Science for Children introduces readers to the pedagogy of primary and early childhood science education. The book pays special attention to the three strands of science, in accordance with the Australian Curriculum. It also uses the practice

principles and learning outcomes of the national Early Years Learning Framework to present content for babies through to the transition into the Foundation year at school. Science for Children explores various approaches to teaching and learning in science. It covers inquiry approaches in detail; makes explicit links to the 5Es; critiques longstanding approaches, such as discovery approaches and a transmission approach; and explores Indigenous perspectives and a Vygotskian framework. This allows the reader to make informed choices about when to use a particular approach in primary classrooms and early childhood settings. Designed to prepare future educators for practice, Science for Children challenges students and offers practical classroom-based strategies for their science teaching careers.

Spain is an immemorial land like no other, one that James A. Michener, the Pulitzer Prize-winning author and celebrated citizen of the world, came to love as his own. Iberia is Michener's enduring nonfiction tribute to his cherished second home. In the fresh and vivid prose that is his trademark, he not only reveals the celebrated history of bullfighters and warrior kings, painters and processions, cathedrals and olive orchards, he also shares the intimate, often hidden country he came to know, where the congeniality of living souls is thrust against the dark weight of history. Wild, contradictory, passionately beautiful, this is Spain as experienced by a master writer. BONUS: This edition includes an excerpt from James A. Michener's Hawaii. Praise for Iberia "From the glories of the Prado to the loneliest stone villages, here is Spain, castle of old dreams and new realities."—The New York Times "Massive, beautiful . . . unquestionably some of the best writing on Spain [and] the best that Mr. Michener has ever done on any subject."—The Wall Street Journal "A dazzling panorama . . . one of the richest and most satisfying books about Spain in living memory."—Saturday Review "Kaleidoscopic . . . This book will make you fall in love with Spain."—The Houston Post

Wild with Child is a unique collection of true stories by parents who boldly head out into the wilderness with kids in tow (or in the lead, as the case may be). These stories run the gamut of adventure: winter camping, climbing, spelunking, field research, skiing, llama trekking, fishing, hunting, and searching for pirate treasure with children of all ages. Readers should bundle up before they strike out into the Rocky Mountains with Mark Jenkins, whose idea of quality time with the kids is camping in a snow cave. Leslie Leyland-Fields shares deep gratitude as her brood safely migrates to an Alaskan island by bush plane. Maleesha Speer confides her personal evolution as she awakens to the wonder of her unborn child in bear country. Whether just beginning the course of wild parenting or looking back at the trail they've taken, these writers aren't willing to accept Disneyland as the final frontier. Even the most civilized among them insist that their children grow up feeling grass between their toes and sun on their skin. It's a healthy heritage, giving kids a steady set of bearings, making them strong, and helping them rise to challenges.

Conquering America captures the true life experiences of a girl in her mid twenties that got the opportunity to go work at the headquarters of her company in America. It contains fun things she did, the strange things she encountered, the missing and longing for the things she left behind in South Africa as well as finding herself, losing love, finding love and the joys and ordeals she encountered with immigrating to America. The outline of this book is based on the weekly Pittsburgh Posts that she sent to her loved ones back home to inform them on what she is doing, also to educate and tell them what she did and what she found. These weekly posts got very good feedback and her distribution list grew as the months flew past. This book will appeal to everyone that has lived overseas, everyone that is currently living overseas, everyone that wants to live overseas as well as anyone that loves to travel. Life lessons learned and general knowledge obtained is shared in a straightforward manner in this book.
