This is the true story of the bizarre, historic case of Andrew Lee Sullivan. He exposes the hidden and outrageous world of a budding Catholic institute. A discarded insider and captive in an apartment near Rome, the once broken priest with suicidal tendencies survives. He shares his ordeal and bares his soul with raw sincerity. In 1979, an idealistic and naïve Sullivan leaves California and joins a wannabe religious order named Miles Jesu. Two tragic but unclear realities threaten his future. The young man has a condition that retards the proper development of his emotional life. The eighteen year old unwittingly joins a cult. These two menaces trigger gradual human destruction. Life deteriorates into a victim's futile

attempts to endure a virtual sociopath. Then a miracle of overwhelming love bursts in the soul of Father Sullivan. Secrets of the power of love, Jesus' love transform him. All hell breaks loose. Breakneck emotional development surges. His only path to human salvation is to escape into the Vatican and face his worst fears. He must risk his future and unmask the cult to seize his freedom. Sullivan must face the consequences of feeling divine and human love for the first time. Vatican Intervention advances fresh outlooks on universal themes: love, prayer, risk taking. This incredible love story of Church tragedy and hope underlines the existential nature of receiving love. It reveals the surprising impact therapeutic meditation can have on human emotions and their growth. Superbly written, the story reflects Capote's feel of real and Grisham's page-turning narrative. While documenting a true testimony, it reads like compelling fiction. This testimony is an ideal follow up story to Spotlight: the Boston Globe's Pulitzer Prize-winning coverage of sexual abuse in the Catholic Church. Yet, Vatican Intervention shows blinding light at the end of the tunnel. This book is especially suited for Christians and Catholics. It offers insight about church scandals and shares an epiphany of hope for anyone harmed by them. Bishops, priests, ministers, religious, seminarians, students, and church worshipers can discover enlightenment, healing, and the transforming power of love within its pages. Above all else, this is a book for anyone who has hit rock bottom in life. Vatican Intervention is being adapted into a major motion picture by producer, Mario Domina of ThunderBall Films, Ltd. The original screenplay adaptation will be written by

Circulating Cultures is an edited book about the transformation of cultural materials through the Australian landscape. The book explores cultural circulation, exchange and transit, through events such as the geographical movement of song series across the Kimberley and Arnhem Land; the transformation of Australian Aboriginal dance in the hands of an American choreographer; and the indigenisation of symbolic meanings in heavy metal music. Circulating Cultures crosses disciplinary boundaries, with contributions from historians, musicologists, linguists and dance historians, to depict shifts of cultural materials through time, place and interventions from people. It looks at the way Indigenous and non-Indigenous performing arts have

Rather than waiting for yet to be developed technology, business model innovation is the key to attract mainstream capital and unlock transformational change. Unlocking our next economy will be driven by thousands of companies deploying existing clean and resource-efficient technologies in electricity-supply (like solar), transportation, building materials, industry, forestry, waste, and agriculture."--

This collection brings together the work of a range of scholars from around the world with different perspectives on one simple question: How can we assess the value of various entertainment products and forms? to say about entertainment, too, whether it be our opinion on the latest Hollywood blockbuster, a new celebrity couple, or our concerns over its place in the world of politics. And yet, in spite of its significance, entertainment has too-often been dismissed with surprising ease within the academy as a 'mindless', 'lowbrow' – even 'dangerous' – form of culture, and therefore unworthy of serious appraisal (let alone praise). Entertainment Values, challenges this assumption, offering a better understanding of what entertainment is, why we should take it seriously, as well as helping us to appreciate the significant and complex impact it has on our culture.

Wangga, originating in the Daly region of Australia's Top End, is one of the most prominent Indigenous genres of public dance-songs. This book focuses on the songmen who created and performed the songs for their own communities and for the general public over the past 50 years. The book is organised around six repertoires: four from the Belyuen-based songmen Barrtjap, Muluk, Mandji and Lambudju, and two from the Wadeye-based Walakandha and Ma-yawa wangga groups, the repertoires being named after the ancestral song-giving ghosts of the Marri Tjavin and Marri Ammu people respectively. Framing chapters include discussion of the genre's social history, musical conventions and the five highly endangered languages in which the songs are composed. The core of the book is a compendium of recordings, transcriptions, translations and explanations of over 150 song items. Thanks to permissions from the

This important book by leading telecommunications policy expert Susan Crawford explores why Americans are now paying much more but getting much less when it comes to high-speed Internet access. Using the 2011 merger between Comcast and NBC Universal as a lens, Crawford examines how we have created the biggest monopoly since the breakup of Standard Oil a century ago. In the clearest terms, this book explores how telecommunications monopolies have affected the daily lives of consumers and America's global economic standing.
