A group history of the Austrian School of Economics, from the coffeehouses of imperial Vienna to the modern-day Tea Party. The Austrian School of Economics--a movement that has had a vast impact on economics, politics, and society, especially among the American right--is poorly understood by supporters and detractors alike. Defining themselves in opposition to the mainstream, economists such as Ludwig von Mises, Friedrich Hayek, and Joseph Schumpeter built the School's international reputation with their work on business cycles and monetary theory. Their focus on individualism--and deep antipathy toward socialism--ultimately won them a devoted audience among the upper echelons of business and government. In this collective biography, Janek Wasserman brings these figures to life, showing that in order to make sense of the Austrians and their continued influence, one must understand the backdrop against which their philosophy was formed--notably, the collapse of the Austro-Hungarian Empire and a half-century of war and exile.

Old Testament Study Guide, Pt. 3: The Old Testament Prophets. This volume is the third of three on the Old Testament. This volume is an unusually large volume that includes nearly all of the Old Testament prophets, their teachings and warnings to their people, and their prophecies of the coming of the Messiah and the latter days. It covers the period of the Bible from the end of King Solomon's reign through the end of the Old Testament, including the ministries of Jonah, Micah, Hosea, Amos, Joel, Isaiah, Jeremiah, Ezekiel, Esther, Daniel, Ezra, Haggai, Nehemiah, Zechariah, and Malachi (Elijah and Elisha were covered in Volume 8). We are taken from 826 BC to 430 BC, when the Old Testament closes. Then finally, we read of the Intertestamental Period between the ministry of Malachi and the rise of John the Baptist to open the New Testament. The cover features a classic painting of Daniel in the lion's den, painted by Riviere in 1890.

No sooner have they mastered the basics than students of theology can quickly find themselves in over their heads. They are bombarded with claim and counter-claim as soon as they want to tackle anything topical. The contentious subjects tend to be the historical Jesus, gender and sexuality, or the atonement. Other subjects might be less contentious but attract an astonishing excess of literature. Take the vast literature tackling the subject of the Church, for instance, or the bloated body of tomes on various aspects of Pneumatology. This book tries to provide the bewildered and intimidated student with a primer that is at once introductory and incisive; approachable and informative. It will help those training for ministry to recover their fascination for the subject of theology and how it could apply to their future ministry. Subjects covered include - The Quests for the Historical Jesus - Third Article Theology - The Missional Church - Liberation Theology - Feminist, LGBT and Queer Approaches - Postmodern Faith and the Emerging Church - Nonviolent Atonement
