more than half a dozen countries. Now in its first English translation, this story of an African boy's quest for the truth endures as a magical, humanizing confrontation between one child and the legacy of war. PRAISE FOR MIA COUTO "On almost every page ... we sense Couto's delight in those places where language slips officialdom's asphyxiating grasp."—The New York Times "Even in translation, his prose is suffused with striking images."—The Washington Post PRAISE FOR DAVID BROOKSHAW "David Brookshaw dexterously renders the novel's often colloquial, pithy Portuguese into lively English. Brookshaw's task is made more exacting by the particular quality of Couto's brilliance."—The New York Times

Sleeping with the Enemy

Imagine making poems the way an architect designs buildings or an engineer builds bridges. Such was the ambition of João Cabral de Melo Neto. Though a great admirer of the thing-rich poetries of Francis Ponge and of Marianne Moore, what interested him even more, as he remarked in his acceptance speech for the 1992 Neustadt International Prize for Literature, was "the exploration of the materiality of words," the "rigorous construction of (. . .) lucid objects of language." His poetry, hard as stone and light as air, is like no other.

A History of World Agriculture

Only once we understand the long history of human efforts to draw sustenance from the land can we grasp the nature of the crisis that faces humankind today, as hundreds of millions of people are faced with famine or flight from the land. From Neolithic times through the earliest civilizations of the ancient Near East, in savannahs, river valleys and the terraces created by the Incas in the Andean mountains, an increasing range of agricultural techniques have developed in response to very different conditions. These developments are recounted in this book, with detailed attention to the ways in which plants, animals, soil, climate, and society have interacted. Mazoyer and Roudart's *A History of World Agriculture* is a path-breaking and panoramic work, beginning with the emergence of agriculture after thousands of years in which human societies had depended on hunting and gathering, showing how agricultural techniques developed in the different regions of the world, and how this extraordinary wealth of knowledge, tradition and natural variety is endangered today by global capitalism, as it forces the unequal agrarian heritages of the world to conform to the norms of profit. During the twentieth century, mechanization, motorization and specialization have brought to a halt the pattern of cultural and environmental responses that characterized the global history of agriculture until then. Today a small number of corporations have the capacity to impose the farming methods on the planet that they find most profitable. Mazoyer and Roudart propose an alternative global strategy that can safeguard the economies of the poor countries, reinvigorate the global economy, and create a livable future for mankind.

The Origin of Life

An insightful comic strip filled with edgy dialogue and thoroughly modern situations, *Candorville: Thank God for Culture Clash* by Darrin Bell is made for today's world. It fearlessly covers bigotry, poverty, homelessness, biracialism, personal responsibility, and more while never losing sight of the humor behind these weighty issues. The strip targets the socially conscious by tackling tough issues with irony, satire, and humor. *Candorville: Thank God for Culture Clash* celebrates diversity by poking a little fun at it.

Cronopios and Famas

Every once in a while, a new poet appears who makes us feel that the contours of contemporary poetry have been significantly changed. Fred D'aguiar is such a poet. Although still in his early twenties, he already has a wholly independent voice, and a powerful grasp of original and strange subjects. Many of these arise from his childhood in Guyana: the first section of *Mama Dot* comprises a series in which these early years are recalled with a passionately lyrical evocation of landscapes, incidents and family relations. They are sensuous celebrations, but are nevertheless touched with melancholy and nostalgia – qualities which are more fully evident elsewhere in the book, in poems which address the life D'Aguiar now leads in England, and which concentrate on themes of exile. In the final section, 'Guyanese Days', he returns once again to the scenes and memories of his childhood. *Mama Dot* is one of the most exciting first collections to have been published for many years: exhilarating, haunting and restlessly inventive.

Guia Superdicas para o Enem - Atualidades

The Allegory of the Cave, or Plato's Cave, was presented by the Greek philosopher Plato in his work *Republic* (514a–520a) to compare "the effect of education (παιδεία) and the lack of it on our nature". It is written as a dialogue between Plato's brother Glaucon and his mentor Socrates, narrated by the latter. The allegory is presented after the analogy of the sun (508b–509c) and the analogy of the divided line (509d–511e). All three are characterized in relation to dialectic at the end of Books VII and VIII (531d–534e). Plato has Socrates describe a group of people who have lived chained to the wall of a cave all of their lives, facing a blank wall. The people watch shadows projected on the wall from objects passing in front of a fire behind them, and give names to these shadows. The shadows are the prisoners' reality.

A proposta deste guia é, primeiramente, abordar os assuntos com maior incidência de serem utilizados para a formulação de questões e da redação do Enem. Em segundo lugar, mas não menos importante, é chamar a atenção para o acompanhamento de fatos relevantes para participar do exame. Essa disciplina conhecida por "Atualidades", mesmo sendo determinante na aprovação dos candidatos, ainda não conquistou a preferência deles na hora dos estudos. The Origin of Species by Means of Natural Selection

From the author of *How Proust Can Change Your Life*, a delightful, truly consoling work that proves that philosophy can be a supreme source of help for our most painful everyday problems. Perhaps only Alain de Botton could uncover practical wisdom in the writings of some of the greatest thinkers of all time. But uncover he does, and the result is an unexpected book of both solace and humor. Dividing his work into six sections -- each highlighting a different psychic ailment and the appropriate philosopher -- de Botton offers consolation for unpopularity from Socrates, for not having enough money from Epicurus, for frustration from Seneca, for inadequacy from Montaigne, and for a broken heart from Schopenhauer (the darkest of thinkers and yet, paradoxically, the most cheering). Consolation for envy -- and, of course, the final word on consolation -- comes from Nietzsche: "Not everything which makes us feel better is good for us." This wonderfully engaging book will, however, make us feel better in a good way, with equal measures of wit and wisdom.

Guia da Alta Performance para o ENEM

Louis XIV was a man like any other, but the money and attention lavished on his public image by the French government transformed him into a godlike figure. In this engrossing book, an internationally respected historian gives an account of contemporary representations of Louis XIV and shows how the making of the royal image illuminates the relationship between art and power. Images of Louis XIV included hundreds of oil paintings and engravings, three-hundred-odd medals struck to commemorate the major events of the reign, sculptures, and bronzes, as well as plays, ballets (in which the king himself sometimes appeared on stage), operas, odes, sermons, official newspapers and histories, fireworks, fountains, and tapestries. Drawing on an analysis of these representations as well as on surviving documentary sources, Peter Burke shows the conscious attempt to "invent" the image of the king and reveals how the supervision of the royal image was entrusted to a committee, the so-called small academy. This book is not only a fascinating chronological study of the mechanics of the image-making of a king over the course of a seventy-year reign but is also an investigation into the genre of cultural construction. Burke discusses the element of propaganda implicit in image-making, the manipulation of seventeenth-century media of communication (oral, visual, and textual) and their codes (literary and artistic), and the intended audience and its response. He concludes by comparing and contrasting Louis's public image with that of other rulers ranging from Augustus to contemporary American presidents.

You are Not So Smart

This volume presents an integrated epidemiologic, social, and economic analysis of the global epidemics of HIV among sex workers in low- and middle-income countries. The book provides a comprehensive review and synthesis of the available public health and social science data to characterize the nature, scope, and complexities of these epidemics. A community empowerment-based approach to HIV prevention, treatment, and care is outlined and demonstrated to be cost-effective across multiple settings, with a significant projected impact on HIV incidence among sex workers and transmission dynamics overall. The Global HIV Epidemics among Sex Workers seeks to assist governments, public health implementing agencies, donors, and sex worker communities to better understand and respond to the epidemics among a population facing heightened social and structural vulnerabilities to HIV. The book combines a systematic review of the global epidemiology of HIV among sex workers and in-depth case studies of the epidemiology, policy and programmatic responses and surrounding social contexts for HIV prevention, care and treatment in eight countries. The authors employ mathematical modeling and cost-effectiveness analysis to assess the potential country-level impact of a community empowerment-based approach to HIV prevention, treatment, and care among sex workers when taken to scale in four countries representing diverse sociopolitical contexts and HIV epidemics: Brazil, Kenya, Thailand, and Ukraine. In each setting, greater investment in prevention, treatment, and care for sex workers is shown to significantly reduce HIV. Together these findings underline the urgency of further global investment in comprehensive, human rights-based responses to HIV among sex workers.

The Hour of the Star

BEST BOOKS of 2017 SELECTION by * THE WASHINGTON POST * NEW YORK POST * The harrowing, but triumphant story of Ellen Johnson Sirleaf, leader of the Liberian women's movement, winner of the Nobel Peace Prize, and the first democratically elected female president in African history. When Ellen Johnson Sirleaf won the 2005 Liberian presidential election, she demolished a barrier few thought possible, obliterating centuries of patriarchal rule to become the first female elected head of state in Africa's history. Madame President is the inspiring, often heartbreaking story of Sirleaf's evolution from an ordinary Liberian mother of four boys to international banking executive, from a victim of domestic violence to a political icon, from a post-war president to a Nobel Peace Prize winner. Pulitzer Prize-winning journalist and bestselling author Helene Cooper deftly weaves Sirleaf's personal story into the larger narrative of the coming of age of Liberian women. The highs and lows of Sirleaf's life are filled with indelible images; from imprisonment in a jail cell for standing up to Liberia's military government to addressing the United States Congress, from reeling under the onslaught of the Ebola pandemic to signing a deal with Hillary Clinton when she was still Secretary of State that enshrined American support for Liberia's future. Sirleaf's personality shines throughout this riveting biography. Ultimately, Madame President is the story of Liberia's greatest daughter, and the universal lessons we can all learn from this "Oracle" of African women.
