Milton Hershey

The Pulitzer Prize-winning author of *The Making of the Atomic Bomb* narrates the story of the postwar superpower arms race that culminated in the Reagan-Gorbachev era when the U.S. and Soviet Union came all too close to nuclear war, chronicling the nuclear policies on both sides following World War II and their implications for global peace and security. Reprint. 20,000 first printing.

Everwild

Bestselling author and radio storytelling sensation Stuart McLean revisits the heartwarming and hilarious friends from his iconic Vinyl Cafe. Dave and his wife Morley would no doubt tell you that life is what you make it. Unfortunately for them, that means a compilation tape of mistakes, miscues, misunderstandings, and muddle. That's not to say that there is anything particularly unusual about the family and friends at the Vinyl Cafe. After all, who wouldn't try to toilet-train a cat? Who hasn't started a small home fix-it job only to set fire to the walls? Created mass hysteria at a school concert? Lost an aging relative while visiting our nation's capital? Vinyl Cafe Unplugged is a warm and delightful collection of stories following the common foibles and everyday absurdities of family life.

The Great Book of Chocolate

Deborah Cadbury takes a journey into her own family history to uncover the rivalries that have driven 250 years of

chocolate empire-building.

King Leopold's Ghost

A New York Times Bestseller "Love, longing, and rich scenes of daily life. What could be sweeter than a trip to an Irish village packed with robust native characters." —The Christian Science Monitor When a new highway threatens to bypass the town of Rossmore and cut through Whitethorn Woods, everyone has a passionate opinion about whether the town will benefit or suffer. But young Father Flynn is most concerned with the fate of St. Ann's Well, which is set at the edge of the woods and slated for destruction. People have been coming to St. Ann's for generations to share their dreams and fears, and speak their prayers. Some believe it to be a place of true spiritual power, demanding protection; others think it's a mere magnet for superstitions, easily sacrificed. Father Flynn listens to all those caught up in the conflict, as the men and women of Whitethorn Woods must decide between the traditions of the past and the promises of the future.

The 7 Golden Rules of Milton Hershey

Enrobed and filled confectionery and bakery products, such as praline-style chocolates, confectionery bars and chocolate-coated biscuits and ice-creams, are popular with consumers. The coating and filling can negatively affect product quality and shelf-life, but with the correct product design and manufacturing technology, the characteristics of the end-product can be much improved. This book provides a comprehensive overview of quality issues affecting enrobed and filled products and strategies to enhance product quality. Part one reviews the formulation of coatings and fillings, with chapters on key topics such as chocolate manufacture, confectionery fats, compound coatings and fat and sugar-based fillings. Product design issues, such as oil, moisture and ethanol migration and chocolate and filling rheology are the focus of Part two. Shelf-life prediction and testing are also discussed. Part three then covers the latest ingredient preparation and manufacturing technology for optimum product quality. Chapters examine tempering, enrobing, chocolate panning, production of chocolate shells and deposition technology. With its experienced team of authors, Science and technology of enrobed and filled chocolate, confectionery and bakery products is an essential purchase for professionals in the chocolate, confectionery and bakery industries. Provides a comprehensive review of quality issues affecting enrobed and filled products Reviews the formulation of coatings and fillings, addressing confectionery fats, compound coatings and sugar based fillings Focuses on product design issues such as oil, moisture and chocolate filling rheology

Hot Chocolate

"An enthralling story . . . A work of history that reads like a novel." — Christian Science Monitor "As Hochschild's brilliant book demonstrates, the great Congo scandal prefigured our own times . . . This book must be read and reread." — Los Angeles Times Book Review In the late nineteenth century, as the European powers were carving up Africa, King Leopold II of Belgium carried out a brutal plundering of the territory surrounding the Congo River. Ultimately slashing the area's population by ten million, he still managed to shrewdly cultivate his reputation as a great humanitarian. A tale far richer than any novelist could invent, King Leopold's Ghost is the horrifying account of a megalomaniac of monstrous proportions. It is also the deeply moving portrait of those who defied Leopold: African rebel leaders who fought against hopeless odds and a brave handful of missionaries, travelers, and young idealists who went to Africa for work or adventure but

unexpectedly found themselves witnesses to a holocaust and participants in the twentieth century's first great human rights movement. A National Book Critics Circle Award Finalist A New York Times Notable Book

Science and Technology of Enrobed and Filled Chocolate, Confectionery and Bakery Products

A compact connoisseur's guide, with recipes, to today's cutting-edge array of chocolates and chocolate makers from former Chez Panisse pastry chef David Lebovitz. In this compact volume, David Lebovitz gives a succinct cacao botany lesson, explains the process of chocolate making, runs through chocolate terminology and types, presents information on health benefits, offers an evaluating and buying primer, profiles the world's top chocolate makers and chocolatiers (with a whole chapter dedicated to Paris alone!), and shares dozens of little-known factoids in sidebars throughout the book. The Great Book of Chocolate includes more than 50 location and food photographs, and features more than 30 of Lebovitz's favorite chocolate recipes, from Black-Bottom Cupcakes to Homemade Rocky Road Candy, Orange and Rum Chocolate Mousse Cake to Double Chocolate Chip Espresso Cookies. His extensive resource section (with websites for international ordering) can bring the world's best chocolate to every door. A self-avowed chocoholic, Lebovitz nibbles chocolate every day, and with The Great Book of Chocolate in hand, he figures the rest of us will too.

King Flashypants and the Evil Emperor

For as long as anyone can remember, a man named Luca Turin has had an uncanny relationship with smells. He has been compared to the hero of Patrick Süskind's novel Perfume, but his story is in fact stranger, because it is true. It concerns how he made use of his powerful gifts to solve one of the last great mysteries of the human body: how our noses work. Luca Turin can distinguish the components of just about any smell, from the world's most refined perfumes to the air in a subway car on the Paris metro. A distinguished scientist, he once worked in an unrelated field, though he made a hobby of collecting fragrances. But when, as a lark, he published a collection of his reviews of the world's perfumes, the book hit the

small, insular business of perfume makers like a thunderclap. Who is this man Luca Turin, they demanded, and how does he know so much? The closed community of scent creation opened up to Luca Turin, and he discovered a fact that astonished him: no one in this world knew how smell worked. Billions and billions of dollars were spent creating scents in a manner amounting to glorified trial and error. The solution to the mystery of every other human sense has led to the Nobel Prize, if not vast riches. Why, Luca Turin thought, should smell be any different? So he gave his life to this great puzzle. And in the end, incredibly, it would seem that he solved it. But when enormously powerful interests are threatened and great reputations are at stake, Luca Turin learned, nothing is quite what it seems. Acclaimed writer Chandler Burr has spent four years chronicling Luca Turin's quest to unravel the mystery of how our sense of smell works. What has emerged is an enthralling, magical book that changes the way we think about that area between our mouth and our eyes, and its profound, secret hold on our lives. From the Hardcover edition.

Blood and Chocolate

The Oxford Encyclopedia of Food and Drink in America

Edwin isn't any ordinary boy. He is a king with a crown, his own suit of armor, a castle with secret passages and water slides—oh, and the most horribly evil man in the universe living next door. Emperor Nurbison is permanently up to no good. He wants Edwin's kingdom for himself, so when the Edwinland piggy bank runs out of money, he seizes his opportunity. None of this could possibly lead to a thrilling adventure with action, chocolate, and snappy crocodiles—could it?

The True History of Chocolate

Chocolate - the very word conjures up a hint of the forbidden and a taste of the decadent. Yet the story behind the chocolate bar is rarely one of luxury. From the thousands of children who work on plantations to the smallholders who harvest the beans, *Chocolate Nations* reveals the hard economic realities of our favourite sweet. This vivid and gripping exploration of the reasons behind farmer poverty includes the human stories of the producers and traders at the heart of the West African industry. Orla Ryan shows that only a tiny fraction of the cash we pay for a chocolate bar actually makes it back to the farmers, and sheds light on what Fair Trade really means on the ground. Provocative and eye-opening, *Chocolate Nations* exposes the true story of how the treat we love makes it on to our supermarket shelves.

Hershey

An ecological and anthropological study of eating offers insight into food consumption in the twenty-first century, explaining how an abundance of unlimited food varieties reveals the responsibilities of everyday consumers to protect their health and the environment. By the author of *The Botany of Desire*. 125,000 first printing.

Chocolate Nations

The first book to penetrate the secret and cut-throat world of chocolate. After ten years of research, Washington Post reporter Joel Glenn Brenner takes us inside a world as mysterious as Willy Wonka's chocolate factory, where industrial spies jockey for inside information as paranoid executives fight an all-out war for market share. Forrest Mars was one of the most private and successful entrepreneurs in America. An autocrat, with brilliant - if sometimes unconventional - management strategies, he built one of the world's most innovative companies - a \$10 billion a year empire, shrouded in secrecy. The day after he died of natural causes a Mars spokesperson refused even to admit that the founder had worked for the firm. Milton Hershey was a dreamer who wanted to create not just a company but an industrial paradise. After making an immense fortune his company is now controlled by a charitable trust whose profits fund the wealthiest orphanage in the world. Never before has so much been revealed about the chocolate industry. This authoritative and eye-opening account is the best type of business narrative - a revealing, engrossing and unforgettable read. *An engrossing portrait of two of the world's wealthiest companies, both founded by men dedicated to their very different, though equally eccentric, personal visions. A fascinating insight into what began as a fraternity of family-owned businesses and has now grown into a multi-billion dollar industry dominated by cut-throat wheeler-dealing. Joel Glenn Brenner's Mars cover story for Washington Post Magazine won three prizes.

The Shadow Thieves

Chocolate Wars

A biography of the wife of General Robert E. Lee who lived near Washington, D.C., and was considered one of the best hostesses of her day.

Whitethorn Woods

Examines the life of the head of the chocolate factory empire, describing his fatherless upbringing by a strict Mennonite mother, his failures with two early candy companies, and his construction of the utopian Hershey village.

The Butterfly Isles

Featuring luxurious concoctions ranging from ancient Latin American originals and European café classics to comforting childhood treats. No longer just a simple, syrupy sweet drink, today's hot chocolates are brimming with extraordinary flavors like cayenne, vanilla beans, Nutella, buttered rum, pistachios, wasabi, peanut butter, and malted milk balls. Featuring white chocolate foam, marshmallow cream, and frozen and fondue versions, the 60 recipes presented in Hot Chocolate are setting trends in haute chocolate consumption. Contributed by the world's preeminent chocolatiers, including Vosges Haut-Chocolat, Serendipity 3, Citizen Cake, Fran's Chocolates, Scharffen Berger Chocolate, and many more, these

imaginative modern variations are for the hip chocoholic of any age. A cup of hot chocolate is twice as rich in antioxidants as a glass of red wine. And, some would say, is just as intoxicating. From the Trade Paperback edition.

Crisis in Candyland

Examines one of the most bitter rivalries in American business

Public Schools, Public Menace

With a cast of characters that wouldn't be out of place in a Victorian novel, *Chocolate Wars* tells the story of the great chocolatier dynasties, through the prism of the Cadburys. Chocolate was consumed unrefined and unprocessed as a rather bitter, fatty drink for the wealthy elite until the late 19th century, when the Swiss discovered a way to blend it with milk and unleashed a product that would conquer every market in the world. Thereafter, one of the great global business rivalries unfolded as each chocolate maker attempted to dominate its domestic market and innovate new recipes for chocolate that would set it apart from its rivals. The contest was full of dramatic contradictions: The Cadburys were austere Quakers who found themselves making millions from an indulgent product; Kitty Hershey could hardly have been more flamboyant yet her husband was moved by the Cadburys tradition of philanthropy. Each was a product of their unique time and place yet they shared one thing: they want to make the best chocolate in the world.

The Emperor's Edge

Could there be a more intriguing East-meets-West story than one about the introduction of chocolate-that very symbol of Western indulgence-to legendarily austere China?

Size Matters

Your right to pursue happiness has been revoked by Big Government. Thousands of pages of regulations, millions of employees, and trillions of tax dollars . . . Big Government is bigger than ever, and as this bloated behemoth continues to fatten up and stretch out, it squeezes America's entrepreneurs, workers, and families - cutting our choices, limiting our opportunities, and squelching our right to pursue happiness. Every year, taxes increase, regulations pile higher, the cost of living goes up - and our quality of life suffers. So with everyone obsessing about the obesity problem in America, isn't it time we looked at the fat, flabby, overstretched, and overbloated behemoth that is American government? *Size Matters* shows through facts, figures, and head-spinning stories that as government increases in quantity, we all suffer a loss in life

quality. Miller reveals the damning details of Big Government's impact on the lives of ordinary Americans. How it . . . reduces family income drives up the cost of housing, healthcare, and most every other consumer product or service hurts employment misdirects entrepreneurial efforts stifles vital marketplace creativity and innovation Bristling with drama and data, Size Matters reveals the real daily drawbacks of Big Government. It comes down to this . . . Big Government = Huge Problem. Size really does matter. "Miller explains how government overregulation and porkbarrelling are costing Americans money and freedom while politicians and special interests line their pockets. This book should be a political call to arms." -Glenn Reynolds, Instapundit.com; author of An Army of Davids "Great sport! Imagine Thomas Frank if he actually told the truth. Accessible, entertaining, informative, and relevant in the best sense of the word. Read this book and you'll never lose an argument to a liberal again." -Jack Cashill, author of Hoodwinked and Sucker Punch "Miller will make you excited about the potential of America-and spitting mad that Big Government keeps tripping us up." -Star Parker, author of Uncle Sam's Plantation "Who knew that reading about rapacious government growth could be so delectable?" -Nick Gillespie, editor-in-chief, Reason

Code Orange

A food journalist tackles one of the world's most popular narcotics--chocolate--in search of the biological, historical, and social reasons why this substance has so tantalized humans the world over.

The Emperors of Chocolate

"A beautifully written . . . and illustrated history of the Food of the Gods, from the Olmecs to present-day developments."—Chocolatier This delightful tale of one of the world's favorite foods draws on botany, archaeology, and culinary history to present a complete and accurate history of chocolate. It begins some 4,000 years ago in the jungles of Mexico and Central America with the chocolate tree, Theobroma Cacao, and the complex processes necessary to transform its bitter seeds into what is now known as chocolate. This was centuries before chocolate was consumed in generally unsweetened liquid form and used as currency by the Maya and the Aztecs after them. The Spanish conquest of Central America introduced chocolate to Europe, where it first became the drink of kings and aristocrats and then was popularized in coffeehouses. Industrialization in the nineteenth and twentieth centuries made chocolate available to all, and now, in our own time, it has become once again a luxury item. The third edition includes new photographs and revisions throughout that reflect the latest scholarship. A new final chapter on a Guatemalan chocolate producer, located within the Pacific coastal area where chocolate was first invented, brings the volume up-to-date.

For God, Country, and Coca-Cola

Traces the evolution of Coca-Cola from its quiet beginnings to the influential giant of today, and includes trivia facts, company lore, and stories of Coca-Cola's "secret formula."

Chocolate

When I left home as a boy to tackle the job of making a living my mother gave me some good advice. She said, 'Milton, you are now going out into the world to make a man of yourself. My best advice to you is -- when you tackle a job stick to it until you have mastered it.' I never have forgotten those words and now when I think of the chocolate business and the way it has grown I think it was my mother's advice that spurred me on and helped me to overcome my obstacles. You can only make money by giving people what they want, and by making good use of your opportunities. When I started making chocolate I didn't follow the policies of those already in the business. If I had, I would never have made a go of it. Instead, I started out with the determination to make a better nickel chocolate bar than any of my competitors made, and I did so.
--Milton Hershey

Arsenals of Folly

The Emperor of Scint

"Imperial law enforcer Amaranthe Lokdon is good at her job: she can deter thieves and pacify thugs, if not with a blade, then by toppling an eight-foot pile of coffee canisters onto their heads. But when ravaged bodies show up on the waterfront, an arson covers up human sacrifices, and a powerful business coalition plots to kill the emperor, she feels a tad overwhelmed. Worse, Sicarius, the empire's most notorious assassin, is in town. He's tied in with the chaos somehow, but Amaranthe would be a fool to cross his path. Unfortunately, her superiors order her to hunt him down. Either they have an unprecedented belief in her skills or someone wants her dead"--P. [4] of cover.

The Lady of Arlington

Presents the story of the Mars family, their multinational company, and its successes and failures.

Chocolates and Confections: Formula, Theory, and Technique for the Artisan Confectioner, 2nd Edition

In *Chocolate We Trust* takes readers inside modern-day Hershey, Pennsylvania, headquarters of the iconic Hershey brand. A destination for chocolate enthusiasts since the early 1900s, Hershey has transformed from a model industrial town into a multifaceted suburbia powered by philanthropy. At its heart lies the Milton Hershey School Trust, a charitable trust with a mandate to serve "social orphans" and a \$12 billion endowment amassed from Hershey Company profits. The trust is a longstanding source of pride for people who call Hershey home and revere its benevolent capitalist founder—but in recent years it has become a subject of controversy and intrigue. Using interviews, participant observation, and archival research, anthropologist Peter Kurie returns to his hometown to examine the legacy of the Hershey Trust among local residents, company employees, and alumni of the K-12 Milton Hershey School. He arrives just as a scandal erupts that raises questions about the outsized power of the private trust over public life. Kurie draws on diverse voices across the community to show how philanthropy stirs passions and interests well beyond intended beneficiaries. *Chocolate We Trust* reveals the cultural significance of Hershey as a forerunner to socially conscious corporations and the cult of the entrepreneur-philanthropist. The Hershey story encapsulates the dreams and wishes of today's consumer-citizens: the dream of becoming personally successful, and the wish that the most affluent among us will serve the common good.
