An Astrologers Day And Other Stories

Teaching and Researching Reading was first written to help language professionals understand the complex nature of reading. Now in a thoroughly updated and improved second edition, the book expands connections from research on reading to instructional practices and teacher-initiated action research. Offering an updated overview of reading theory, it summarises key ideas and issues in first and second language contexts. In addition to providing insightful research analyses, Grabe and Stoller offer practical advice for practitioners and researchers, including evidence-based teaching ideas and a multi-step iterative process for conducting meaningful action research on reading-related topics. The volume outlines 29 projects for teacher adaptation and use,

as well as numerous new or substantially expanded resource materials that can be used for both action research and classroom instruction. Learning aids featured throughout the volume include ♦ key concept boxes and a glossary of key terms ♦ quote boxes highlighting critical issues in the field ♦ resource lists of relevant journals, books and websites Fully revised throughout, with a range of new exemplary L1 and L2 research studies and an entirely new chapter on the move from research implications to instructional applications, this second edition of Teaching and Researching Listening is an invaluable resource for teacher trainers, practicing teachers, materials writers and researchers alike.

This book is a collection of thought-provoking papers that investigate empowerment within the context of language, education, and technology. In the seventeen papers published in the book, local and

international ELT practitioners and researchers have analysed their experiences within a range of socio-linguistic situations. Adding significant insights and depth to a previously under-researched area, the publication will be of interest not only to ELT teachers and students, but also to social science researchers in developing and marginalised countries. The book based on selected papers presented at the 2007 Aga Khan University, Centre of English Language seminar in Karachi exemplifies the issues of language and empowerment. The papers deal with complex educational and socio-cultural issues and force readers to undertake a cultural journey to see them from a different perspective. The collection of papers, whatever ones teaching-learning context, will become an essential resource book for all English language teachers, scholars, and researchers interested in learning more about the success stories and problems facing language education in the developing countries, especially Asia today.

This book investigates the impact of creative writing tests on classroom practice in Pakistan. All National Education Policies in Pakistan since 1959 have expressed grave concern at the deteriorating standard of Board Examinations but no significant steps have been taken to improve the examination system. The method of assessment in the Pakistani classroom is influenced by the Board Examinations, with the students memorising the essays and stories from their textbooks and reproducing them. The Board Examination tends to produce negative washback as it damages learners' creative talents. Appropriate changes in the textbooks and the external examination, however, will, in turn, definitely improve the teaching and assessment practices in the classroom.

Objective General English

Despite persistent assertions of washback (the influence of testing on teaching and learning) limited research studies have been undertaken on the subject. Even fewer studies have made use of quantitative and qualitative methods to examine washback. This book, at the intersection of language testing and teaching practices/programs, investigates the impact of the introduction of the 1996 Hong Kong Certificate of Education in English, a high-stakes public examination, on classroom teaching and learning in Hong Kong secondary schools. The washback effect was observed initially at the macro level, including different parties within the Hong Kong educational context, and subsequently at the micro level, in terms of the classroom, including aspects of teachers' attitudes, teaching content and classroom interactions. Further, the book offers insights into the concept that a test can be used as a change agent to encourage innovation in the classroom.

School Program Development Manual for Schools Funded Through the Consolidated Application

'English Grammar and Writing Skills' has been designed for use as a textbook for school students

and those in higher secondary. The book has been planned, keeping in mind the needs of the students, and is aligned to the CBSE and SSC boards. The exercises in each chapter will help the students prepare for their examinations. The book introduces the student to grammar concepts, step by step, and is rich in examples. The exercises are meant to reinforce the understanding of the concepts. At the end of the study, students will be pleasantly surprised by their improved understanding of the subject.

English Grammar and Writing Skills

Demonstrates the principles involved in planning and designing an effective syllabus. This book examines important concepts, such as needs analysis, goal-setting, and content specification, and serves as a useful introduction for teachers who want to gain an understanding of syllabus design in order to modify the syllabuses with which they work.
