Siren Song

He Stole the Work She Loved. Will She Let Him Steal Her Heart as Well? It's all her uncle's fault. For years Charlotte Withersby has been free to pursue her love of plants and flowers by assisting her botanist father. But now that she's reached the old age of twenty-two, an intrusive uncle has convinced her father that Charlotte's future--the only proper future for a woman--is to be a wife and mother, not a scholar. Her father is so dependent on her assistance that Charlotte believes he'll soon change his mind and then Edward Trimble shows up. A long-time botany correspondent in the South Pacific, Trimble arrives ready to step in as assistant so that Charlotte can step out into proper society--a world that baffles her with its unwritten rules, inexplicable expectations, and confounding fashion. Things aren't perfectly smooth between Trimble and her father, so Charlotte hatches a last gasp plan. She'll pretend such an interest in marriage that the thought of losing her will make her father welcome her back. Only things go quickly awry, and she realizes that the one man who recognizes her intelligence is also the person she's most angry with: Edward Trimble, her supposed rival. Suddenly juggling more suitors than she knows what to do with, Charlotte is caught in a trap of her own making. Will she have no choice but to leave her beloved flowers behind?

Here Be Dragons

A tender and triumphant story of forbidden love in the aftermath of war. When Captain Ashleigh Dalton went to war in 1914, he never expected to fall in love. Yet, over three long years at the front, his dashing batman, Private West, became his reason for fighting--and his reason for living. For Harry West, an ostler from London's East End, it was love at first sight when he met complex, compassionate Captain Dalton. Harry knew their friendship wouldn't survive in the class-bound world back home, but in the trenches there was no point in worrying about tomorrow. Now, gravely wounded, Ash has been evacuated home to Highcliffe House, his father's Hampshire estate. Bereft of Harry, angry and alone, Ash struggles to fit into the unchanging world he left behind. Meanwhile, Harry, broken-hearted, doubts he'll ever see his beloved captain again. But when the guns fall silent and Harry finds himself adrift in London, a desperate hope carries him to Highcliffe House in search of work--and of the officer he can't forget. This novel is approximately 81,000 words and comes with a HEA guaranteed.

Heart's Desire

Perfect Day

This book analyses the conceptualization of psychopathic personality disorder for criminal/forensic populations and examines in depth the emerging phenomenon of the 'corporate psychopath'. In doing so its authors expose the paradoxical nature of the disorder: while it is frequently associated with antisocial, criminal and predatory behaviour, more recent studies have highlighted examples of creative, visionary and inspiring leaders who are also found to present a high degree of psychopathy. They focus on the nature, behaviours and consequences of psychopathy in executives and across the organization, offering an important contribution to the emerging body of research on psychopathy and other problematic personality constructs in the workplace. The book will appeal to scholars, students and professionals across the discipline, and particularly to those working in workplace, forensic and personality psychology.

The Postmodern Sacred

A brutal society needs the team to harness Wraith technology.

Sacrifice Moon

From The Matrix and Harry Potter to Stargate SG:1 and The X-Files, recent science fiction and fantasy offerings both reflect and produce a sense of the religious. This work examines this pop-culture spirituality, or "postmodern sacred," showing how consumers use the symbols contained in explicitly "unreal" texts to gain a secondhand experience of transcendence and belief. Topics include how media technologies like CGI have blurred the lines between real and unreal, the polytheisms of Buffy and Xena, the New Age Gnosticism of The DaVinci Code, the Islamic "Other" and science fiction's response to 9/11, and the Christian Right and popular culture. Today's pervasive, saturated media culture, this work shows, has utterly collapsed the sacred/profane binary, so that popular culture is not only powerfully shaped by the discourses of religion, but also shapes how the religious appears and is experienced in the contemporary world.
