you wade through the curriculum jungle to choose what's right for each of your children. Reviews of hundreds of books, games, videos, computer programs, parent helps, and much, much more for all subjects.-- Learning styles: Cathy helps you determine each child's learning style, then choose methods and resources that fit each child.-- What your child needs to know -- what is typically taught at each grade level-- Which resources allow your children to work independently, which work best taught one-on-one-- Identifying and dealing with learning disabilities plus a list of consultants for extra help-- Testing: the good and bad of testing, different kinds of tests, where to get them, testing services-- Addresses, phone numbers, faxes, e-mail, and web sites for all publishers and distributors-- How to consolidate your shopping and save shipping costs

Video Source Book

Helps to build basic arithmetic skills, increase speed, and improve problem-solving skills with one hundred ready-to-reproduce pages that are composed of ten problems ranging in difficulty.

Phonics Handbook Gr 3-6

Hands-On Math Projects with Real-Life Applications, Grades 3-5

This workbook, designed by educators, offers a variety of activities for skill-and-drill practice with the

intent of helping children achieve mastery of the mathematical skills necessary to succeed in school.

Common Core Math Grade 1

All the Math Your 6th Grader Needs to Succeed This book will help your elementary school student develop the math skills needed to succeed in the classroom and on standardized tests. The user-friendly, full-color pages are filled to the brim with engaging activities for maximum educational value. The book includes easy-to-follow instructions, helpful examples, and tons of practice problems to help students master each concept, sharpen their problem-solving skills, and build confidence. Features include:

- A guide that outlines national standards for Grade 6
 - Concise lessons combined with lot of practice that promote better scores—in class and on achievement tests
 - A pretest to help identify areas where students need more work
 - End-of-chapter tests to measure students' progress
 - A helpful glossary of key terms used in the book
 - More than 1,000 math problems with answers
- Topics covered:
- Place values and estimating
 - Number properties and order of operations
 - Negative numbers and absolute value
 - Factors and multiples
 - Solving problems with rational numbers
 - Ratios and proportions
 - Percent
 - Exponents and scientific notation
 - Solving equations and inequalities
 - Customary and metric units of measure, including conversions
 - Solving problems by graphing points on the coordinate plane
 - Classifying polygons based on their properties
 - Calculating perimeter, area, surface area, and volume
 - Data

One of the areas of study students find most difficult to master--and are most fearful of--is math. Yet the core math skills acquired in the first four years of school form the basis of all future academic success. Get Ready for Standardized Tests, the first and only grade-specific test prep series, now features hands-on guidance on helping kids master the all-important basic math skills while arming parents with the tools they need to help their children succeed.

Test Practice Workbook Grade 3

Solving Math Problems

Each easy-to-implement project includes background information for the teacher, project goals, math skills needed, a student guide with tips and strategies, and reproducible worksheets. Projects are designed to help students meet the National Council of Teachers of Mathematics Standards and Focal Points, and chapters are organized to show how math relates to language, arts, science, etc.--demonstrating the importance of math in all areas of real life. In Part I, Chapter 1 offers an overview of how to incorporate math projects in the classroom. Chapter 2 provides a variety of classroom management suggestions, as well as teaching tips, and Chapter 3 offers ways teachers may evaluate project work. Each chapter also contains several reproducibles that are designed to help students master the procedural skills necessary for effective collaboration while working on projects. Part II, "The Projects," is divided into six

enhance your child's thinking skills is the 5- Minute Math Thinkers series.

180 Days of Math for Kindergarten: Practice, Assess, Diagnose

El-Hi Textbooks & Serials in Print, 2000

Volume III of the Learn Math Fast System teaches Pre-algebra in just a few months. The older you are the faster you'll learn. Topics include Order of Operations, Solving for x , Solving for x in Terms of Y , Ratios, Proportions, Combining Like Terms, Exponents, Square Root, Distributive Property, Slopes, Graphing, Y-Intercept, Linear Equations. The Learn Math Fast System is being used in all 50 States and a dozen other countries with TREMENDOUS success! Read the reviews it's the one math program that REALLY WORKS! Everything is included; lessons, worksheets, tests, and answers.

Eureka Math - a Story of Ratios

This Big First Grade Workbook combines popular 32-page School Zone workbooks into one convenient 320-page volume. Child-friendly exercises and full-color illustrations make learning fun. Use Big Workbooks to reinforce or review grade-level skills or prepare for the upcoming school year. Contents include: First Grade Enrichment, Beginning Phonics, Manuscript Writing, Story Problems, Time, Money & Fractions, First Grade Math, and First Grade Scholar.

Resources in Education

Teaching Children Mathematics

This One-Sheet-A-Day math drill workbook is for 3rd grade students who want extra practice with two numbers, one digit division. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum

practice work during a whole academic year?

Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that "ONE-SHEET-A-DAY" is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. "One-Sheet-A-Day" math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities.
