In 2008 China plans to use the Olympic Games to remake its national identity in the global marketplace. In so doing China treads the path blazed by the United States. For more than a century the U.S. has used the Olympic Games to construct national identity, create communal memory, and craft patriotic mythology. From opening parades where the American team refuses to dip its flag in order to signal American exceptionalism to the closing ceremonies where the U.S. media trumpet that their team owes its medals not to superior athleticism but to the nation's peerless social and political systems, Olympic Games have served as sites to bolster American nationalism. More than any other nation, the United States has politicized its Olympic participation. In the process a host of myths about American superiority in global encounters has emerged through the Olympics. In memorializing and mythologizing their Olympic teams Americans have revealed the contours of the racial, gender, and class dynamics that animate their peculiar nationhood. These essays explore the history of expressions of American national identity in Olympic arenas. This book was published as a special issue of the International Journal of the History of Sport.

The Melting Pot and Other Subversive Stories

Society does not make it easy for young people, regardless of their sexual orientation, to find accurate, nonjudgmental information about homosexuality. It makes it even more difficult for young homosexuals to find positive role models in fiction either written or published expressly for them or - if published for adults - relevant to them and their lives. This book examines these issues and critically evaluates the body of literature published for young adults that offers homosexual themes and characters.

Bad Hair Does Not Exist!

Traces the roots of ideologies and outlooks that shape Jewish life in Israel and the United States today Zionism and the Melting Pot pivots away from commonplace accounts of the origins of Jewish politics and focuses on the ongoing activities of actors instrumental in the theological, political, diplomatic, and philanthropic networks that enabled the establishment of new Jewish communities in Palestine and the United States. M. M. Silver's innovative new study highlights the grassroots nature of these actors and their efforts--preaching, fundraising, emigration campaigns, and mutual aid organizations--and argues that these activities were not fundamentally ideological in nature but instead grew organically from traditional Judaic customs, values, and community mores. Silver examines events in three key locales--Ottoman Palestine, czarist Russia and the United States--during a period from the early 1870s to a few years before World War I. This era which was defined by the rise of new forms of anti-Semitism and by mass Jewish migration, ended with institutional and artistic expressions of new perspectives on Zionism and American Jewish communal life. Within this timeframe, Silver demonstrates, Jewish ideologies arose somewhat amorphously, without clear agendas; they then evolved as attempts to influence the character, pace, and geographical coordinates of the modernization of East European Jews, particularly in, or from, Russia's czarist empire. Unique in his multidisciplinary approach, Silver combines political and diplomatic history, literary analysis, biography, and organizational history. Chapters switch successively from the Zionist context, both in the czarist and

Ottoman empires, to the United States' melting-pot milieu. More than half of the figures discussed are sermonizers, emissaries, pioneers, or writers unknown to most readers. And for well-known figures like Theodor Herzl or Emma Lazarus, Silver's analysis typically relates to texts and episodes that are not covered in extant scholarship. By uncovering the foundations of Zionism--the Jewish nationalist ideology that became organized formally as a political movement--and of melting-pot theories of Jewish integration in the United States, Zionism and the Melting Pot breaks ample new ground.

The New Cambridge Bibliography of English Literature

“A clarion call to everyone who cares about the American nation and every person who calls it home.” —J.D. VANCE, author of *Hillbilly Elegy* Why would a son of immigrants call for tighter restrictions on immigration? For too long, liberals have suggested that only cruel, racist, or nativist bigots would want to restrict immigration. Anyone motivated by compassion and egalitarianism would choose open, or nearly-open, borders—or so the argument goes. Now, Reihan Salam, the son of Bangladeshi immigrants, turns this argument on its head. In this deeply researched but also deeply personal book, Salam shows why uncontrolled immigration is bad for everyone, including people like his family. Our current system has intensified the isolation of our native poor, and risks ghettoizing the children of poor immigrants. It ignores the challenges posed by the declining demand for less-skilled labor, even as it exacerbates ethnic inequality and deepens our political divides. If we continue on our current course, in which immigration policy serves wealthy insiders who profit from cheap labor, and cosmopolitan extremists attack the legitimacy of borders, the rise of a new ethnic underclass is inevitable. Even more so than now, class politics will be ethnic politics, and national unity will be impossible. Salam offers a solution, if we have the courage to break with the past and craft an immigration policy that serves our long-term national interests. Rejecting both militant multiculturalism and white identity politics, he argues that limiting total immigration and favoring skilled immigrants will combat rising inequality, balance diversity with assimilation, and foster a new nationalism that puts the interests of all Americans—native-born and foreign-born—first.

The Heart Has Its Reasons

This book offers a very clever and provocative look at the origins of the English language and how it controls the thoughts of the masses; It takes the reader deep into the mystery surrounding the origins of the English Language, the most ingenious and diabolical mind control tool ever devised by man. The material in this book lays out clearly how language shapes human thoughts (via the media), and how large bodies of human thought energy shapes events. How could

anything be more powerful, dictatorial, and persuasive than this? This book has the answers, painstakingly brought forth by its author over many years of hard research.

The Empty Pot is Demi's beloved picture book about an honest schoolboy. A long time ago in China there was a boy named Ping who loved flowers. Anything he planted burst into bloom. The Emperor loved flowers too. When it was time to choose an heir, he gave a flower seed to each child in the kingdom. "Whoever can show me their best in a year's time," he proclaimed, "shall succeed me to the throne!" Ping plants his seed and tends it every day. But month after month passes, and nothing grows. When spring comes, Ping must go to the Emperor with nothing but an empty pot. Demi's exquisite art and beautifully simple text show how Ping's embarrassing failure is turned triumphant in this satisfying tale of honesty rewarded. An IRA-CBC Children's Choice. Winner, 2019 James Beard Award for Best Book of the Year in Writing Finalist, 2019 IACP Award, Literary Food Writing Named a Best Food Book of the Year by the Boston Globe, Smithsonian, BookRiot, and more Semifinalist, Goodreads Choice Awards “Thoughtful, well researched, and truly moving. Shines a light on what it means to cook and eat American food, in all its infinitely nuanced and ever-evolving glory.” —Anthony Bourdain American food is the story of mash-ups. Immigrants arrive, cultures collide, and out of the push-pull come exciting new dishes and flavors. But for Edward Lee, who, like Anthony Bourdain or Gabrielle Hamilton, is as much a writer as he is a chef, that first surprising bite is just the beginning. What about the people behind the food? What about the traditions, the innovations, the memories? A natural-born storyteller, Lee decided to hit the road and spent two years uncovering fascinating narratives from every corner of the country. There’s a Cambodian couple in Lowell, Massachusetts, and their efforts to re-create the flavors of their lost country. A Uyghur café in New York’s Brighton Beach serves a noodle soup that seems so very familiar and yet so very exotic—one unexpected ingredient opens a window onto an entirely unique culture. A beignet from Café du Monde in New Orleans, as potent as Proust’s madeleine, inspires a narrative that tunnels through time, back to the first Creole cooks, then forward to a Korean rice-flour hoedduck and a beignet dusted with matcha. Sixteen adventures, sixteen vibrant new chapters in the great evolving story of American cuisine. And forty recipes, created by Lee, that bring these new dishes into our own kitchens.

From its earliest days under English rule, New York City had an unusually diverse ethnic makeup, with substantial numbers of Dutch, English, Scottish, Irish, French, German, and Jewish immigrants, as well as a large African-American population. Joyce Goodfriend paints a vivid portrait of this society, exploring the meaning of ethnicity in early America and showing how colonial settlers of varying backgrounds worked out a basis for coexistence. She argues that, contrary to the prevalent notion of rapid Anglicization, ethnicity proved an enduring force in this small urban society well into the eighteenth century.
