Parents were here first! How did the kids suddenly take control? Sure the world has changed from the days when children were supposed to be seen and not heard but things have gotten a little out of hand. What about some quality time for the grownups? Author Christie Mellor's hilarious, personal, refreshing, and actually quite useful advice delightfully rights the balance between parent and child. In dozens of short, wickedly funny chapters, she skewers today's parental absurdities and reminds us how to make child-rearing a kick. With recipes, helpful hints, and illustrations, this high-spirited book is the only book parents will really need and enjoy.

## **Wake Up and Smell the Poop!**

Tom began building his real estate fortune with the purchase of his first property at age 19. Despite having no credit or money of his own, a deal presented itself and Tom was able to see the incredible potential profits in real estate. This was his wake-up call. He realized deals are born every day in nearly every city, big or small. The circumstances that create opportunities for buyers are not unique, but rather commonplace. Deals arise from divorce, disasters, death, bankruptcy, bad decisions, inheritances, and retirement. These are the roots of all deals and they happen everywhere in the world. Tom was lucky to learn at an early age that real estate investing is a business where everyone is equal, rich or poor. The person who has the deal in his hands-the contract-is the person who will make the money. Today, Tom owns and manages over 150,000 square feet of property rentals, houses, commercial centers, offices, industrial and flex properties. In this book, you will learn Tom's methods and see links to the top videos on his YouTube channel, FlipAnythingUSA, where he elaborates on exactly how to make money as a real estate investor. You will also learn how Tom developed tools to find the best deals in any community and how to out-negotiate the competition. This knowledge comes from years of experience and hundreds of wins and losses. All of Tom's lessons are explained here in a very conversational and easy-to-understand manner. This is your chance to learn from a friend. The book is based on real stories: the opportunities, decisions, success and-yes, even failures-that have made Tom McKay one of the shrewdest and savviest investors in the country. Tom takes you from the beginning, where he started out with nothing, looking for a deal first and the money second. Because as Tom would explain, when you have the deal you hold all the cards. Even if you are broke, as long as you have a contract to buy a property at a great price, the rest is simple. Getting a deal on what someone has and what someone wants is where the easiest money is found. If you adopt Tom's method and attitude, you can follow in his footsteps, making millions on land, commercial and industrial buildings, apartments and houses. Regardless of whether you are a teenager, a senior citizen, or anywhere in between, it's not too late to change your life. You can make thousands-sometimes even tens or hundreds of thousands of dollars. Tom knows age and income are not a factor with his methods. Taking action is what is important. So, now is the time to wake up and smell the real estate! You'll be glad you did.

Not a guide about guilt, but about making little choices throughout the day that improve the planet. We all have our morning routines, whether it's making coffee, walking the dog, feeding the kids, a shower and a shave, the office commute, or some combination thereof. And at each of these morning moments -- in fact, at any given time throughout the day -- we're making choices. What to eat, what to wear, how to dispose of dog poop or diapers, how to travel from point A to point B, where to have a post-work cocktail, and on, and on -- this compact and resourceful handbook takes a look at how to simplify and "green" our daily choices, from the moment we get up in the morning, until we finally lay our heads down at night. Grist's news about green issues and sustainable living is far from predictable. A self-proclaimed "beacon in the smog," it provides some of the most refreshing and knowledgeable voices on how to live wisely and promote a healthy world. ### **Wake Up and Sell the Coffee!**

This book will take you from 'Sunday Christian' to being a vital member of the body of Christ in your local Church, understanding why you are who you are, and Who for. Matthew started writing this book, not after he'd been in the ministry for twenty years or more, nor after he'd built a 'mega-Church'. He hadn't even started Bible college yet! He began writing this book less than a year after becoming a Christian, so he literally takes you with him, from discovering the difference between how and why things are as they are, all the way to clearly hearing the voice of God and effectively standing up against the devil and his drones, in your life. When the idea was introduced to Matthew, that Christians can actually hear the voice of God, they didn't tell him that most people don't, or that it's a rare occurrence. At least not until the prophetic was already flowing, and by then it was too late to squeeze him into the box so many accept. So as a new Christian, with the child like faith that Jesus requested for salvation, Matthew decided early on that if God is who He says He is, and you have a question, what's stopping Him from answering you? The Bible says; You have not because you ask not. So he asked and he asked and he asked some more. Why Would You Read This Book? I'm just like you, no more, no less. I believe God is raising up His people. Any of His people, to finish the work He started and left us with, two thousand years ago. I've written this book to show you that God can and will use anyone who is ready and everyone who is willing. Don't read this book because you know who I am (nobody knows who I am), read this book because you want to know what God has to say, directly to you!

## Wake Up and Smell the Dollars! Whose Inner-city is this

## **Anyway!**

The epic story of how coffee connected and divided the modern world. Coffee is an indispensable part of daily life for billions of people around the world--one of the most valuable commodities in the history of global capitalism, the leading source of the world's most popular drug, and perhaps the most widespread word on the planet. Augustine Sedgewick's *Coffeeland* tells the hidden and surprising story of how this came to be, tracing coffee's five-hundred-year transformation from a mysterious Muslim ritual into an everyday necessity. This story is one that few coffee drinkers know. It centers on the volcanic highlands of El Salvador, where James Hill, born in the slums of Manchester, England, founded one of the world's great coffee dynasties at the turn of the twentieth century. Adapting the innovations of the Industrial Revolution to plantation agriculture, Hill helped to turn El Salvador into perhaps the most intensive monoculture in modern history, a place of extraordinary productivity, inequality, and violence. Following coffee from Hill family plantations into supermarkets, kitchens, and workplaces across the United States, and finally into today's ubiquitous cafés, Sedgewick reveals how coffee bred vast wealth and hard poverty, at once connecting and dividing the modern world. In the process, both El Salvador and the United States earned the nickname "Coffeeland," but for starkly different reasons, and with consequences that reach into the present. This extraordinary history of coffee opens up a new perspective on how the globalized world works, ultimately provoking a reconsideration of what it means to be connected to faraway people and places through the familiar things that make up our day-to-day lives.

## **Wake Up and Smell the Coffin**

This book is concerned with the rapid and varied changes in the nature of work and work relationships which have taken place in recent years. While technological innovation has been a key contributor to the nature and pace of change, other social and market trends have also played a part such as increasing workforce diversity, enhanced competition and greater global integration. Responding to

these trends alongside cost pressures and the need for continued responsiveness to the environment, organizations have changed the way in which work is organized. There have also been shifts in product markets with growing demand for authenticity and refinement of the customer experience which has further implications for how work is organized and enacted. At the same time, employees have sought changes in their work arrangements in order to help them achieve a more satisfactory relationship between their work and non-work lives. Many have also taken increased responsibility for managing their own work opportunities, moving away from dependency on a single employer. The implications of these significant and widespread changes are the central focus of this book and in particular the implications for workers, managers, and organizations. It brings together contributions from an international team of renowned management scholars who explore the opportunities and challenges presented by technological and digital innovation, consumer, social and organizational change. Drawing on empirical evidence from Europe, North America and Australia, *Work, Working and Work Relationships in a Changing World* considers new forms of service work, technologically enabled work and independent professionals to provide in-depth insight into work experiences in the 21st Century.

### **Caffeinated**

In this uproarious novel, ridiculous characters emerge from San Francisco's countercultural underground to unleash their melancholy psychodrama on an unsuspecting world. Poets and vampires, drag queens and performance artists, musicians and strippers commingle throughout a yearlong hangover. Longhi's ability to render distinctly memorable characters and zero in on subterranean absurdity makes this a rollicking urban ride.

### **Generation of Idiots**

Innovation is being proven around the world to be the best path to stability and growth for businesses. However, the path to building an Innovation Culture is often very muddy and confusing. *Wake Up and Smell the Innovation* is a new book that combines a real-life story of a service company pursuing innovation competency building by visiting some of the most innovative companies in the U.S. and a How-To guide on steps to take to create a culture of innovation in any type of organization. This tale of how to create a desired future by embracing innovation is a must-read for C-Suite leaders and business owners. The story is set in one of the most unlikely places for an innovation revolution to begin the health care industry. Sit back and enjoy this unique story while you receive a thorough business course in how to chart your path to being an innovative leader in an innovation-rich organization.

Exposes the truth about caffeine, the unregulated, addictive drug found in common drinks and pain medications and explains how it affects mood and athletic performance, how it is used to cement buying patterns and its role in obesity and anxiety.

### **Wake Up and Smell the Roses**

An examination of how our thoughts and emotions are manipulated by politicians, media, and celebrities. Generation of Idiots was written to expose the persuading forces that move Americans today and distort the young minds of tomorrow. Great men such as Ben Franklin and Thomas Jefferson used to inspire young minds, not use them for their own personal gain. Our country hangs in the balance, unless we find great patriots like that again to lead us back into prosperity. This book may raise your blood pressure or make you laugh, but it will also make you think-and thats the objective.

In a single lifetime, which moment mattered the most? Son, brother, husband, father. hero, alcoholic, wife-beater, musician, friend. At the moment of his death Wullie McAvoy confronts everything he's been, everything he could've been and the people he loved, lost, saved and destroyed along the way. An innovative novella from the author of the Lanarkshire Strays series, the dEaDINBURGH series and On The Seventh Day. Praise for Wake Up And Smell The Coffin: "Powerful little novel." "Wonderful, complex characters." "Truly shocking in places but also really moving and redemptive." "It hits home how easily we can start to become people we really don't want to be. But, as always, Wilson gives his readers hope."

### **Wake Up and Smell the Coffee**

A high-growth success story Martyn Dawes set out to build a high-growth business with a simple idea and the will to do whatever was required to make it a success. Twelve years later he sold this business - Coffee Nation - for £23m. Along the way, among many highs and lows, there was the thrill of seeing an idea come to life, costly failed trials and false starts, countless business plans, learning how and when to raise funding, the personal journey of surviving when success seemed so distant and securing contracts with some of the biggest retailers in the world. This is the story of how a great British business was built - from a blank sheet of paper -

and how it came to be one of the nation's favourite consumer brands. It's also a guide to help any aspiring entrepreneur put their business on the path to high growth. Through the course of an exciting narrative, Martyn shares his experiences of growing a business and his knowledge of what you should and shouldn't do. Mistakes to avoid are revealed just as honestly as the good decisions, making this is an unusually frank and valuable account for anyone looking to build their own business. All areas from start-up to exit are covered, including: - How to come up with an idea and know if it's any good - Researching and testing your business model - When you should not write a business plan and why not - The process of pitching to investors and raising funding - Negotiating contracts and controlling your finances - A special final chapter on how to set up a business for high-growth from the outset Coffee Nation was based on the reliable principles of a simple idea, a compelling vision, a high-quality product and relentless enterprise. If you have the desire and vision to build your own high-growth business - or you want to read a fascinating story of how it has been done - look no further. It's time to wake up and sell the coffee.

Stand back! The tales in this raunchy round-the-world romp might get you dirty. We've all had unspeakable experiences while traveling that we're ashamed to admit, but these often become our best stories in the retelling. The writers in this collection cast inhibition aside and reveal their weirdest and worst moments and how they made the best of them. And memorable moments in exotic destinations come in all shapes and sizes: insects as big as Pam Anderson's left tit, regrettable sex, stink-eyed officials, horrible healers, Lady Gaga's shoes and Madonna's special meal, trigger-happy militants, and peeping Tom rock stars. Adventure vicariously as: Spud Hilton (not Monty Python) finds the Holy Grail by accident. Meghan Ward squats, and then the toilet grunts back, in Goa. Kasha Rigby proved how tough she is on National Geographic's Ultimate Survival Alaska, but is she a match for a 90-year-old bone breaker in Guatemala? Namibians stereotype Chinese men as Bruce Lee—Gerald Yeung wonders if attacking baboons will do the same. Keph Senett (hoping not to follow in the footsteps of Pussy Riot) braves bombs, police and a Soviet-era sofa bed to play soccer at the LGBT games in Putin's Russia. Sustainability is the new "bling," and Grist knows how to wear it. Not a guide about guilt, but about making little choices throughout the day that improve the planet. Grist is the hottest online magazine covering sustainability and popular culture. Like Grist, this is a quirky, humorous, entertaining, and sometimes irreverent read. We all have our morning routines, whether it's making coffee, walking the dog, feeding the kids, a shower and a shave, the office commute, or some combination thereof. And at each of these morning moments-in fact, at any given time throughout the day-we're making choices. What to eat, what to wear, how to dispose of dog poop or diapers, how to travel from point A to point B, where to have a post-work cocktail, and on, and on-this compact and resourceful handbook takes a look at how to simplify and "green" our daily choices, from the moment we get up in the morning, until we finally lay our heads down at night. Grist magazine's news about green issues and sustainable living is far from predictable. A self-proclaimed "beacon in the smog," it provides some of the most refreshing and knowledgeable voices on how to live wisely and promote a healthy world. Consider this guide an off-line beacon, bringing Grist's edgy authority, impeccable research, and planetary cheerleading to a broader audience.

Stand back! The tales in this raunchy round-the-world romp might get you dirty. We've all had unspeakable experiences while traveling that we're ashamed to admit, but these often become our best stories in the retelling. The writers in this collection cast inhibition aside and reveal their weirdest and worst moments and how they made the best of them. And memorable moments in exotic destinations come in all shapes and sizes: insects as big as Pam Anderson's left tit, regrettable sex, stink-eyed officials, horrible healers, Lady Gaga's shoes and Madonna's special meal, trigger-happy militants, and peeping Tom rock stars. Adventure vicariously as: Spud Hilton (not Monty Python) finds the Holy Grail by accident. Meghan Ward squats, and then the toilet grunts back, in Goa. Kasha Rigby proved how tough she is on National Geographic's Ultimate Survival Alaska, but is she a match for a 90-year-old bone breaker in Guatemala? Namibians stereotype Chinese men as Bruce Lee—Gerald Yeung wonders if attacking baboons will do the same. Keph Senett (hoping not to follow in the footsteps of Pussy Riot) braves bombs, police and a Soviet-era sofa bed to play soccer at the LGBT games in Putin's Russia. Jabba-the-Turd versus Shannon Bradford in an epic showdown in Argentina. And many more....

## Coffee Lover's Gift for Men Or

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • NPR • The Guardian • Kirkus Reviews • The fiction of multiple award-winning author China Miéville is powered by intelligence and imagination. Like George Saunders, Karen Russell, and David Mitchell, he pulls from a variety of genres with equal facility, employing the fantastic not to escape from reality but instead to interrogate it in provocative, unexpected ways. London awakes one morning to find itself besieged by a sky full of floating icebergs. Destroyed oil rigs, mysteriously reborn, clamber from the sea and onto the land, driven by an obscure purpose. An anatomy student cuts open a cadaver to discover impossibly intricate designs carved into a corpse's bones—designs clearly present from birth, bearing mute testimony to . . . what? Of such concepts and unforgettable images are made the twenty-eight stories in this collection—many published here for the first time. By turns speculative, satirical, and heart-wrenching, fresh in form and language, and featuring a cast of damaged yet hopeful seekers who come face-to-face with the deep weirdness of the world—and at times the deeper weirdness of themselves—*Three Moments of an Explosion* is a fitting showcase for one of literature's most original voices. Praise for *Three Moments of an Explosion* “China Miéville is dazzling. His latest collection of short stories, *Three Moments of an Explosion*, crowds virtuosity into every sentence.”—The New York Times “You can't talk about [China] Miéville without using the word 'brilliant.' . . . His wit dazzles, his humour is lively, and the pure vitality of his imagination is astonishing.”—Ursula K. Le Guin, *The Guardian* “[A] gripping collection . . . Miéville expertly mixes science fiction, fantasy and surrealism. . . . Amid the longer stories are more cerebral, poetic flash pieces that will haunt the reader beyond the pages of this exceptional book.”—The Washington Post “The stories shine . . . with a winking brilliance.”—The Seattle Times “Mind-bending excursions into the fantastic.”—NPR “Bradbury meets Borges, with Lovecraft gibbering tumultuously just out of hearing.”—Kirkus Reviews (starred review) “*Three Moments of an Explosion* is a book filled with fabulous oddities.”—Entertainment Weekly “Miéville moves effortlessly among realism, fantasy, and surrealism. . . . His characters, whether ordinary witnesses to extraordinary events or lunatics operating out of inexplicable compulsions, are invariably well drawn and compelling.”—Publishers Weekly (starred review) From the Hardcover edition.
