Enemy Number One

Is it really possible to wager and win at the racetrack? Free's resounding answer is yes—horseplayers can and do win! This paperback edition includes an entire new chapter on synthetic racing surfaces, updated and current past performances and charts, an index for easier reference, and all of the enduring handicapping factors presented in the hard cover. Handicapping 101 gives both the novice and seasoned player the handicapping foundation required to succeed.

The Complete Lawn Tennis Player

A horseracing expert explains the system that has made him a legendary figure, detailing the nuts and bolts of handicapping and successful betting, along with his own life story

Betting on Horse Racing For Dummies

In *The Winning Horseplayer*, Andrew Beyer builds on the strategy of speed handicapping that he detailed brilliantly in *Picking Winners* by introducing the concept of trip handicapping. Through an unbeatable combination of case studies and lively anecdotes, Beyer shows the smart bettor how to combine past performance data with an understanding of trips, track bias, and pace. This advanced guide to handicapping, which includes a new preface by the author, offers a generous dose of the wit and wisdom that have made Beyer a legend in the sport.

The Winning Horseplayer

How to enjoy a day at the races-and bet to win! The last two years have seen a record number of Americans tune in for climatic Triple Crown races featuring Smarty Jones and Funny Cide; in 2004, television viewership jumped a whopping 61 percent over the record set in 2003, and the Belmont Stakes race itself drew a record crowd of more than 120,000! This easy-to-understand guide shows first-time visitors to the track how to enjoy the sport of horse racing-and make smart bets. It explains what goes on at the track, what to look for in horses and jockeys, how to read a racing form and do simple handicapping, and how to manage betting funds and make wagers that stand a good chance of paying off. Complete with coverage of off-track and online betting, it's just what anyone needs to play the ponies-and win! Richard Eng (Las Vegas, NV) is a racing writer and handicapper for the Las Vegas Review-Journal, a columnist for the Daily Racing Form, and the host of a horseracing radio program in Las Vegas. He was formerly a part of the ABC Sports team that covered the Triple Crown.

Winning at the Track

This revised edition is even bigger and better than Litfin's original 1995 title. The new handicapping data and features that have emerged in the last decade are all extensively reviewed and outlined in this text. New York's premier handicapper and author arms today's handicapper with all of today's modern betting techniques. New dimensions in computer handicapping, recordkeeping, trainer and jockey stats, and Thoroughbred pattern cycles are just a few of the new and improved hot topics.

Expert Handicapping, Revised Edition

This short book reveals three scenarios where long shots can be found at the race track. All three scenarios are explained in detail, and a step by step process for analyzing each one is also provided in order to help you determine whether or not the long shot is playable. Once you know how to find these potential long shots, you'll have another tool in your handicapping arsenal. Play these horses to win or use them for your exotics. This book is intended for experienced handicappers. This digital book is a work of non-fiction by Christian Blake and is 6,700 words in length.If you had read this book, you could have hit these long shots: Madi Two Shoes \$115.20 \$39.20 \$14.20Deity (GB) \$24.20 \$13.20 \$9.80Pocket Prince \$91.00 \$29.40 \$16.60Black Tornado \$12.20 \$6.20 \$4.80Tummel \$18.40 \$6.20 \$3.80Wild In The Saddle \$19.60 \$7.80 \$4.60

The Gambler Who Cracked the Horse-Racing Code Bill Benter did the impossible: He wrote an algorithm that couldn't lose at the track. Close to a billion dollars later, he tells his system. This book examines the elements necessary for a practical and successful computerized horse race handicapping and wagering system. Data requirements, handicapping model development, wagering strategy, and feasibility are addressed. A logit-based technique and a corresponding heuristic measure of improvement are described for combining a fundamental handicapping model with the public's implied probability estimates. The author reports significant positive results in five years of actual implementation of such a system. This result can be interpreted as evidence of inefficiency in pari-mutuel racetrack wagering. This paper aims to emphasize those aspects of computer handicapping which the author has found most important in practical application of such a system. Also included the Bill Benter "What Are My Odds?" Presentation at ICCM in 2004.

The methods and angles that follow have been among Ken Osterman's favorites over the years. They have been developed and tested on races at racetracks all over the country. There are systems that cover all three main breeds of horse racing: thoroughbreds, quarter horses, and standardbreds. The rules of the handicapping angle are clearly explained and easy to find horses that qualify for a bet. There are a couple of systems that use that tote board and require no past performances. These are systems that Ken Osterman has used successfully at race and sports books. The rules for each system are clearly explained, so it is understood why they work. Tips for improving these systems are also provided. Recreational Handicapping

Calculating the pace and comparative speed of horses in a race often holds the key to the puzzle of selecting the winner.

Ainslie's Complete Guide to Thoroughbred Racing

Is betting a horse who was claimed last start a winning strategy? What are the signs that an upcoming favorite looks vulnerable? How about if you combine a class drop with a jockey switch? Should you bet everyone who won last out by 8 lengths or more? You may have an opinion about these handicapping questions. But wouldn't it be nice to see long-term data? What if you could analyze these topics-and dozens more-by seeing how they did in every race in North America from 2014 through 2017-some 168,227 in all? That's what *The Skeptical Handicapper: Using Data and Brains to Win at the Racetrack* is all about. Is what you believe true? Let's find out. But this book is not just a dry recitation of numbers. Author Barry Meadow-who wrote *Money Secrets at the Racetrack*, the definitive guide to money management at the races-takes you on a handicapping journey which covers virtually every question you may have about what's profitable and what isn't, and why. He should know-for more than 20 years, he was a full-time thoroughbred player. And he was a steady, big-money winner. Now he reveals for the first time what he's learned-and what can help you win. With the help of thoroughbred analytic specialist Ken Massa of Handicapping Technology and Research, he'll show you exactly how to win now and into the future. With data and facts, not just opinions. If you're serious about winning at the races today, this is the one book you must have. And only Barry Meadow could write it.

"The first weekend at the track after reading your book (Handicapping Secrets of the Horse Racing Fanatic) I won \$2,600.00! Thanks for all the great info." R. Kelley - Los Angeles, CA. "Initially, I was looking for the plays on the pick six but actually evaluated them last. I would almost swear that I was privileged to look at an experienced horse player's soul. I believe this material needs more than reading, it should be studied and practiced. The author is certainly knowledgeable about the secrets of winning. For any serious horse player who is self taught or those who aspire to collect money from the race tracks, armed with just these techniques a loser could become a winner. I would heartily endorse this author. Thank you again," Jerry Smiley - NV "Great book with tremendous insight to thoroughbred handicapping and wagering." -janishrj "Gordon Easton's Pick-Six Formulas and other betting strategies are quite literally worth a fortune to any serious fan of horse racing. Add in the rest of the handicapping expertise he has picked up along the way, and you have a resource that no one who plays the ponies can afford to be without. Recommended without reservation!" - Jay M. - Arlington, VA "I failed to mention how informative the book you sent me is. Even with over 40- yrs. of experience, I learned things about racing that I more than likely did not know, or just plain forgot about. It's a good book!" Don Oerlemans - Westville, NJ "Very well written and and super informative book. A+++++" -K.F. "Great handicapping book for any horseracing fan." -bettyjean4771 "Solid info and systems!" -ciolek75 "Very informative!! Easy to master. Thanks!!" - A.T. "Good and interesting info for any handicapper. Thanks." -C.T. "Good tips and angles I haven't thought of before. Pick 6 strategies are great." -J.K. "very interesting book, the stats alone are incredible. A++++" -J.J. "Good insight to handicapping horses." -G.D. What makes Handicapping Secrets of The Horse Racing Fanatic your absolute best bet to put

more money in your pocket when wagering at the track? It's not just master handicapper Gordon Easton's four decades worth of powerful and proven betting systems spot plays and long-shot picking secrets, all brought together in one book for the first time anywhere. What sets this book apart from all the rest is that retired mathematics professor Gordon Easton is a mathematical genius specializing in Numbers Probability Theory, who gives his readers a complete set of "plug and play" betting formulas that will let you cover more horses and results for every dollar you bet, shaving the odds in your favor. For example: Most people never win a Pick Six because they don't have the hundreds of dollars needed to put a lot of horses on a single ticket. They will bet many \$2 tickets instead. They could end up with several tickets with 3 or 4 winners but none with 5 or 6 for the big win. But, by using Gordon's formulas, you are guaranteed to line up at least five winners on one ticket if you get a winner in each race. You'll also have a decent chance at getting a Pick Six without spending a fortune. For example: Pick Six Formula #1 covers 4 horses in 1 race 3 horses in 3 races and 2 singles (your most likely winners). To put all of these horses on one ticket would cost you \$216. Using Gordon's formula you can do this for only \$24, with the guarantee of 5 or 6 winners on one ticket if you have a winner in each race. There is no other place on the planet you can find this kind of incredibly valuable knowledge.

How to Win the Pick 6

Charlie and Diesel, along with Charlie's partner, Helen Louise Brady, are heading to western North Carolina to spend a week at a boutique hotel on the grounds of a luxurious estate and participate in a gathering of a mystery reader's club. The group is composed of patrons of the Athena Public Library, and in addition to seeing the local sights, the members will take turns giving talks on their favorite authors. The Ducote sisters, friends of the owners of the hotel, are helping underwrite the week's expenses, and they insisted that Charlie, Helen, and Diesel join them. Anxious to get Helen Louise away from her bistro for a vacation, Charlie readily agrees. While Charlie is looking forward to relaxing and spending time with Helen Louise and Diesel, other members of the group have ulterior motives. One of them has a long-standing score to settle, and soon a member of the group turns up dead. Evidence at the scene appears to implicate Miss An'gel or Miss Dickce. Charlie knows his favorite sisterly duo is innocent. Now he and Diesel just have to prove it.

Handicapping Secrets of the Horse Racing Fanatic

Just as football evolved with the introduction of the forward pass and basketball with the development of the jump shot, so too was handicapping forever changed by the use of speed figures--and it all started with Andrew Beyer's Picking Winners. This edition features a new foreword in which the author discusses the changes that have swept the sport since the book's original publication. Picking Winners remains a classic in the field of thoroughbred racing.

Cat Me If You Can

A thoroughly revised and updated edition of a horse-racing classic provides a complete education in the fine art of handicapping and offers new material in off-track betting, synthetic surfaces, and more.

Education of a Sports Bettor

"Precision Statistical and Mathematical Methods in Horse Racing" thoroughly discusses the mathematical and statistical methods in handicapping and betting techniques. Differentiations, combinatorics, normal distribution, kernel smoothing and other mathematical and statistical tools are introduced. The jargons and equations are kept to a minimum so that it is easy to understand for most readers. More than 20 professional programs are freely available to download, which can allow readers to easily apply the methodology introduced in the book. This book can be divided into three main parts: horse handicapping (Chapters 2-6), wagering (Chapters 7-9) and theories in practices (Chapters 10-11). Chapter 1 will explain why long term gains are possible in horse racing. About horse handicapping, we will start with analysing racing forms in Chapter 2. Other handicapping factors such as weight carried, jockeys, trainers and pedigrees will be discussed in Chapter 3. Some advanced statistical methods, such as chi-square test and kernel smoothing, will be introduced in Chapter 4 to further analyse those handicapping factors discussed in previous chapters. The following two chapters are about probability estimations. In Chapter 5, normal distribution and multinomial logistic regression are introduced in estimating winning probability of each race horse. In Chapter 6, we will talk about some methods in misconceptions in estimating placed probability. Two main concepts in wagering, Kelly criterion and hedging, will be discussed in Chapters 7 and 8. To hit exotic pools, those theories in combinatorics in Chapter 9 will definitely help the readers. The author will share his experiences in betting syndicate in Chapter 10, and tell you how to be a successful professional horseplayer in the last Chapter. Some readers may find the mathematics in this book difficult, but the free program will take your pain away and do all the calculations. You can simply apply all the professional formulae by no more than a click, and pick your horses like an expert analyst. As an awardee in Asian-Pacific Mathematics Olympiad, the author abandoned his career as an actuary and became a key member in a gambling syndicate. This book was reprinted in the 4th edition in Hong Kong, ranked #2 in the best-selling chart in the international Chinese weekly Yazhou Zhoukan, and now available worldwide.
