James M. Powell here offers a new interpretation of the Fifth Crusade's historical and social impact, and a richly rewarding view of life in the thirteenth century. Powell addresses such questions as the degree of popular interest in the crusades, the religious climate of the period, the social structure of the membership of the crusade, and the effects of the recruitment effort on the outcome.

The Crusade of Frederick Barbarossa

In *Princely Brothers and Sisters*, Jonathan R. Lyon takes a fresh look at sibling networks and the role they played in shaping the practice of politics in the Middle Ages. Focusing on nine of the most prominent aristocratic families in the German kingdom during the Staufen period (1138–1250), Lyon finds that noblemen—and to a lesser extent, noblewomen—relied on the cooperation and support

of their siblings as they sought to maintain or expand their power and influence within a competitive political environment. Consequently, sibling relationships proved crucial at key moments in shaping the political and territorial interests of many lords of the kingdom. Family historians have largely overlooked brothers and sisters in the political life of medieval societies. As Lyon points out, however, siblings are the contemporaries whose lives normally overlap the longest. More so than parents and children, husbands and wives, or lords and vassals, brothers and sisters have the potential to develop relationships that span entire lifetimes. The longevity of some sibling bonds therefore created opportunities for noble brothers and sisters to collaborate in especially potent ways. As Lyon shows, cohesive networks of brothers and sisters proved remarkably effective at counterbalancing the authority of the Staufens kings and emperors. Well written and impeccably researched, *Princely Brothers and Sisters* is an important book not only for medieval German historians but also for the field of family history.

This is the first English translation of the main contemporary accounts of the Crusade and death of the German Emperor Frederick I Barbarossa (ruled 1152-90). The principal text here, the 'History of the Expedition of the Emperor Frederick', was written soon after the events described, and is a crucial, and much under-used source for the Third Crusade. It narrates the preparations and recruitment for the Crusade, and the Crusade itself: the journey through the Balkans and the gruelling march through Asia Minor, beset by Turkish attack, until its arrival at Antioch on 21st July 1190, eleven days after the emperor had drowned while crossing a river in Cilician Armenia. The 'History' gives a vivid account of the sufferings of the German army as it traversed Asia Minor and appears to be, or to be based upon an eyewitness record, cast in the form of (often) a daily memoir. A number of subsidiary texts also translated illustrate and expand this main account, and place the crusade in context.

This is the first English translation of the main contemporary accounts of the Crusade and death of the German Frederick I Barbarossa (ruled 1152-90). The most important of these, the 'History of the Expedition of the Emperor Frederick' was written soon after the events described, and is a crucial, and under-used source for the Third Crusade (at least in the Anglophone world). The account begins with two letters describing the disaster of Hattin and Saladin's subsequent conquest of most of the Holy Land (the second of these is addressed to the duke of Austria). It goes on to describe how the emperor took the Cross, the preparations and recruitment for the Crusade, the diplomatic contacts of Barbarossa with the Byzantine Emperor and the Sultan of Iconium in an attempt to secure a peaceful passage for the expedition, and the Crusade itself: the journey through the Balkans and the gruelling march through Asia Minor, beset by Turkish attack, until its arrival at Antioch on 21st July 1190, eleven days after the emperor had drowned while crossing a river in Cilician Armenia. Minor. The account of the expedition itself appears to be, or to be based upon an eyewitness record, cast in the form of (often) a daily memoir. However, it concludes with an account of the captivity and release of Richard I in Germany, Henry VI's conquest of the kingdom of Sicily, and of the preparations for a new Crusade under his leadership. In addition, a number of further accounts related to, and expanding, the 'History of the Expedition' have also been translated, including a contemporary newsletter about the death of the emperor, as well as the narrative of Otto of St Blasien, placing the Crusade into context twenty years later, and a contemporary account of the capture of Silves in Portugal by German crusaders on their way to the Holy Land in 1189. This collection is a valuable companion volume to the three other volumes relating to the Third Crusade in this series: The Conquest of Jerusalem and the Third Crusade, trans. Edbury, the Itinerarium Peregrinorum et Gesta Regis Ricardi, trans. Nicholson, and The Rare and Excellent History of Saladin, trans. Richards.

König Konrad III. (1138-1152), der erste Staufer auf dem Königsthron, galt der Geschichtsforschung lange Zeit als glückloser Herrscher, der neben seinen Nachfolgern verblasste. Heute urteilt man differenzierter. So betrachtet man den Grad der Einbindung der politischen Eliten in den Reichsdienst als einen wesentlichen Indikator für die Wirksamkeit hochmittelalterlicher Königsherrschaft. Dieser Band widmet sich diesem Beziehungsgefüge zwischen dem Herrscher und den übrigen politischen Akteuren an dessen Hof. Es werden Berater, Parteigänger aber auch Gegner des Königs porträtiert, sowie die geographischen Kernzonen der Königsherrschaft behandelt. Aus diesem Blickwinkel entsteht ein positiveres Bild Konrads III., das ihn als mehr als einen bloßen Wegbereiter Friedrich Barbarossas erscheinen lässt.

Urkunden-Buch des Landes ob der Enns

Ein Buch, das eine Reihe von oberösterreichischen
Schlössern und Burgen aus dem Mittelalter vorstellt.
Besonders die architektonischen Bestandteile, die

Merkmale der Burgen und die Ausstattung werden dabei betrachtet. Neben einem geschichtlichen Einblick in die Entstehungszeit, wird auch das Leben und Wohnen auf einer Burg geschildert. Hinzu kommt eine detaillierte, historische und architektonische Beschreibung der sechs Donauburgen Krämpelstein, Vichtenstein, Wesen, Falkenstein, Rannariedl, Marsbach und der Burg Wildberg bei Linz. Zahlreiche Aufnahmen und Pläne der einzelnen Schlösser und Burgen veranschaulichen den Text. Mit 97 Schwarz-Weiß-Abbildungen. Überarbeiteter Nachdruck der Originalausgabe von 1899.
