William James Sidis (1898-1944) was born to a psychologist with some unorthodox ideas about child rearing, attended Harvard at an absurdly young age, burned out at 14, and spent most of the rest of his life working menial jobs and living in poverty. Dubbed a "failed prodigy" by the popular press, he lived out his years as an eccentric and a recluse. The truth is a lot more complex than this, and the "failure" a matter of perspective, as shown in this remarkable biography. Wallace's book, the only biography of this most enigmatic of prodigies, gives us a balanced look at Sidis' up-bringing and a somewhat revisionist look at his later life. Sidis apparently was hard at work on manuscripts of various sorts even during his later years; this book is to my knowledge the only one that gives an account of that later work, which dealt with American Indians. New manuscripts by Sidis have surfaced since the writing of this book, including a book on traffic accident patterns.

The Cours de linguistique generale, reconstructed from students' notes after Saussure's death in 1913, founded modern linguistic theory by breaking the study of language free from a merely historical and comparativist approach. Saussure's new method, now known as Structuralism, has since been applied to such diverse areas as art, architecture, folklore, literary criticism, and philosophy.

Short stories inspired by the history of slavery in America, by the National Book Award-winning author of *Middle Passage*. Nothing has had as profound an effect on American life as slavery. For blacks and whites alike, the experience has left us with a conflicted and contradictory history. Now, famed novelist Charles Johnson, whose *Middle Passage* won the National Book Award, presents a dozen tales of the effects and experience of slavery, each based on historical fact, and each about those Africans who arrived on our shores in shackles. From Martha Washington's management of her slaves, bequeathed to her at the death of the first president, to a boy chained in the bowels of a ship plying the infamous passage from Africa to the South laden with human

Gotcha!

How successful are you? Perhaps you are already overcoming the negative thinking of your past, opening your mind and heart to the new paradigms, and stepping bravely into the world of creation and self-responsibility. Everything should be working really well for you, but still there are unseen forces holding you back. Real happiness continues to elude you, and your ability to create the life of your choosing seems to be hit-and-miss. You tend to think that your lack of success, or mediocre achievements, is just because you have not tried hard enough, or you still do not believe enough, or . . . ? But what if there was one element of the jigsaw puzzle that you have just totally missed? An element that causes you to simply not see some of the available choices, limiting your viewpoint so much that all you see is what "they" want you to see? You are being puppeted and manipulated to the point that you have lost your own free will. Learn how they do it and what you must do to once again become the master of your own life . . . and of your destiny.
