### Tre sono le cose misteriose

Summer vacation is Levi London's favorite time of the year. Each summer, he and his brothers are shipped off to Florida to stay with their grandparents. For ten weeks everything is perfect. He has freedom, fun, and Summer West--the cute and spunky girl across the street--for whom he's planned to confess his giant crush. Right before the London boys are scheduled to leave, a scandalous family situation causes their mom to accompany them on vacation. Not only does Levi's fun quotient promise to take a nose dive, but all the drama has him feeling less than his normal happy self. Summer decides that Levi needs a distraction, in the form of a prank war. But he gets more than he bargains for when his older brother Lucas is both better at pranking and determined to date Summer too. Levi is a peacekeeper, but he isn't sure he can mediate his family's struggles or strike the right balance between mischief and romance. Especially when Lucas keeps reminding him that all is fair in love and war. \*\*\* This book may contain negative triggers for people with a family history of infidelity.\*\*\*Content Description: This is

a stand-alone YA contemporary romance with companion novels set at the same high school. It contains minor language, innuendo, crude humor, and kissing. This book has no sex, written or implied, between any of the teenage characters and has no explicit language. However, the family conflict revolves around adultery between the parents. While it is not highly descriptive, sex is discussed multiple times with regard to adult relationships. Recommended for ages 14 and up.

Cognitive linguists have proposed that metaphor is not just a matter of language but of thought, and that metaphorical thought displays a high degree of

conventionalization. In order to produce converging evidence for this theory of metaphor, a wide range of data is currently being studied with a large array of methods and techniques. *Finding Metaphor in Grammar and Usage* aims to map the field of this development in theory and research from a methodological perspective. It raises the question when exactly evidence for metaphor in language and thought can be said to count as converging. It also goes into the various stages of producing such evidence (conceptualization, operationalization, data collection and analysis, and interpretation). The book offers systematic discussion of eight distinct areas of metaphor research that emerge as a result of approaching metaphor as part of grammar or usage, language or thought, and symbolic structure or cognitive process.

*Esprit Libre* è un romanzo scritto durante i ferventi anni delle superiori, da cui si estrapolano passioni, amori e sconvolgimenti che non fanno altro che scompigliare la vita dei giovani protagonisti. Amicizie, amori, uscite, viaggi e soprattutto incomprensioni rendono l'opera alquanto vivace e elettrizzante con un finale, poi, eclatante.

Harvard-educated psychologist and bestselling author Melanie Joy exposes the psychology that underlies all forms of oppression and abuse and the belief system that gives rise to this psychology—which she calls powerarchy. Melanie Joy had long been curious as to why people who were opposed to one or more forms of oppression—such as racism, sexism, speciesism, and so forth—often stayed mired in many others. She also wondered why people who were working toward social justice sometimes engaged in interpersonal dynamics that were unjust. Or why

people who valued freedom and democracy might nevertheless vote and act against these values. Where was the disconnect? In this thought-provoking analysis, Joy explains how we've all been deeply conditioned by the invisible system of powerarchy to believe in a hierarchy of moral worth—to view some individuals and groups as either more or less worthy of moral consideration—and to treat them accordingly. Powerarchy conditions us to engage in power dynamics that violate integrity and harm dignity, and it creates unjust power imbalances among social groups and between individuals. Joy describes how powerarchies—both social and interpersonal—perpetuate themselves through cognitive distortions, such as denial and justification; narratives that reinforce the belief in a hierarchy of moral worth; and privileges that are granted to some and not others. She also provides tools for transformation. By illuminating powerarchy and the psychology it creates, Joy helps us to work more fully toward transformation for ourselves, others, and our world.

The groundbreaking and classic study that first popularized occultism, alchemy, and paranormal phenomena in the 1960s • Provides profound insights into our perceptions of reality, telepathy, mutants, and parallel universes • Reveals the occult influences on the Nazis and introduces the alchemist Fulcanelli and the work of Charles Fort and Gurdjieff • Over Half a Million Copies Sold This groundbreaking, international bestseller, first published in 1960, couples profound insights into the hidden history of humanity and our perceptions of reality with the scientific evidence that supports the existence of paranormal activity, telepathy, and extraterrestrial communications. The first book to explore in depth the Nazi fascination with the occult, Pauwels and Bergier also broke new ground with their study of pyramidology, alchemy and its close kinship with atomic energy, and the possibility of a widespread mutation of humanity that would herald the dawn of a new age for the earth. Their study of secret societies, starting with the Rosicrucians, suggests that such changes are actively being pursued in the present day by a “conspiracy” of the most spiritually and intellectually advanced members of the human race. The Morning of the Magicians also explores the anomalous events collected by Charles Fort, the work of Gurdjieff, and the history of the mysterious Fulcanelli, who was widely believed to have manufactured the philosopher’s stone--which provided the Nazis the motive for mounting an intensive search for him during their occupation of Paris. Much more than a

collection of strange facts defying conventional wisdom, this book remains a sophisticated philosophical exploration of repressed phenomena and hidden histories that asks its readers to look at reality with ever “awakened eyes.”

In this exhilarating coming-of-age tale set in the late 19th century, a daring young woman braves the wilds of the mountainous Austrian-Italian border—and the dangerous men who conspired with her missing father to smuggle tobacco—in order to save her family. Jole de Boer is just fifteen years old the first time she accompanies her father—a tobacco grower named Augusto—as he smuggles his product across the Italian border into Austria. She knows the dangers of the treacherous high mountain passes—border guards, brigands, wild animals, ferocious weather—but she is proud that her father has asked her to join him. After all, without the extra money Augusto’s smuggling brings in, their family would starve. But when Augusto mysteriously disappears during one of his trips, Jole must retrace the route he took to both find a buyer for her family’s tobacco—and the truth behind her father’s disappearance. An epic tale of revenge, corruption,

and salvation, *The Soul of the Border* is an unforgettable journey into the wild.

This book addresses two related questions that have first arisen in Toulmin's seminal book on the uses of argument. The first question is the one of the relationship between the semantic analysis of modality and the structure of arguments. The second question is the one of the distinctive place, or role, of modality in the fundamental structure of arguments. These two questions concern how modality, as a semantic category, relates to the fundamental structure of arguments. The book addresses modality and argumentation also according to another perspective by looking at how different linguistic modal expressions may be taken as argumentative indicators. It explores the role of modal expressions as argumentative indicators by using the Italian modal system as a case study. At the same time, it uses predictions/forecasts in the business-financial daily press to investigate the relation between modality and the context of argumentation.

One of the most important Italian poets of the last century, Vittorio Sereni (1913–83) wrote with a historical awareness unlike that of any of his

contemporaries. A poet of both personal and political responsibility, his work sensitively explores life under fascism, military defeat and imprisonment, and the resurgence of extreme right-wing politics, as well as the roles played by love and friendship in the survival of humanity. The first substantial translation of Sereni's oeuvre published anywhere in the world, *The Selected Poetry and Prose of Vittorio Sereni* is a unique guide to this twentieth-century poet. A bilingual edition, reissued in paperback for the poet's centenary, it collects Sereni's poems, criticism, and short fiction with a full chronology, commentary, bibliography, and learned introduction by British poet and scholar Peter Robinson.

VESUVIUS 2000 is an interdisciplinary project aimed at producing a safe and prosperous habitat for the people living around Vesuvius. To produce this environment requires an effective collaboration between the experts and the public, whereby the danger from the volcano is used to reorganize the territory and thus produce new opportunities for the people surrounding the volcano. As an all inclusive physico-mathematical-computer model of the volcano, the Global Volcanic Simulator is a key tool for determining the effects of different eruption scenarios and thus for urban planning of the territory. Unlike the evacuation plans which tend to manage emergencies, VESUVIUS 2000 aims at preparing the Vesuvius area to confront future eruptions with minimal socio-economic and cultural consequences. \* Addresses volcanic risk mitigation in densely populated area surrounding Vesuvius \* Provides education about volcanos \* Displays physical

modeling of eruption processes and integration of models

The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG

2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's *Historiae*. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute.

From the days of the emperor Augustus (27 B.C.-A.D. 14) the emperor and his court had a quintessential position within the Roman Empire. It is therefore clear that when the Impact of the Roman Empire is analysed, the impact of the emperor and those surrounding him is a central issue. The study of the representation and

perception of Roman imperial power is a multifaceted area of research, which greatly helps our understanding of Roman society. In its successive parts this volume focuses on 1. The representation and perception of Roman imperial power through particular media: literary texts, inscriptions, coins, monuments, ornaments, and insignia, but also nicknames and death-bed scenes. 2. The representation and perception of Roman imperial power in the city of Rome and the various provinces. 3. The representation of power by individual emperors.

NOW A MAJOR MOTION PICTURE The #1 bestselling author of Saturday and Atonement brilliantly illuminates the collision of sexual longing, deep-seated fears and romantic fantasy in his unforgettable, emotionally engaging novel. The year is

1962. Florence, the daughter of a successful businessman and an aloof Oxford academic, is a talented violinist. She dreams of a career on the concert stage and of the perfect life she will create with Edward, the earnest young history student she met by chance and who unexpectedly wooed her and won her heart. Edward grew up in the country on the outskirts of Oxford where his father, the headmaster of the local school, struggled to keep the household together and his mother, brain-damaged from an accident, drifted in a world of her own. Edward's native intelligence, coupled with a longing to experience the excitement and intellectual fervour of the city, had taken him to University College in London. Falling in love with the accomplished, shy and sensitive Florence--and having his affections returned with equal intensity--has utterly changed his life. Their marriage, they believe, will bring them happiness, the confidence and the freedom to fulfill their true destinies. The glowing promise of the future, however, cannot totally mask their worries about the wedding night. Edward, who has had little experience with women, frets about his sexual prowess. Florence's anxieties run deeper: she is overcome by conflicting emotions and a fear of the moment she will surrender herself. From the precise and intimate depiction of two young lovers eager to rise above the hurts and confusion of the past, to the touching story of how their unexpressed misunderstandings and fears shape the rest of their lives, *On Chesil Beach* is an extraordinary novel that brilliantly, movingly shows us how the entire course of a life can be changed--by a gesture not made or a word not spoken.

This “brilliant collection of essays” and travelogues by the celebrated author of *Invisible Cities* “may change the way you see the world around you” (The Guardian, UK). Italo Calvino’s boundless curiosity and ingenious imagination are displayed in peak form in *Collection of Sand*, his last collection of new works published during his lifetime. Delving into the delights of the visual world—both in art and travel—the subjects of these 38 essays range from cuneiform and antique maps to Mexican temples and Japanese gardens. In Calvino’s words, this collection is “a diary of travels, of course, but also of feelings, states of mind, moods...The fascination of a collection lies just as much in what it reveals as in what it conceals of the secret urge that led to its creation” (from *Collection of Sand*). Never before

translated into English, Collection of Sand is an incisive and often surprising meditation on observation and knowledge, “beautifully translated by Martin McLaughlin” (The Guardian, UK).
